Note of Appreciation

Canada owes the success of its statistical system to a long-standing partnership between Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.

Note de reconnaissance

Le succès du système statistique du Canada repose sur un partenariat bien établi entre Statistique Canada et la population, les entreprises, les administrations canadiennes et les autres organismes. Sans cette collaboration et cette bonne volonté, il serait impossible de produire des statistiques précises et actuelles.

Symbols

The following standard symbols are used in Statistics Canada publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- -- amount too small to be expressed.
- p preliminary figures.
- r revised figures.
- confidential to meet secrecy requirements of the Statistics Act.

This publication was prepared by the following staff from the Income and Expenditure Accounts Division: Ferhana Ansari, Karen Ashman, Marcel Beaudry, Eric Belzile, Catherine Bertrand, Anne-Marie Bridger, John Butterill, Michel Chevalier, Jacques Delisle, Mary Lou Dubé, Luc Dubois, Dan Finnerty, Katherine Fraser, Gylliane Gervais, Céline Guindon, Cynthia Haggar-Guénette, Journana Harfouche, Louise Jones, Monique Joubert, Sophie Joyal, Karen King, Ron Levesque, Kim Longtin, Anna MacDonald, Emmanuel Manolikakis, Dave McDowell, Patrick O'Hagan, Nona Park, Michel Pascal, André Picard, Robert Puchyr, Sylvia Reid-Hibbert, Giovanni Salvatore, Edith Sederis, Christopher Sham, Jérôme Ste-Marie, Deidre Sunley, Jamie Temple, Debra Tompkins, Alain Tremblay, Lee Tue-Fee, Michel Vallières, Chris Van Milligen, Karen Wilson, Charles Wright, Andrew Yip and Drew Zeller.

For more information about the National Income and Expenditure Accounts, telephone the Income and Expenditure Accounts Division at (613) 951-3640 and ask for the information officer.

The paper used in this publication meets the minimum requirements of American National Standard for Information Sciences - Permanence of Paper for Printed Library Materials, ANSI Z39.48 - 1984.

Signes conventionnels

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- -- nombres infimes.
- p nombres provisoires.
- r nombres rectifiés.
- x confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

Cette publication a été préparée par les employés suivants de la Division des comptes des revenus et dépenses: Ferhana Ansari, Karen Ashman, Marcel Beaudry, Eric Belzile, Catherine Bertrand, Anne-Marie Bridger, John Butterill, Michel Chevalier, Jacques Delisle, Mary Lou Dubé, Luc Dubois, Dan Finnerty, Katherine Fraser, Gylliane Gervais, Céline Guindon, Cynthia Haggar-Guénette, Journana Harfouche, Louise Jones, Monique Joubert, Sophie Joyal, Karen King, Ron Levesque, Kim Longtin, Anna MacDonald, Emmanuel Manolikakis, Dave McDowell, Patrick O'Hagan, Nona Park, Michel Pascal, André Picard, Robert Puchyr, Sylvia Reid-Hibbert, Giovanni Salvatore, Edith Sederis, Christopher Sham, Jérôme Ste-Marie, Deidre Sunley, Jamie Temple, Debra Tompkins, Alain Tremblay, Lee Tue-Fee, Michel Vallières, Chris Van Milligen, Karen Wilson, Charles Wright, Andrew Yip et Drew Zeller.

Pour plus de renseignements sur les Comptes nationaux des revenus et dépenses, communiquez avec la Division des comptes des revenus et dépenses au (613) 951-3640 et demandez l'agent d'information.

Le papier utilisé dans la présente publication répond aux exigences minimales de l'"American National Standard for Information Sciences" - "Permanence of Paper for Printed Library Materials", ANSI Z39.48 - 1984.

The System of National Accounts

In Canada, the National Accounts have been developed since the close of the Second World War in a series of publications relating to their constituent parts. These have now reached a stage of evolution where they can be termed a "System of National Accounts". For purposes of identification, all publications (containing tables of statistics, descriptions of conceptual frameworks and descriptions of sources and methods) which make up this System carry the term "System of National Accounts" as a general title.

The System of National Accounts in Canada consists of several parts. The annual and quarterly Income and Expenditure Accounts (included with Catalogue Nos. carrying the prefix 13) were, historically speaking, the first set of statistics to be referred to with the title "National Accounts" (National Accounts, Income and Expenditure). The Balance of International Payments data (Catalogue Nos. with prefix 67) are also part of the System of National Accounts and they, in fact, pre-date the Income and Expenditure Accounts.

Greatly expanded structural detail on industries and on goods and services is portrayed in the Input-Output Tables of the System (Catalogue Nos. with prefix 15). The Catalogue Nos. carrying the prefix 15 also provide measures of the contribution of each industry to total Gross Domestic Product at factor cost as well as Productivity Measures.

Both the Input-Output tables and the estimates of Gross Domestic Product by Industry use the establishment as the primary unit of industrial production. Measures of financial transactions are provided by the Financial Flow Accounts (Catalogue Nos. with prefix 13). Types of lenders and financial instruments are the primary detail in these statistics and the legal entity is the main unit of classification of transactors. Balance sheets of outstanding assets and liabilities are published annually.

The System of National Accounts provides an overall conceptually integrated framework in which the various parts can be considered as interrelated sub-systems. At present, direct comparisons amongst those parts which use the establishment as the basic unit and those which use the legal entity can be carried out only at highly aggregated levels of data. However, Statistics Canada is continuing research on enterprise company establishment relationships; it may eventually be feasible to reclassify the data which are on one basis (say the establishment basis) to correspond to the units employed on another (the company or the enterprise basis).

In its broad outline, the Canadian System of National Accounts bears a close relationship to the international standard as described in *System of National Accounts, 1993*, a joint publication of the Commission of the European Communities, International Monetary Fund, Organization for Economic Cooperation and Development, United Nations and World Bank.

Le système de comptabilité nationale

Au Canada, les comptes nationaux ont fait l'objet depuis la fin de la Seconde Guerre mondiale de toute une série de publications portant sur leurs éléments constitutifs propres. Ils ont connu une telle évolution qu'on peut maintenant les qualifier de "Système de comptabilité nationale". Aux fins d'identification, toutes les publications qui font partie du système (elles contiennent des tableaux statistiques, la description du cadre théorique et l'explication des sources et des méthodes) portent le titre général de "Système de comptabilité nationale".

Le système de comptabilité nationale du Canada se divise en plusieurs catégories de comptes. Les comptes annuels et trimestriels des revenus et des dépenses (paraissant dans les publications dont le numéro de catalogue commence par 13) ont constitué le premier ensemble de statistiques à être connu sous le titre de "Comptes nationaux" (Comptes nationaux, revenus et dépenses). Les données sur la balance canadienne des paiements internationaux (numéro de catalogue commençant par 67) font également partie du système de comptabilité nationale; elles ont même existé avant les comptes des revenus et dépenses.

Une nomenclature beaucoup plus détaillée d'industries et de biens et services figure dans les tableaux d'entrées-sorties du système (numéro de catalogue commençant par 15). Les publications dont le numéro de catalogue commence par 15 comprennent aussi les mesures de l'apport de chaque branche d'activité au total du produit intérieur brut au coût des facteurs ainsi que les mesures de productivité.

L'établissement est l'unité primaire de production industrielle tant dans les tableaux d'entrées-sorties que dans les estimations du produit intérieur brut par activité économique. Les comptes de flux financiers (publications dont le numéro de catalogue commence par 13) mesurent les opérations financières. Les catégories de prêteurs et d'instruments financiers forment les éléments de base de ces statistiques et l'entité juridique est le point de départ du classement des agents économiques. Les comptes du bilan des actifs et passifs en cours sont disponibles annuellement.

Le système de comptabilité nationale constitue un ensemble conceptuellement intégré dans lequel les diverses catégories de comptes peuvent être considérées comme des sous-systèmes étroitement liés entre eux. Au stade actuel de développement, on ne peut faire de comparaison directe entre les éléments basés sur l'établissement et ceux qui sont basés sur l'entité juridique que lorsque les données sont groupées dans des catégories très générales. Toutefois, Statistique Canada poursuit ses recherches sur les relations entre l'entreprise, la société et l'établissement. Il sera peut-être possible un jour de reclasser les données établies sur une certaine base (l'établissement par exemple) de manière à les faire correspondre aux données établies sur une autre base (société ou entreprise).

Dans ses grandes lignes, le système de comptabilité nationale du Canada suit de très près la norme internationale exposée dans la publication *System of National Accounts, 1993* produite conjointement par la Commission des Communautés Européennes, le Fonds Monétaire International, l'Organisation pour la Coopération et le Développement, les Nations-Unies et la Banque Mondiale.

Note to Readers

With this release, the Income and Expenditure Accounts and Estimates of Labour Income for 1996 to 1999 have been revised. Revisions to estimates of real Gross Domestic Product at factor cost by industry will occur with the release of the July estimates on September 29, 2000.

Also with this release, a major conceptual change has been introduced to the Income and Expenditure Accounts relating to government employee pension plans. A parallel change was made in the National Balance Sheet Accounts with the release of 1999 estimates on March 29, 2000. Federal and provincial government non-autonomous employer-sponsored pension plans, previously shown in the federal and provincial government sectors, are now part of the personal sector. This change reflects a more complete and consistent treatment of pension saving, resulting in an upward revision to personal saving and an equivalent downward revision to government saving. It has been incorporated into the Income and Expenditure Accounts back to 1961. For more information on the impact of this conceptual change, please visit our website at:

http://dissemination.statcan.ca/english/concepts/dispap.htm

For more information

The 56 National Income and Expenditure Accounts (NIEA) tables are available on day of release in a variety of formats, including CANSIM (Statistics Canada's machine-readable database and retrieval system), diskettes (Catalogue no. 13-001-XDB) and the detailed Tables and Analytical Document (Catalogue no. 13-001-PPB). The latter two can be obtained by contacting the Income and Expenditure Accounts Division's client services officer by phone (613-951-3810), fax (613-951-3618) or Internet: iead-info-dcrd@statcan.ca. In addition, information officers (613-951-3640) answer questions about the NIEA orally, by mail or by fax. There is a minimum charge of \$40 (plus \$0.50 per page) for information sent by mail and of \$40 (plus \$1.50 per page) for information sent by fax. Higher charges apply when the information requested is not part of the official NIEA tables. Payment is due in advance, normally by Visa, MasterCard or American Express. Statistics Canada catalogued publications can be ordered using the tollfree telephone number on the inside cover.

Note aux lecteurs

À l'occasion de cette diffusion, les Comptes des revenus et dépenses et les Estimations du revenu du travail ont été révisés pour les années 1996 à 1999. Les estimations du Produit intérieur brut au coût des facteurs feront l'objet d'une révision analogue lors de la diffusion des résultats de juillet, prévue pour le 29 septembre 2000.

À la même occasion, on a aussi apporté une révision conceptuelle majeure touchant les régimes de retraite des employés du secteur public aux Comptes des revenus et dépenses. Un changement correspondant a été apporté aux Comptes du bilan national, dont les estimations pour 1999 ont été diffusées le 29 mars 2000. Les régimes de retraite non autonomes des administrations fédérale et provinciales, qui faisaient auparavant partie du secteur de l'administration fédérale ou de celui des administrations provinciales, font désormais partie du secteur des particuliers. Ce changement traduit un traitement plus cohérent de l'épargne sous forme de pensions et entraîne une révision à la hausse du revenu personnel et une révision à la baisse correspondante de l'épargne des administrations. Il a été apporté aux Comptes des revenus et dépenses rétrospectivement jusqu'à 1961. Pour plus de renseignements sur l'effet de ce changement conceptuel, prière de consulter notre site web:

http://dissemination.statcan.ca/francais/concepts/dispap.htm

Pour plus de renseignements

Les 56 tableaux des Comptes nationaux des revenus et dépenses (CNRD) sont disponibles le jour de la parution sous diverses formes: CANSIM (base de données ordinolingue et le système d'extraction de Statistique Canada), disquettes (Nº 13-001-XDB au catalogue) et Tableaux et document analytique (N° 13-001-PPB au catalogue). Ceux-ci peuvent être obtenus en communiquant avec l'agent des Services à la clientèle au (613) 951-3810, Division des comptes des revenus et dépenses, par télécopieur, au (613) 951-3618 ou via l'Internet: iead-info-dcrd@statcan.ca. En outre, les agents d'information au (613) 951-3640 peuvent répondre aux questions sur les CNRD verbalement, par la poste ou par télécopieur. Il y a un coût minimum de 40 \$ (plus 0,50 \$ par page) pour l'information envoyée par la poste et de 40 \$ (plus 1,50 \$ par page) pour celle envoyée par télécopieur. Des frais plus élevés sont exigés quand l'information demandée ne fait pas partie des tableaux publiés des CNRD. Le paiement doit être versé à l'avance, par Visa, MasterCard ou American Express. Les publications figurant au catalogue de Statistique Canada peuvent être commandées par téléphone, en utilisant le numéro sans frais, qui figure à l'intérieur de la page couverture.

Technical Series

The Income and Expenditure Accounts Division (IEAD) has a series of technical paper reprints, which users can obtain without charge. A list of the reprints currently available is presented below. Highlights

First quarter 2000

Real Gross Domestic Product grew 1.2% in the first quarter of 2000, continuing the solid performance seen throughout the past year. Export demand and strength in the domestic economy contributed to the advance. For the first time, Canada's GDP in nominal terms exceeded one trillion dollars.

Export growth accelerated to 3.3%, with important advances in exports of machinery and equipment (notably telecommunications equipment and aircraft), automotive products and crude petroleum.

Business plant and equipment investment rose 2.7%, on top of an even more robust gain in the previous quarter. Investment has been fuelled by healthy gains in corporate incomes, as undistributed corporation profits have increased on average 15% per quarter since commodity prices bottomed out in mid 1998.

Table 2. Real GDP growth*

Faits saillants

Premier trimestre 2000

Le Produit intérieur brut réel a augmenté de 1,2 % au premier trimestre de 2000, ce qui marque la poursuite de la solide performance observée tout au long de l'année dernière. La demande à l'exportation et la vigueur de l'économie intérieure ont contribué à cette progression. C'est la première fois que le PIB canadien, en valeur nominale, a dépassé un billion de dollars.

La croissance des exportations s'est accélérée pour atteindre 3,3 % avec de fortes hausses des exportations de machines et matériel (notamment le matériel de télécommunications et les aéronefs), de produits automobiles et de pétrole brut.

L'investissement des entreprises en usines et matériel s'est accru de 2,7 %, après une hausse encore plus robuste au trimestre précédent. L'investissement a été stimulé par la forte hausse des revenus des sociétés, les bénéfices non répartis ayant augmenté de 15 % en moyenne par trimestre depuis le plancher atteint par les prix des produits de base au milieu de 1998.

^{*} The change is the growth rate from one period to the next. The annualized change is the quarterly growth rate compounded to an annual rate. The year-over-year change is the growth rate of a given quarter compared with the same quarter in the previous year.

Personal income strengthened in the first quarter, increasing 1.4% in nominal terms. Broad-based gains occurred in labour income, which increased 1.9%, the strongest quarterly growth since the late 1980s.

Consumer spending grew 0.8%, a slight deceleration from rates evidenced throughout the previous year. Residential construction remained strong, increasing 2.4%, with renovations and transfer costs from the sale of existing homes posting solid gains. Growth in new housing construction activity decelerated to 0.8% after a

Le revenu personnel s'est raffermi, avec une croissance nominale de 1,4 %. Il y a eu des augmentations généralisées dans le revenu du travail, dont la hausse de 1,9 % constitue la meilleure croissance trimestrielle depuis la fin des années 80.

Les dépenses de consommation ont augmenté de 0,8 %, soit un léger ralentissement par rapport aux taux observés tout au long de l'année précédente. La construction résidentielle est demeurée vigoureuse, en hausse de 2,4 %, grâce à de forts gains dans les rénovations et les coûts de transfert sur la vente de maisons existantes. La croissance de l'activité de

^{*} La variation est le taux de croissance d'une période à l'autre. La variation annualisée est le taux de croissance trimestriel composé au taux annuel. La variation d'une année à l'autre est le taux de croissance d'un trimestre donné par rapport au même trimestre de l'année précédente.

robust fourth quarter.

Domestic prices, as measured by the GDP chain price index, rose 1.0% in the first quarter, up from average quarterly gains of 0.8% in 1999. Rising oil prices were a contributing factor, boosting the cost of petroleum related products throughout the economy. The price of crude oil more than doubled since March of 1999.

Export growth accelerates

Export growth increased to 3.3% in the quarter. Machinery and equipment, notably telecommunications equipment and aircraft, enjoyed strong export sales. Automotive product exports advanced for the third consecutive quarter. The volume of exports of crude petroleum jumped by 16.1% while natural gas exports fell.

Telecommunication equipment exports have increased 54% on a year over year basis. Exports of Internet infrastructure equipment to the U.S. were a major contributor to this increase.

Healthy growth in plant and equipment investment

Business plant and equipment investment rose a healthy 2.7%, on top of an even more robust climb in the previous quarter. Investment in non-residential structures grew 3.0%, with gains concentrated in engineering construction as oil patch activity picked up in response to higher prices.

Business machinery and equipment investment increased 2.5%, with purchases of computers and other office equipment contributing a large part of the gain. Business spending on computers rose 4.4%, on top of a double-digit increase in the fourth quarter of 1999 when investment was boosted in anticipation of Y2K.

Other areas of strength in machinery and equipment investment were transportation equipment other than cars, industrial machinery and telecommunications equipment. Investment in autos fell 9.5% following two solid quarterly increases.

construction résidentielle neuve est tombée à 0,8 %, après un solide quatrième trimestre.

Le niveau des prix intérieurs, mesuré par l'indice des prix en chaîne du PIB, a progressé de 1,0 %, une hausse par rapport au gain trimestriel moyen de 0,8 % en 1999. La remontée des prix du pétrole y a contribué, propageant le coût des produits reliés au pétrole dans l'ensemble de l'économie. Le prix du pétrole brut a plus que doublé depuis mars 1999.

Accélération de la croissance des exportations

La croissance des exportations s'est accélérée pour atteindre à 3,3 %. Les exportations de machines et matériel, notamment le matériel de télécommunications et les aéronefs, ont été vigoureuses. Les exportations de produits automobiles ont progressé pour un troisième trimestre consécutif. Le volume des exportations de pétrole brut a bondi de 16,1 %, tandis que les exportations de gaz naturel ont chuté.

Les exportations de matériel de télécommunications ont augmenté de 54 % année sur année. Les exportations de matériel d'infrastructure Internet vers les États-Unis ont largement contribué à cette croissance.

L'investissement en usines et matériel reste vigoureux

L'investissement des entreprises en usines et matériel s'est accru fortement (+ 2,7 %), après une progression encore plus robuste au trimestre précédent. L'investissement en ouvrages non résidentiels a augmenté de 3,0 %, les hausses étant concentrées dans les ouvrages de génie, alors que l'activité pétrolière reprenait par suite de la montée des prix.

L'investissement des entreprises en machines et matériel a augmenté de 2,5 %, les achats d'ordinateurs et autre matériel de bureau constituant une large part de cette hausse. Les dépenses en ordinateurs ont grimpé de 4,4 %, après une hausse dans les deux chiffres au quatrième trimestre de 1999, alors que les entreprises avaient accru l'investissement en prévision du passage à l'an 2000.

Le matériel de transport autre que les voitures, les machines industrielles et le matériel de télécommunications ont été les autres sources de vigueur dans l'investissement en machines et matériel. L'investissement en voitures a chuté de 9,5 %, après deux solides augmentations trimestrielles.

Personal income strengthens

Personal income growth accelerated to 1.4% in nominal terms, extending a string of several solid quarterly advances. Labour income rose 1.9%, the highest quarterly increase since the late 1980s. The business sector was the main contributor, where payrolls increased 2.3%. Both employment and average earnings advanced, with broad-based gains spread throughout a number of industries.

Growth in unincorporated business income slowed for the second consecutive quarter, and government transfers to persons edged up as a drop in employment insurance benefits was offset by a moderate increase in other transfers.

Consumer spending advances

Consumer expenditures increased by 0.8%, a slight deceleration from growth rates evidenced throughout 1999. Personal outlays on new and used motor vehicles stalled in the quarter, after showing strength throughout the previous year.

Spending on financial, legal and other services increased for the fifth consecutive quarter, as the volume of transactions on Canadian financial markets boosted personal outlays on stock and bond commissions.

Housing market keeps moving

Investment in residential structures continued to grow as it had throughout 1999. A 4.5% increase in renovations marked the second strong quarter of growth for this type of activity. Strong growth in ownership transfer costs is indicative of a strong home resale market. New housing construction activity slowed to 0.8% growth after a 5% increase in the previous quarter.

Raffermissement du revenu personnel

La croissance du revenu personnel a atteint 1,4 % en valeur nominale, ce qui prolonge une série de plusieurs solides hausses trimestrielles. Le revenu du travail a augmenté de 1,9 %, la meilleure hausse trimestrielle depuis la fin des années 80, surtout imputable au secteur des entreprises, où la rémunération a grimpé de 2,3 %. L'emploi et les gains moyens se sont accrus, grâce à des augmentations dans plusieurs branches d'activité.

La croissance du revenu des entreprises individuelles a ralenti pour un deuxième trimestre d'affilée. Les transferts des administrations publiques aux personnes ont légèrement augmenté, le repli des prestations d'assurance-emploi ayant été compensé par une modeste hausse des autres transferts.

Hausse des dépenses de consommation

Les dépenses des consommateurs ont augmenté de 0,8 %, soit un ralentissement par rapport aux taux de croissance observés tout au long de 1999. Les dépenses en véhicules automobiles neufs et d'occasion stagnent, après la vigueur affichée tout au long de l'année précédente.

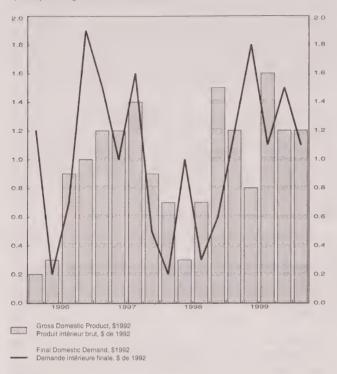

Les dépenses en services financiers, juridiques et autres ont progressé pour un cinquième trimestre consécutif. La hausse des transactions sur les marchés financiers canadiens a entraîné des dépenses personnelles accrues au titre des commissions sur les actions et obligations.

Activité soutenue sur le marché de l'habitation

L'investissement en bâtiments résidentiels a continué de croître comme tout au long de 1999. Une hausse de 4,5 % des rénovations a marqué le deuxième solide trimestre de croissance de cette activité. Une robuste croissance des coûts de transfert de propriété est un indice de la vigueur du marché de la revente des maisons. La construction de maisons neuves a ralenti pour se fixer à 0,8 %, après une hausse de 5 % au trimestre précédent.

Footnotes

Table 5

- [1] Sum of accrued net income of farm operators from farm production and net income of non-farm unincorporated business, including rent.
- [2] Total income minus current transfers to government.

Table 6

- [1] Includes interest and dividends received from nonresidents.
- [2] Interest on the public debt is routed to other sectors of the economy through the corporate sector due to incomplete information on the transactions of government debt instruments.

Table 9, 10, 11, 12 and 13

[1] [2] In GDP, government current expenditure is recorded on a net basis, that is, after deduction of sales of goods and services. In the government sector accounts, sales of goods and services to other sectors are shown separately as part of revenue, and current expenditure is recorded on a gross basis, which leaves saving unchanged.

Table 14

[1] [2] [3] This account presents the saving as well as the net lending or borrowing position of non-residents with respect to their transactions with Canadian residents. The sign of these aggregates is, therefore, the reverse of what appears in the Canadian Balance of International Payments.

Table 15

[1] [2] [3] [4] By definition, the sum of this aggregate over all sectors is equal to zero.

Notes

Tableau 5

- [1] Somme du revenu comptable net des exploitants agricoles au titre de la production agricole et du revenu net des entreprises individuelles non agricoles, loyers compris.
- [2] Revenu total moins transferts courants aux administrations publiques.

Tableau 6

- [1] Comprends les intérêts et les dividendes reçus des nonrésidents.
- [2] Les intérêts sur la dette publique sont affectés aux autres secteurs de l'économie par le biais du secteur des sociétés en raison d'un manque d'information sur les transactions de titres de dette des administrations.

Tableau 9, 10, 11, 12 et 13

[1] [2] Dans le PIB, les dépenses courantes des administrations sont enregistrées sur une base nette, c'est-à-dire après déduction des ventes de biens et services. Dans les comptes sectoriels des administrations, les ventes de biens et services aux autres secteurs sont montrées séparément sous les revenus et les dépenses courantes sont enregistrées sur une base brute, ce qui laisse l'épargne inchangée.

Tableau 14

[1] [2] [3] Ce compte présente la position des non-résidents en regard de leurs transactions avec les résidents canadiens, et ce pour l'épargne ainsi que, le prêt ou l'emprunt net. Conséquemment, le signe de ce agrégats est inversé par rapport à ce qui figure dans la balance des paiements internationaux du Canada.

Tableau 15

[1] [2] [3] [4] Par définition, la somme de cet agrégat pour tous les secteurs est égal à zéro.

Glossary

Accrued net income of farm operators from farm production. Net income received by farm operators from farm production plus the undistributed portion of earnings arising out of the operations of the Canadian Wheat Board and the adjustment made to shift agricultural subsidies from a cash to an accrual basis.

Association of individuals. Non-profit institutions serving households, such as churches, labour unions and charitable organizations, plus credit unions, trusteed pension plans, life insurance companies, fraternal societies and mutual non-life insurance companies. They are treated as businesses with respect to their capital outlays and their intermediation activities, but as persons with respect to their current expenses.

Bonds. Marketable and non-marketable securities issued in Canadian or foreign currency with an original term to maturity in excess of one year. Includes:

Canada bonds. Direct bonds of the federal government (of which, Canada Savings Bonds) and guaranteed federal enterprise bonds.

Provincial bonds. Direct bonds of provincial governments (of which, provincial savings bonds) and quaranteed provincial enterprise bonds.

Municipal bonds. Direct bonds of municipalities and quaranteed municipal enterprise bonds.

Other bonds. Bonds issued by Canadian corporations, hospitals and non-profit institutions, as well as non-guaranteed bonds of government business enterprises. Also included are asset-backed securities.

Business sector. All transactors producing goods and services for sale at a price intended to cover costs of production, namely corporations, government business enterprises, unincorporated businesses and independent professional practitioners. Also includes owners occupying their own dwelling, treated as businesses renting to themselves, and associations of individuals, treated as businesses with respect to their capital outlays and their intermediation activities.

Canada and Quebec Pension Plans. The part of the government sector which consists of the operations of the Canada and Quebec Pension Plans, established in 1966.

Canadian residents. Institutional units, such as persons, corporations and non-profit institutions, which have a centre of economic interest (a dwelling, a business location) in the economic territory of Canada.

Capital and financial account. This account shows, for each major sector, a) the saving and acquisition of non-financial capital and the difference between them, called net lending; and b) transactions in financial assets, transactions in liabilities and the difference between them, called net financial investment. In theory, the two balancing items, net lending and net financial investment, are equal; in practice, imperfections in the statistics lead to a difference between the two, shown as a statistical discrepancy.

Capital consumption allowances. Allowances for the using up of capital in the productive process. They are calculated for business and government fixed assets as well as housing. They also include miscellaneous valuation adjustments bringing business accounting records into conformity with national accounts definitions, such as the addition of claims paid by insurance companies to compensate for fire and other losses.

Capital transfers. Transfers in cash or in kind, out of the wealth of the donor (inheritances and migrants' funds, transfer of ownership of an asset or cancellation of a liability), or transfers which the recipient is expected to use towards the acquisition of an asset. Capital transfers have no effect on the saving of the donor or recipient.

Chain price indexes. Price indexes where the values of the aggregate index for two adjacent periods, calculated from the detailed price indexes, are based on the expenditure pattern from the first of the two periods, and where these index values are linked together in a chain to form the index.

Chain Fisher volume index. A measure of change in volume from period to period. It is calculated as the geometric mean of a chain Paasche volume index and a chain Laspeyres volume index. In other words, it is an average of two distinct measures of change in volume: one calculated as if prices were constant in the first of two adjacent periods (Laspeyres volume) and the other calculated as if prices were constant in the second of the two adjacent periods (Paasche volume).

Claims. Financial instrument comprising:

Corporate claims. Loans, advances and issues of debt between associated corporations; on the asset side, also includes investment in shares between associated corporations.

Government claims. Claims between governments, between related government business enterprises or between a parent government and its enterprises, in the form of shares, debt securities, loans and advances.

Constant prices. A valuation expressed at the prices prevailing during a fixed reference or base period. At present, the base period for national accounts estimates in constant prices is 1992, which means that they have been restated in 1992 prices. See **current prices**.

Consumer credit. Credit extended to persons for purchasing consumer goods and services.

Consumer goods. New goods acquired by households for their own consumption. Comprise three categories: a) Durable goods, which can be used repeatedly or continuously for more than one year, such as motor vehicles and major appliances; b) Semi-durable goods, which can be used on multiple occasions and have an expected lifetime of one year or somewhat more, such as clothing, footwear and linens; c) Non-durable goods, which can be used only once, such as food, gasoline, alcoholic beverages and tobacco; in practice, the latter also include a few goods of little value used more than once, such as household supplies.

Consumer services. Services consumed by households, such as rent (including the rent imputed on owner-occupied housing), transportation, education, medical care, child care, food and accommodation services as well as travel expenditures of Canadians abroad, less travel expenditures of foreigners in Canada. Also includes the current (operating) expenses of associations of individuals.

Contributions to social insurance plans. Employer and employee contributions to employment insurance, government pension funds, the Canada and Quebec Pension Plans and workers' compensation.

Corporate and government business enterprise sector. All business transactors whose legal form of organization is the corporation, plus government business enterprises. This sector is divided into non-financial and financial enterprises. The latter are comprised of several sub-sectors (Bank of Canada, chartered banks, credit unions, life insurance companies, trusteed pension funds, mutual funds, etc.). The intermediation activities of credit unions, life insurance companies and trusteed pension funds shown as assets of these sub-sectors are balanced by claim liabilities which, in turn, are assets of the persons and unincorporated business sector.

Corporation profits before taxes. The net earnings from economic activity of privately-held corporations, measured after deduction of capital consumption allowances.

Currency and deposits. Financial instruments comprising:

Currency and bank deposits. Deposits denominated in Canadian dollars at chartered banks in Canada and at the Bank of Canada, plus Canadian currency and coin in circulation.

Other deposits. All deposits at other Canadian deposit-taking institutions, including shares in credit unions.

Foreign currency and deposits. Holdings of foreign currency and foreign currency denominated deposits at chartered banks in Canada, foreign branches and subsidiaries of Canadian chartered banks, foreign banks and other foreign deposit-taking institutions.

Current prices. A valuation at current prices is expressed at the prices prevailing during the period being referred to. See **constant prices.**

Current transfers. Transfers out of the income of the donor, reducing his saving and adding to that of the recipient.

Current transfers from corporations to persons.Charitable donations and other contributions.

Current transfers from government to business.Subsidies to the business sector.

Current transfers from government to non-residents. Pensions paid to non-residents, contributions to international organizations and economic and technical assistance as well as food aid provided by the Canadian International Development Assistance Agency and other governmental agencies.

Current transfers from government to persons. Payments such as the Child Tax Benefit/Credit, Employment Insurance benefits, old age security benefits, welfare payments, scholarships and research grants, workers' compensation benefits, grants to aboriginal peoples and their organizations, public service pensions and pensions paid under the Canada and Quebec Pension Plans.

Current transfers from non-residents to government. Withholding taxes paid by non-residents to the Government of Canada.

Current transfers from non-residents to persons.Pensions paid by foreign governments to Canadian residents plus remittances by non-residents to Canadian residents.

Current transfers from persons and unincorporated businesses to government. Income taxes, contributions to social insurance plans and other current transfers.

Current transfers from persons to corporations. The transfer portion of interest on the consumer debt.

Current transfers from persons to non-residents. Remittances by Canadian residents (particularly religious and charitable organizations) to non-residents and withholding taxes paid abroad.

Direct taxes. Current transfers to government from persons, unincorporated businesses, corporations and government business enterprises in the form of taxes on income from employment, property, holding gains or any other source. Direct taxes from persons are recorded on a cash basis, and those from corporations and government business enterprises, on an accrual basis.

Direct taxes from persons. Income taxes, succession duties and estate taxes paid by persons and unincorporated businesses.

Dividends. Income payable and receivable in respect of corporate equities (cash dividends) and further equity participation in corporate enterprises (stock dividends).

Economic territory. The economic territory of a country encompasses the geographic territory, plus the air space, territorial waters and continental shelf, as well as its territorial enclaves abroad (embassies, consulates, military bases...).

Exports and imports of goods and services. Current receipts and payments arising out of transactions in moveable goods and services between residents and non-residents. Services include travel, freight and shipping, business services, government transactions, financial intermediation and other services.

Factor cost. A valuation reflecting the cost of the factors of production (labour and capital). It corresponds to the value remaining after the deduction from market prices of all applicable taxes and subsidies. See **market prices**.

Farm inventories. Farm output stored on farms; includes grains, tobacco, potatoes and livestock.

Final domestic demand. The sum of personal expenditure on consumer goods and services, net government current expenditure on goods and services, government gross fixed capital formation and business gross fixed capital formation.

Fixed-weighted price indexes. Also known as "Laspeyres" indexes, these are price indexes where a fixed pattern of expenditure from some base period is used to aggregate the detailed price indexes in each period.

Foreign investments. All marketable financial instruments (bonds, short-term paper and shares) which are liabilities of the non-resident sector (foreign governments and corporations) and assets of domestic sectors.

Government business enterprises. Government enterprises and agencies which operate on a profit or cost recovery basis and whose motivation is similar to that of private enterprises. Their total profits (net of losses) are recorded in GDP, while only the profits remitted to government are recorded in the government income and

outlay account, under government investment income. The difference between these two measures, retained earnings, forms part of business sector saving.

Government current expenditure on goods and services. All current outlays for goods and services by the government sector, including wages and salaries of government employees. It also includes expenditure on weapons for defence and an imputation for the depreciation of government fixed assets. It is recorded before deduction of revenues from sales of goods and services in the government income and outlay account, and after deduction of these revenues in GDP (net government current expenditure on goods and services).

Government investment income. In GDP, includes interest income of public service pension plans, other interest and dividend income of governments and royalties. In the government income and outlay account, it also includes the profits of government business enterprises remitted to government. See government business enterprises.

Government sales of goods and services. Revenues from the sale of goods and services, such as water charges, landing fees and charges for government documents.

Government sector. All departments, agencies, and funds (budgetary and non-budgetary) of the federal, provincial and local levels of government, as well as crown corporations which receive more than 50% of their revenues in grants from their parent governments. Also included are school boards, universities, non-profit colleges, hospitals, non-profit residential care facilities, as well as the Canada and Quebec Pension Plans.

Grain in commercial channels. Grain in the hands of the Canadian Wheat Board or private grain dealers.

Gross Domestic Product. The total unduplicated value of the goods and services produced in the economic territory of a country or region during a given period. GDP can be measured three ways: as total incomes earned in current production, as total final sales of current production, or as total net values added in current production. It can be valued either at factor cost or at market prices.

Gross Fixed Capital Formation. Expenditures by the government and business sectors on buildings, engineering construction and machinery and equipment. Includes imports of used machinery and equipment, which constitute additions to domestic capital stock, and transfer costs on the sale of existing fixed assets (i.e. real estate commissions). Comprises three broad categories: residential structures, non-residential structures and machinery and equipment. Government fixed capital formation includes spending on non-military defence buildings and equipment. Abbreviated as fixed capital in the capital and financial account. Synonym of investment in fixed capital.

Gross National Product. A measure of income equal to the Gross Domestic Product at market prices, plus investment income received from non-residents, less investment income paid to non-residents.

Holding gains and losses. Additions to or subtractions from income which result from selling an asset for more or less than its purchase price. As holding gains and losses are not related to current production, they are excluded from GDP through the inventory valuation adjustment.

Households. A group of persons who share the same living accommodation, pool some, or all of their income and wealth and consume certain goods and services collectively. They may engage in any other kind of economic activity.

Implicit price indexes. Also known as variable-weighted or "Paasche" indexes (although not strictly of the Paasche type), these price indexes are a by-product of the deflation procedure, obtained by dividing an expenditure series expressed at current prices by the corresponding series expressed at constant prices.

Imports of goods and services. See exports and imports of goods and services.

Income and outlay account. This account shows, for each major sector, all sources of current income (production, receipts of property income and other transfers) and all current outlays (expenditure on goods and services, payments of property income and other transfers), as well as saving, equal to a sector's income less its outlay.

Indirect taxes. Taxes which add to the cost of production and are likely to be reflected in market prices paid by the purchaser, such as sales and excise taxes, import duties and property taxes.

Inheritances and migrants' funds. Capital brought to Canada by immigrants at the time of arrival or transferred outside Canada by emigrants at time of departure, or intended to be transferred at a later date, plus bequests to Canadian residents from non-residents or vice-versa.

Interest and miscellaneous investment income. Investment income of persons, except dividends, plus government investment income, less net investment income of persons and governments from non-residents, less the transfer portion of interest on the consumer debt, less the interest on the public debt.

Interest on the consumer debt. Interest paid by persons on account of liabilities incurred to finance personal expenditure on consumer goods and services. Consists of two parts: the administrative expenses, representing the cost of rendering services to borrowers, and the remaining "transfer portion".

Interest on the public debt. Interest payments on liabilities of the government sector.

Inventory valuation adjustment. The difference between the change in inventory book values and the value of physical change in inventories, which is a measure of the net holding gain or loss realized by business as a result of price changes. Holding gains and losses on inventories are present in corporation profits and other income aggregates, and must be removed in order to measure the value of current production.

Investment in fixed capital. Synonym of **gross fixed** capital formation.

Investment in inventories. Change in the physical volume of business and government inventories, valued at the average market prices of the period. Business inventories consist of two categories: a) non-farm inventories and b) farm inventories and grain in commercial channels. Government inventories include only uranium stocks, up to 1981, and those held by federal government commodity agencies, such as the Canadian Dairy Commission. Abbreviated as inventories in the capital and financial account.

Investment income of persons. Interest on deposits, bonds, mortgages, etc. and royalties paid by corporations, governments and non-residents to persons, plus investment income accumulating on their behalf in trusteed pension plans and life insurance funds, or on behalf of other associations of individuals. Excludes dividends.

Investment income paid to non-residents. Investment income payments on Canadian liabilities to non-residents, inclusive of any applicable withholding taxes. Includes interest, dividends and other payments such as net expenses of Canadian banks from foreign currency transactions and net revenues of foreign insurance companies from insurance operations in Canada.

Investment income received from non-residents. Investment income earned by Canadian residents on their assets abroad, inclusive of any applicable withholding taxes. Includes interest, dividends and other receipts such as net earnings of Canadian banks from foreign currency transactions and net revenues of Canadian insurance companies from insurance operations abroad.

Labour income. The sum of wages and salaries plus supplementary labour income.

Life insurance and pensions. Liability of life insurance companies and trusteed pension plans to policyholders or beneficiaries and federal government liability with respect to annuities sold under the Government Annuities Act. Asset of policy holders or beneficiaries.

Loans. Financial instrument comprising **Bank loans** and **Other loans.** Negotiated loans made by chartered banks and other financial institutions.

Machinery and equipment. Capital expenditures on durable, tangible goods with an expected service life of one year or more, such as furniture, motor vehicles, office machines and equipment not permanently installed (permanently built-in equipment belongs to non-residential construction). Includes installation and delivery costs.

Market prices. A valuation expressed in terms of the prices actually paid by the purchaser, that is, after all applicable taxes and subsidies. See **factor cost.**

Military pay and allowances. The part of labour income consisting of payments to members of the Armed Forces serving in Canada or abroad. Includes military pay, allowances and the employer's social contributions. Excludes veterans' allowances, treated as transfer payments.

Mortgages. Negotiated loans and agreements of sale secured by real property, mostly residential buildings. Includes first, second and third mortgages. Mortgages are characterized by blended repayments, usually monthly, of principal and interest.

Net acquisition of existing assets. A sector's purchases less sales of used fixed assets and land. Business purchases less sales of natural resources, resource rights and intangible assets are also included. Abbreviated as **existing assets.**

Net capital transfers. Capital transfers from other sectors less capital transfers to other sectors.

Net domestic product at factor cost. The sum of all incomes arising from production, or ownership of assets used in production, within the economic territory of a country or region. Includes labour income, profits before taxes, interest and miscellaneous investment income, accrued net income of farm operators from farm production, net income of non-farm unincorporated business, including rent, and the inventory valuation adjustment. Differs from GDP at factor cost in that it excludes capital consumption allowances.

Net financial investment. The net lending (or borrowing) of a sector can be measured either through incomes and expenditures or through financial transactions. Under the financial transactions approach, net lending is called net financial investment. It is equal to a sector's transactions in financial assets less its transactions in liabilities. See net lending and capital and financial account.

Net income of non-farm unincorporated business, including rent. Earnings of unincorporated proprietors, except farm operators, from their own business. Includes the

net income of unincorporated businesses and self-employed individuals, as well as the net rental income of persons.

Net income received by farm operators from farm production. Gross proceeds from the sale of farm products, plus subsidies on a cash basis, plus the imputed value of farm output consumed by farming households, plus investmen in farm inventories, less farm operating expenses and depreciation on farm buildings and equipment. Excludes other types of income, such as net rent or interest receipts, and profits of incorporated farms. See accrued net income of farm operators from farm production.

Net inheritances and migrants' funds. Funds brought to Canada by immigrants, less funds transferred outside Canada by emigrants.

Net investment income from non-residents. Investment income received from, less investment income paid to, non-residents.

Net lending. The net lending (or borrowing) of a sector can be measured either through incomes and expenditures or through financial transactions. Under the income and expenditure approach, net lending is the difference between internally generated funds and outlays on non-financial capital. A sector's net lending equals its saving, plus its capital consumption allowances and net capital transfers from non-residents, less its investment in fixed capital and inventories. See net financial investment and capital and financial account.

Net national income at factor cost. Net domestic product at factor cost plus net investment income from non-residents.

Net rental income. Earnings of persons, after expenses, arising from the ownership of residential property, whether rented or owner-occupied, and from the rental of non-residential property.

Non-farm inventories. Inventories of raw materials, goods-in-process and finished products.

Non-financial capital acquisition. The gross fixed capital formation of a sector, plus its investment in inventories and its net acquisition of existing assets. Does not apply to the non-resident sector which, by definition, can only engage in financial investment.

Non-resident sector. All transactors who do not have a centre of economic interest (a dwelling, a business location) in the economic territory of Canada. By definition, non-residents can only engage in financial investment. Any transactor making non-financial investment is deemed to be a resident.

Non-residential structures. Construction of industrial, commercial and institutional buildings, such as plants, warehouses, shopping centres, office buildings, schools and hospitals, plus construction of highways, bridges, railway tracks, canals, waterworks, sewage systems, dams, hydro or thermal generating plants, telephone lines, oil and gas facilities, etc. Includes new construction, conversions resulting in a structural change, major renovations, permanently built-in equipment and site preparation.

Non-residential structures and equipment. The sum of business investment in non-residential structures and in machinery and equipment.

Official reserves. The sum of a) official holdings of gold and foreign exchange (U.S. dollars and deposits in other convertible currencies), b) loans to or from the International Monetary Fund on general account, and c) special drawing rights.

Other current transfers from persons to government. Transfers not classified as direct taxes. Includes hospital and medical care premiums, various licences and permits, fines and penalties, as well as donations to entities within the government sector.

Other financial assets / Other liabilities. Various items not included under other financial instruments, such as accrued interest, interest receivable or payable and prepaid expenses.

Outside Canada. Embassies and other Canadian government offices abroad which are part of the territory of Canada.

Personal disposable income. Personal income less current transfers to government.

Personal expenditure on consumer goods and services. Household spending on new consumer goods and on consumer services, plus any mark-up on used goods. Operating expenses of associations of individuals serving households are also included, under consumer services.

Personal income. The sum of all incomes received by persons residing in Canada, whether factor earnings from current production or current transfers from other sectors, plus the investment income that associations of individuals accumulate on their own behalf or on behalf of persons.

Personal saving. Personal disposable income less personal expenditure on consumer goods and services, less current transfers from persons to corporations and to non-residents.

Personal sector. All persons, households and associations of individuals serving households.

Persons and unincorporated business sector. Transactors of the personal sector plus those of the unincorporated business sector. In the capital and financial account, transactions of these two sectors are consolidated. In addition, in this account, although credit unions, life insurance companies and trusteed pension plans appear as sub-sectors of the corporate and government business enterprise sector, their transactions in financial assets are balanced by liabilities which, in turn, are recorded as assets of the persons and unincorporated business sector.

Reinvested earnings of direct investment enterprises. Profits earned on, less dividends received from, direct foreign investment. From 1961, equity income from direct foreign investment is recorded on an accrual rather than cash basis in the Balance of International Payments. This gives rise to an additional reconciliation item between the former and the National Economic and Financial Accounts, in which this change has not been incorporated.

Residential structures. Construction of dwellings (subdivided into single, semi-detached, row housing and apartments), garages, cottages and mobile homes. Includes new construction, conversions resulting in a structural change and major renovations (together referred to as "alterations and improvements"), permanently built-in equipment, site preparation and transfer costs such as real estate commissions.

Saving. The current income of a sector, less its current expenditure. Includes current transfers but excludes capital consumption allowances and capital transfers. Referred to as gross saving when it includes capital consumption allowances.

Sector accounts. The quarterly national accounts now include the full sector accounts, previously only released on an annual basis. These sector accounts record the income, outlay, saving, non-financial and financial investment, borrowing and net lending for the four main sectors: a) persons and unincorporated businesses; b) corporations and government business enterprises; c) government; and d) non-residents. See income and outlay account and capital and financial account.

Shares. Financial instrument consisting of common and preferred shares (including term preferred shares and mutual fund shares), plus contributed surplus. Stock issued by a government business enterprise to a parent government is classified to government claims.

Short-term paper. Marketable financial instrument comprising:

Government of Canada short-term paper. Treasury bills, which are notes of original term to maturity of less than one year, issued at a discount and sold at auction

every week; also includes Canada bills issued in foreign currency.

Other short-term paper. Notes of original term to maturity of one year or less, issued at a discount by a variety of financial and non-financial institutions; includes provincial and municipal Treasury bills.

Statistical discrepancy. Double-entry bookkeeping is fundamental in national accounting and several aggregates, such as GDP and net lending, can be calculated in two or more ways. In principle, all the measures of an aggregate are equal. In practice, differences invariably arise between them due to imperfections in basic statistics and estimation techniques. This difference is called a statistical discrepancy and serves as the balancing item between two theoretically equal aggregates. It can be recorded as is, like the discrepancy between the two estimates of net lending or it can be divided in two, one half being subtracted from the higher estimate and the other, added to the lower one, like the discrepancy between income-based and expenditure-based GDP.

Subsidies. Transfers from government to the business sector toward current costs of production. These transfers represent additions to the income of producers from current production.

Supplementary labour income. Employers' social contributions, either compulsory or voluntary. Includes retirement allowances and contributions to employment insurance, the Canada and Quebec Pension Plans, other pension plans, workers' compensation, medicare, dental plans, short- and long-term disability insurance, etc.

Surplus or deficit of Canada on current transactions with non-residents. Exports of goods and services less imports of goods and services, plus net investment income from non-residents and net current transfers from non-residents.

Surplus or deficit on current account in the "Canadian Balance of International Payments". The surplus or deficit of Canada on current transactions with non-residents plus net reinvested earnings on direct investment.

Trade accounts receivable/payable. Short-term credit advanced or received in the ordinary course of business by suppliers or buyers of business goods and services.

Transactors. Economic agents who engage in transactions involving the purchase and sale of goods and services and the payment and receipt of factor incomes and transfers.

Transfers. Cash, good, service, or asset other than cash transferred by one transactor to another without counterpart, that is, without the donor receiving anything in return. See **current transfers** and **capital transfers**.

Unincorporated business sector. All business transactors whose legal form of organization is not the corporation. Includes independent business operators, self-employed farmers, fishermen and professionals and unincorporated landlords (including those renting to themselves).

Wages and salaries. Total remuneration, in cash or in kind, paid to employees in return for work done. It is recorded on a gross basis, before any deduction for income taxes, pensions, unemployment insurance and other social insurance schemes. Also includes other forms of compensation, namely commissions, tips, bonuses, directors' fees and allowances such as those for holidays and sick leave, as well as military pay and allowances. Excludes employers' social contributions, which are treated as supplementary labour income.

Withholding taxes. Taxes withheld by the Government of Canada on selected income and service payments to non-residents, or withheld by foreign governments on selected income and service payments to Canadian residents.

Glossaire

Acquisition de capital non financier. La formation brute de capital fixe d'un secteur, plus son investissement en stocks et son acquisition nette d'actifs existants. Ne s'applique pas au secteur des non-résidents qui, par définition, réalise seulement des investissements financiers.

Acquisition nette d'actifs existants. Acquisitions moins cessions, par un secteur, d'actifs tangibles usagés et de terrains. Pour les entreprises, englobe aussi les acquisitions moins cessions de ressources naturelles, droits miniers et actifs intangibles. Abrégé comme actifs existants.

Actifs existants. Voir acquisition nette d'actifs existants.

Actions. Instrument financier englobant les actions ordinaires et privilégiées (y compris actions privilégiées à échéance déterminée et actions des fonds mutuels) ainsi que le surplus d'apport. Les actions émises par une entreprise publique à l'administration mère sont classées sous créances, administrations.

Agents. Agents économiques qui effectuent des opérations visant l'achat et la vente de biens et services et qui versent ou reçoivent des revenus de facteurs et des transferts.

Ajustement de la valeur des stocks. Écart entre la variation des valeurs comptables des stocks et la valeur de la variation matérielle des stocks, qui mesure le gain (ou perte) de détention net réalisé par l'entreprise à la suite de variations de prix. Les gains ou pertes de détention sur stocks se retrouvent dans les bénéfices des sociétés et dans d'autres agrégats du revenu et doivent être enlevés en vue de mesurer la valeur de la production courante.

Argent liquide et dépôts. Instruments financiers incluant:

Argent liquide et dépôts bancaires. Dépôts en dollars canadiens dans les banques à charte au Canada et à la Banque du Canada, billets canadiens et monnaie en circulation.

Autres dépôts. Tous les dépôts dans les autres institutions de dépôt, y inclus parts dans les caisses d'épargne et de crédit.

Devises et dépôts étrangers. Avoirs et dépôts en devises étrangères dans les banques à charte au Canada, leurs succursales et filiales à l'étranger, les banques étrangères et les autres institutions de dépôt étrangères.

Associations de particuliers. Institutions sans but lucratif au service des ménages, telles églises, syndicats et organismes de charité, ainsi que caisses d'épargne et de crédit, régimes de pensions en fiducie, sociétés d'assurance-vie, sociétés de secours mutuel et compagnies

mutuelles d'assurance générale. Elles sont traitées en entreprises quant à leurs dépenses de capital et leurs activités d'intermédiation, et en particuliers quant à leurs dépenses courantes.

Assurance-vie et rentes. Engagement des sociétés d'assurance-vie et des régimes de pensions en fiducie envers les assurés ou les bénéficiaires et de l'administration fédérale à l'égard des rentes vendues en vertu de la Loi relative aux rentes sur l'État. Actif des assurés ou des bénéficiaires

Autres éléments d'actif / de passif. Divers postes non inclus dans les autres instruments financiers, tels intérêts courus, intérêt à payer ou à recevoir et charges payées d'avance.

Autres transferts courants des particuliers aux administrations. Transferts non classés comme impôts directs. Comprend les primes d'assurance-hospitalisation et santé, divers licences et permis (permis de chasse et pêche, licences de mariage), les amendes et pénalités, la part des particuliers des licences et permis pour véhicules automobiles ainsi que les dons aux hôpitaux.

Bâtiments résidentiels. Construction de logements (subdivisés en logements individuels, logements semidétachés, maisons en rangée et appartements), garages, chalets et maisons mobiles. Englobe la construction neuve, les rénovations majeures et les conversions entraînant un changement de structure (dites "améliorations et modifications"), le matériel incorporé de façon permanente, la préparation du site et les coûts de transfert comme les commissions immobilières.

Bénéfices des sociétés avant impôts. Gains nets résultant de l'activité économique des sociétés privées, mesurés après déduction des provisions pour consommation de capital.

Bénéfices réinvestis d'entreprises d'investissement direct. Bénéfices réalisés sur, moins dividendes reçus de, l'investissement étranger direct. À compter de 1961, le revenu sur l'avoir au titre d'investissement étranger direct est inscrit sur une base d'exercice plutôt que de caisse dans la Balance des paiements internationaux. Il en résulte un poste de rapprochement additionnel entre cette dernière et les comptes économiques et financiers nationaux dans lesquels ce changement n'a pas été introduit.

Biens de consommation. Biens neufs acquis par les ménages pour consommation propre. Comprend trois catégories: a) biens durables, utilisables de façon répétée ou continue durant plus d'un an, tels véhicules et gros appareils ménagers; b) biens semi-durables, utilisables en de multiples occasions et d'une durée utile anticipée d'un an

ou un peu plus, tels vêtements, chaussures et linge de maison; c) biens non durables, utilisables une seule fois, tels aliments, essence, boissons alcoolisées et tabac; en pratique, ces derniers comprennent aussi quelques biens de peu de valeur utilisables plus d'une fois, comme des fournitures ménagères.

Céréales en circuit commercial. Céréales détenues par la Commission canadienne du blé ou des négociants privés.

Compte des revenus et dépenses. Ce compte montre, pour chaque grand secteur, toutes les sources de revenu courant (production, revenus de propriété reçus et autres transferts) et toutes les dépenses courantes (dépenses en biens et services, revenus de propriété versés et autres transferts), ainsi que l'épargne, égale au revenu d'un secteur moins sa dépense.

Compte du capital et financier. Ce compte montre, pour chaque grand secteur, a) l'épargne et l'acquisition de capital non financier, et l'écart entre les deux, appelé le prêt net; et b) les transactions sur actifs financiers, les transactions sur passif et l'écart entre les deux, appelé l'investissement financier net. En théorie, les deux postes d'équilibre, prêt net et investissement financier net, sont égaux; en pratique, les imperfections dans les statistiques engendrent un écart entre les deux, montré comme une divergence statistique.

Comptes à recevoir / à payer. Crédit à court terme accordé ou reçu dans le cours ordinaire des affaires par des fournisseurs ou acheteurs de biens et services commerciaux

Comptes sectoriels. Les comptes nationaux trimestriels comprennent désormais des comptes sectoriels complets, diffusés auparavant uniquement sur une base annuelle. Ces comptes sectoriels comptabilisent le revenu, les dépenses, l'épargne, l'investissement non financier et financier, l'emprunt et le prêt net, pour les quatre grands secteurs: a) particuliers et entreprises individuelles; b) sociétés et entreprises publiques; c) administrations; et d) non-résidents. Voir compte des revenus et dépenses et compte du capital et financier.

Cotisations aux régimes d'assurance sociale. Cotisations des employeurs et salariés à l'assuranceemploi, aux régimes de pensions de la fonction publique, aux Régimes de pensions du Canada et de rentes du Québec et aux caisses de santé et sécurité au travail.

Coût des facteurs. Une évaluation traduisant le coût des facteurs de production (travail et capital). Elle correspond à la valeur restante, une fois enlevés des prix du marché tous les impôts et subventions applicables.

Créances. Instrument financier incluant:

Créances, entreprises. Prêts, avances et titres de

dette entre sociétés liées; du côté de l'actif, englobe aussi placements sous forme d'actions entre sociétés liées.

Créances, administrations. Créances entre administrations, entre entreprises publiques liées ou entre une administration et ses entreprises sous forme d'actions, titres de dette, prêts et avances.

Crédit à la consommation. Crédit accordé aux particuliers pour l'achat de biens et services de consommation.

Demande intérieure finale. Somme des dépenses personnelles en biens et services de consommation, des dépenses courantes nettes des administrations en biens et services, de la formation brute de capital fixe des administrations ainsi que celle des entreprises.

Dépenses courantes des administrations en biens et services. Toutes les dépenses courantes en biens et services du secteur des administrations publiques, y compris salaires et traitements des employés de l'État. Englobe aussi l'armement et une imputation pour la dépréciation du capital fixe des administrations. Elles sont comptabilisées avant déduction des recettes tirées de la vente de biens et services dans le compte des revenus et dépenses des administrations et après déduction de ces recettes dans le PIB (dépenses courantes nettes des administrations en biens et services).

Dépenses personnelles en biens et services de consommation. Dépenses des ménages en biens de consommation neufs et en services de consommation, et marges sur biens usagés. Les dépenses de fonctionnement des associations de particuliers au service des ménages sont aussi incluses, sous "services de consommation".

Divergence statistique. La comptabilité en partie double est à la base de la comptabilité nationale et plusieurs agrégats, comme le PIB et le prêt net, peuvent être calculés de deux façons ou plus. En théorie, toutes les mesures d'un agrégat sont égales. En pratique, des écarts surviennent immanquablement entre elles en raison d'imperfections dans les statistiques. Cet écart est appelé divergence statistique et sert de poste d'équilibre entre deux estimations théoriquement égales. Il peut être comptabilisé tel quel, comme la divergence entre les deux estimations du prêt net, ou il peut être divisé en deux, une moitié étant soustraite de l'estimation la plus élevée, et l'autre ajoutée à la plus basse, comme la divergence entre l'estimation du PIB en termes de revenus et celle en termes de dépenses.

Dividendes. Revenu payable ou recevable à l'égard de titres de propriété (dividendes en espèces) et participation accrue à la propriété de sociétés (dividendes sous forme d'actions).

Effets à court terme. Instrument financier négociable incluant:

Effets à court terme du Gouvernement du Canada. Bons du Trésor, soit des billets à ordre du porteur d'une échéance originale de moins d'un an, émis à escompte et vendus aux enchères chaque semaine; comprend aussi les "Bons du Canada" émis en devises étrangères.

Autres effets à court terme. Billets d'une échéance originale d'un an ou moins, émis à escompte par diverses institutions financières et non financières; comprend les bons du Trésor provinciaux et municipaux.

Entreprises publiques. Entreprises et agences publiques à but lucratif ou visant à recouvrer leurs coûts et dont la motivation est semblable à celle des entreprises privées. Leurs bénéfices totaux (pertes déduites) sont comptabilisés dans le PIB, alors que leurs bénéfices versés le sont dans le compte des revenus et dépenses des administrations, sous revenus de placements. L'écart entre ces deux mesures, les bénéfices non répartis, fait partie de l'épargne du secteur des entreprises.

Épargne. Le revenu courant d'un secteur moins ses dépenses courantes. Comprend les transferts courants mais exclut les provisions pour consommation de capital et transferts de capitaux. L'agrégat est appelé épargne brute s'il englobe les provisions pour consommation de capital.

Épargne personnelle. Revenu personnel disponible moins dépenses personnelles en biens et services de consommation, moins transferts courants des particuliers aux sociétés et aux non-résidents.

Excédent ou déficit du Canada au titre des opérations courantes avec les non-résidents. Exportations de biens et services moins importations de biens et services, plus revenus de placements nets reçus des non-résidents, plus transferts courants nets reçus des non-résidents.

Excédent ou déficit du compte courant d'après la balance canadienne des paiements internationaux. Excédent ou déficit du Canada au titre des opérations courantes avec les non-résidents, plus valeur nette des successions et des capitaux des migrants.

Exportations et importations de biens et services. Recettes et paiements courants au titre de transactions portant sur des biens meubles et des services entre résidents et non-résidents. Les services comprennent les voyages, les frais de transport, les services commerciaux, les opérations gouvernementales, l'intermédiation financière et d'autres services.

Extérieur du Canada. Ambassades et autres bureaux du gouvernement du Canada à l'étranger, qui font partie du territoire du Canada.

Formation brute de capital fixe. Dépenses par le secteur des entreprises et celui des administrations en immeubles, travaux de génie et machines et matériel. Comprend les importations de machines et matériel usagés, qui viennent accroître le stock de capital productif au pays, et les coûts de transfert sur la vente d'actifs existants (commissions immobilières par exemple). Renferme trois grandes catégories: bâtiments résidentiels, ouvrages non résidentiels, et machines et matériel. La formation brute de capital fixe des administrations comprend les bâtiments et l'équipement de la défense à des fins non militaires. Abrégé en capital fixe dans le compte de capital et financier. Synonyme d'investissement en capital fixe.

Gains et pertes de détention. Additions au, ou déductions du, revenu résultant de la vente d'un actif à un prix supérieur ou inférieur à son prix d'acquisition. Comme les gains et pertes de détention ne sont pas reliés à la production courante, ils sont exclus du PIB au moyen de l'ajustement de la valeur des stocks.

Hypothèques. Prêts négociés et accords de vente garantis par des biens immobiliers, surtout des immeubles résidentiels. Comprend les première, deuxième et troisième hypothèques. Les hypothèques sont caractérisées par le remboursement, en général mensuel, d'un mélange de capital et d'intérêts.

Importations de biens et services. Voir exportations et importations de biens et services.

Impôts directs. Transferts courants aux administrations par les particuliers, entreprises individuelles, sociétés et entreprises publiques sous forme d'impôts prélevés sur le revenu d'emploi, la propriété, les gains en capital ou toute autre source. Les impôts directs des particuliers sont inscrits sur une base de caisse, et ceux des sociétés et des entreprises publiques le sont sur une base d'exercice.

Impôts directs des particuliers. Impôts sur le revenu et droits et impôts successoraux versés par les particuliers et les entreprises individuelles.

Impôts indirects. Impôts qui s'ajoutent au coût de production et se retrouvent probablement dans le prix du marché payé par l'acheteur, tels taxes de vente et d'accise, droits à l'importation et impôts fonciers.

Indices de prix à pondération fixe. Également appelés indices "Laspeyres", indices de prix dans lesquels un panier fixe de dépenses pour une période de référence donnée sert à agréger les indices de prix détaillés à chaque période.

Indices de prix en chaîne. Indices de prix dans lesquels les valeurs de l'indice agrégé à partir d'indices de prix détaillés pour deux périodes adjacentes sont basées sur le panier de dépenses de la première des deux périodes et raccordées ensemble en une chaîne pour former l'indice.

Indices de volume en chaîne Fisher. Une mesure de la variation en volume d'une période à l'autre. Elle est calculée comme la moyenne géométrique d'un indice de volume en chaîne Paasche et d'un indice de volume en chaîne Laspeyres. En d'autres termes, c'est la moyenne de deux mesures distinctes en volume: une calculée comme si les prix étaient constants dans la première des deux périodes adjacentes (volume de Laspeyres) et l'autre, comme si les prix étaient constants dans la seconde des deux périodes adjacentes (volume de Paasche).

Indices implicites de prix. Également appelés indices à pondération variable ou "Paasche" (sans être strictement de type Paasche), ces indices sont un sous-produit de la procédure de déflation et sont obtenus en divisant une série des dépenses exprimées en prix courants par la série correspondante exprimée en prix constants.

Intérêts et revenus divers de placements. Revenus de placements des particuliers, sauf dividendes, plus revenus de placements des administrations, moins revenus nets de placements reçus des non-résidents par les particuliers et les administrations, moins la partie "transfert" des intérêts sur la dette de consommation, moins le service de la dette publique.

Intérêts sur la dette de consommation. Intérêts versés par les particuliers sur des engagements encourus pour financer des dépenses personnelles en biens et services de consommation; comprend deux parties: les frais d'administration, correspondant au coût des services rendus aux emprunteurs, et la partie résiduelle, dite "transfert".

Intérêts sur la dette publique. Intérêts sur les engagements du secteur des administrations publiques.

Investissement en capital fixe. Synonyme de **formation** brute de capital fixe.

Investissement en stocks. Variation du volume matériel des stocks détenus par les entreprises et les administrations, évaluée aux prix moyens du marché au cours de la période. Les stocks des entreprises renferment deux catégories: a) stocks non agricoles et b) stocks agricoles et céréales en circuit commercial. Les stocks des administrations englobent seulement des stocks d'uranium, jusqu'en 1981, et ceux détenus par des agences fédérales comme la Commission canadienne du lait. Abrégé en stocks dans le compte du capital et financier.

Investissement financier net. Le prêt (ou emprunt) net d'un secteur peut être mesuré soit par les revenus et

dépenses, soit par les transactions financières. Dans l'approche des transactions financières, le prêt net est appelé investissement financier net. Pour un secteur, il est égal à ses transactions sur actifs financiers moins ses transactions sur passif. Voir prêt net et compte du capital et financier.

Investissements étrangers. Tous les instruments financiers négociables (actions, obligations et effets à court terme) inscrits au passif du secteur des non-résidents (sociétés, gouvernements étrangers) et à l'actif de secteurs intérieurs.

Machines et matériel. Dépenses d'immobilisations en biens matériels durables d'une durée utile anticipée d'un an ou plus, tels meubles, véhicules, machines de bureau et équipement non installé en permanence (celui incorporé de façon permanente fait partie des ouvrages non résidentiels). Englobe le coût de livraison et d'installation.

Ménages. Un groupe de personnes qui partagent un logement, mettent ensemble toutes, ou partie, de leurs revenus et richesse et consomment certains biens et services collectivement. Ils peuvent aussi exercer n'importe quelle autre activité économique.

Obligations. Titres, négociables ou non, émis en devises canadiennes ou étrangères ayant une échéance originale de plus d'un an. Comprend:

Obligations fédérales. Obligations directes du gouvernement fédéral (dont, obligations d'épargne du Canada) et obligations garanties des entreprises fédérales.

Obligations provinciales. Obligations directes (dont, obligations d'épargne) des administrations provinciales et obligations garanties des entreprises provinciales.

Obligations municipales. Obligations des administrations municipales et obligations garanties des entreprises municipales.

Autres obligations. Obligations négociables émises par les sociétés canadiennes, les hôpitaux et les organismes sans but lucratif, et obligations non garanties des entreprises publiques

Ouvrages non résidentiels. Érection de bâtiments industriels, commerciaux et institutionnels, tels usines, entrepôts, centres commerciaux, édifices à bureaux, écoles et hôpitaux, et construction de routes, ponts, voies ferrées, canaux, réseaux d'adduction d'eau, égouts, barrages, centrales électriques ou thermiques, lignes téléphoniques, installations pétrolières et gazières, etc. Englobe construction neuve, conversions entraînant un changement de structure, rénovations majeures, matériel incorporé de façon permanente et préparation du site.

Ouvrages non résidentiels et équipement. Somme de l'investissement des entreprises en ouvrages non résidentiels et en machines et matériel.

Prêts / Emprunts. Instrument financier comprenant prêts/ emprunts bancaires et autres prêts/emprunts. Prêts négociés, offerts surtout par les banques à charte et autres institutions financières.

Prêt net. Le prêt (ou emprunt) net d'un secteur peut être mesuré soit par les revenus et dépenses, soit par les transactions financières. Selon l'approche des revenus et dépenses, le prêt net est l'écart entre les fonds d'origine interne et l'investissement en capital non financier. Le prêt net d'un secteur égale son épargne, plus ses provisions pour consommation de capital et les transferts nets de capitaux des non-résidents, moins son investissement en capital fixe et en stocks. Voir investissement financier net et compte du capital et financier.

Prix constants. Une évaluation exprimée aux prix ayant cours dans une période de référence fixe. À l'heure actuelle, la période de référence des estimations des comptes nationaux en prix constants est 1992, ce qui signifie que celles-ci sont exprimées en prix de 1992. Voir prix courants.

Prix courants. Une évaluation en prix courants est exprimée aux prix ayant cours dans la période à laquelle il est fait référence. Voir **prix constants**.

Prix du marché. Une évaluation exprimée en termes des prix effectivement payés par l'acheteur, c'est-à-dire après prise en compte de tous les impôts et subventions applicables. Voir **coût des facteurs**.

Produit intérieur brut. Valeur sans double compte des biens et services produits dans le territoire économique d'un pays ou d'une région au cours d'une période donnée. Le PIB peut être calculé de trois façons, soit comme la somme des revenus gagnés dans la production courante, la somme des ventes finales de la production courante ou la somme des valeurs ajoutées nettes dans la production courante. Il peut être évalué au coût des facteurs ou aux prix du marché.

Produit intérieur net au coût des facteurs. Somme de tous les revenus engendrés par la production, ou la propriété d'actifs servant à la production, dans le territoire économique d'un pays ou d'une région. Comprend rémunération des salariés, bénéfices avant impôts, intérêts et revenus divers de placements, revenu comptable net des exploitants agricoles au titre de la production agricole, revenu net des entreprises individuelles y compris les loyers et ajustement de la valeur des stocks. Diffère du PIB au coût des facteurs en ce qu'il exclut les provisions pour consommation de capital.

Produit national brut. Une mesure de revenu égale au Produit intérieur brut, plus les revenus de placements reçus des non-résidents, moins les revenus de placements versés aux non-résidents.

Provisions pour consommation de capital. Provisions pour tenir compte de l'usure du capital dans le processus productif. Elles sont calculées à l'égard des actifs fixes des entreprises et administrations ainsi que des logements. Englobe aussi divers ajustements de valeur visant à rendre les dossiers comptables des entreprises conformes aux définitions de la comptabilité nationale, telle l'addition des prestations versées par les compagnies d'assurance pour compenser les pertes dues aux incendies.

Régime de pensions du Canada et régime de rentes du Québec. La partie du secteur des administrations qui concerne les opérations du Régime de pensions du Canada et du Régime de rentes du Québec, créés en 1966.

Rémunération des salariés. Somme des salaires et traitements et du revenu supplémentaire du travail. Appelé aussi "revenu du travail".

Réserves officielles. Somme de a) avoirs officiels en or et devises étrangères (dollars américains et dépôts en autres devises étrangères convertibles), b) prêts au, et emprunts du, compte général du Fonds monétaire international, et c) droits de tirage spéciaux.

Résidents canadiens. Unités institutionnelles, tels particuliers, sociétés et institutions sans but lucratif, qui ont un centre d'intérêt économique (logement ou place d'affaire) dans le territoire économique du Canada.

Retenues fiscales. Impôts retenus par le gouvernement du Canada sur certains paiements de revenus ou de services faits à des non-résidents, ou retenus par les gouvernements étrangers sur certains paiements de revenus ou services faits à des résidents canadiens.

Revenu comptable net des exploitants agricoles au titre de la production agricole. Revenu net reçu par les exploitants agricoles au titre de la production agricole, plus la part non répartie des bénéfices sur les opérations de la Commission canadienne du blé et l'ajustement apporté pour exprimer les subventions agricoles sur une base d'exercice plutôt que comptable.

Revenu national net au coût des facteurs. Produit intérieur net au coût des facteurs, plus les revenus nets de placements des non-résidents.

Revenu net de loyers. Gains des particuliers, après déduction des dépenses, tirés de la propriété résidentielle, qu'elle soit louée ou occupée par le propriétaire, et de la location de propriété non résidentielle.

Revenu net des entreprises individuelles non agricoles, loyers compris. Gains des propriétaires individuels, sauf les exploitants agricoles, au titre de leur propre entreprise. Englobe le revenu net des entreprises individuelles et des travailleurs à leur propre compte ainsi que le revenu net de loyers des particuliers.

Revenu net reçu par les exploitants agricoles au titre de la production agricole. Recettes brutes de la vente de produits agricoles, plus subventions sur une base de caisse, plus valeur imputée de la production agricole consommée par les ménages sur les fermes, plus investissement en stocks agricoles, moins dépenses d'exploitation agricoles et dépréciation sur les bâtiments et le matériel agricoles. Exclut les autres revenus, tels loyers nets ou revenus d'intérêt et les bénéfices des exploitations constituées en sociétés. Voir revenu comptable net des exploitants agricoles au titre de la production agricole.

Revenu personnel. Somme de tous les revenus reçus par les particuliers résidant au Canada, qu'il s'agisse de gains de facteurs au titre de la production courante ou de transferts courants d'autres secteurs, plus revenus de placements que les associations de particuliers accumulent pour leur propre compte ou celui des particuliers.

Revenu personnel disponible. Revenu personnel moins transferts courants aux administrations.

Revenu supplémentaire du travail. Cotisations sociales des employeurs, obligatoires ou facultatives. Comprend les allocations de retraite et les cotisations à l'assurance-emploi, au Régime de pensions du Canada, au Régime de rentes du Québec, aux autres régimes de pensions, aux caisses de santé et sécurité au travail, à l'assurance-santé, aux régimes de soins dentaires, à l'assurance-invalidité à court ou à long terme, etc.

Revenus de placements des administrations publiques. Dans le PIB, englobe les revenus d'intérêts des régimes de pension de la fonction publique, d'autres revenus d'intérêts et de dividendes des administrations et les redevances. Dans le compte des revenus et dépenses des administrations, comprend aussi les bénéfices versés par les entreprises publiques aux administrations. Voir entreprises publiques.

Revenus de placements des particuliers. Intérêts (sur dépôts, obligations, hypothèques, etc.) et redevances versés par les sociétés, les administrations et les non-résidents aux particuliers, plus revenus de placements s'accumulant à leur profit dans les régimes de pensions en fiducie et les caisses d'assurance-vie, ou au profit d'autres associations de particuliers. Exclut les dividendes.

Revenus de placements reçus des non-résidents. Revenus de placements gagnés par les résidents canadiens sur leurs actifs à l'étranger, incluant toutes les retenues fiscales applicables. Englobe intérêts, dividendes et autres revenus tels gains nets des banques canadiennes sur des transactions en devises étrangères et des compagnies d'assurance canadiennes de leur activité à l'étranger.

Revenus de placements versés aux non-résidents. Revenus de placements sur des engagements canadiens envers des non-résidents, incluant toutes les retenues fiscales applicables. Englobe intérêts, dividendes et autres paiements comme les dépenses nettes des banques canadiennes sur des transactions en devises étrangères et les revenus nets des compagnies d'assurance étrangères de leur activité au Canada

Revenus nets de placements des non-résidents. Revenus de placements reçus des, moins revenus de placements versés aux, non-résidents.

Salaires et traitements. Rémunération totale, en espèces ou en nature, versée à des salariés pour un travail exécuté. Elle est inscrite sur une base brute, avant toute déduction pour les impôts sur le revenu, les pensions, l'assurance-chômage et les autres régimes d'assurance sociale. Englobe aussi d'autres types de rémunération, soit commissions, pourboires, primes de rendement, honoraires des directeurs et allocations pour vacances et congés de maladie, ainsi que solde et indemnités militaires. Exclut les cotisations sociales des employeurs, qui sont traitées comme revenu supplémentaire du travail.

Secteur des administrations publiques. Tous les ministères, agences et fonds généraux (budgétaires et non budgétaires) des administrations fédérale, provinciales et locales, y compris les sociétés de la couronne qui tirent plus de 50% de leurs revenus de transferts de l'administration mère. Englobe aussi les conseils scolaires, les universités, les collèges à but non lucratif, les hôpitaux, et les centres d'hébergement à but non lucratif, ainsi que le Régime de pensions du Canada et le Régime de rentes du Québec.

Secteur des entreprises. Tous les agents produisant des biens et services vendus à un prix censé couvrir le coût de production, soit sociétés, entreprises publiques, entreprises individuelles et professionnels à leur propre compte. Englobe aussi les propriétaires occupant leur logement, traités en entreprises louant à elles-mêmes, et les associations de particuliers, traitées en entreprises quant à leurs dépenses de capital et leurs activités d'intermédiation.

Secteur des entreprises individuelles. Tous les agents du secteur des entreprises qui ne sont pas légalement constitués en sociétés. Englobe les propriétaires d'entreprises indépendants, les fermiers, pêcheurs et professionnels à leur propre compte et les propriétaires de logements non constitués en sociétés (y compris propriétaires-occupants).

Secteur des non-résidents. Tous les agents qui n'ont pas de centre d'intérêt économique (logement ou place d'affaire)

dans le territoire économique du Canada. Par définition, les non-résidents font seulement de l'investissement financier. Tout agent faisant un investissement non financier est considéré comme résident.

Secteur des particuliers. Tous les particuliers, ménages et associations de particuliers au service des ménages.

Secteur des particuliers et entreprises individuelles. Agents du secteur des particuliers, plus ceux du secteur des entreprises individuelles. Dans le compte du capital et financier, les transactions de ces deux secteurs sont consolidées. En outre, dans ce compte, bien que les caisses d'épargne et de crédit, les sociétés d'assurance-vie et les régimes de pensions en fiducie figurent comme soussecteurs de celui des sociétés et entreprises publiques, leurs transactions en actifs financiers sont équilibrées par des créances à leur tour inscrites à l'actif du secteur des particuliers et entreprises individuelles.

Secteur des sociétés et des entreprises publiques. Tous les agents du secteur des entreprises légalement constitués en sociétés, plus les entreprises publiques. Ce secteur est divisé en entreprises non financières et financières, lesquelles sont subdivisées en plusieurs sous-secteurs (Banque du Canada, banques à charte, caisses d'épargne, sociétés d'assurance-vie, régimes de pensions en fiducie, fonds mutuels, etc.). Les activités d'intermédiation des caisses d'épargne et de crédit, sociétés d'assurance-vie et régimes de pensions en fiducie figurant à l'actif de ces sous-secteurs sont équilibrées par des créances à leur passif, inscrites à leur tour à l'actif du secteur des particuliers et entreprises individuelles.

Services de consommation. Services consommés par les ménages, tels loyer (y compris le loyer imputé aux propriétaires-occupants), transports, éducation, soins médicaux, garde des enfants, hébergement et restauration ainsi que dépenses de voyage des Canadiens à l'étranger, moins dépenses de voyage des étrangers au Canada. Englobe aussi les dépenses de fonctionnement des associations de particuliers.

Solde et indemnités militaires. Partie de la rémunération des salariés qui consiste en paiements aux membres des Forces armées en service au Canada et à l'étranger. Englobe la solde, les indemnités militaires et les cotisations sociales de l'employeur. Exclut les allocations aux anciens combattants, traitées en paiements de transfert.

Stocks agricoles. Production agricole détenue sur les fermes; englobe céréales, tabac, pommes de terre et bétail.

Stocks non agricoles. Stocks de matières premières, de produits en cours et de produits finis.

Subventions. Transferts des administrations au secteur des entreprises, visant les coûts de production courants. Ces

transferts viennent s'ajouter au revenu des producteurs au titre de la production courante.

Successions et capitaux des migrants. Capitaux apportés au Canada par les immigrants à l'arrivée ou transférés hors du pays par les émigrants lors du départ, ou sommes censées être transférées à une date ultérieure, plus héritages versés à des résidents canadiens par des non-résidents ou vice versa.

Territoire économique. Le territoire économique d'un pays englobe le territoire géographique, plus l'espace aérien, les eaux territoriales et le plateau continental, ainsi que les enclaves territoriales de ce pays à l'étranger (ambassades, consulats, bases militaires...).

Transferts. Argent, bien, service ou actif autre que de l'argent transféré d'un agent à un autre sans contrepartie, c'est-à-dire sans que le donateur reçoive quelque chose en retour. Voir transferts courants et transferts de capitaux.

Transferts courants. Transferts provenant du revenu du donateur, diminuant son épargne et accroissant celle du bénéficiaire.

Transferts courants des administrations aux entreprises. Subventions au secteur des entreprises.

Transferts courants des administrations aux nonrésidents. Pensions versées aux non-résidents et contributions officielles (aide alimentaire ainsi qu'assistance économique et technique fournies aux pays en voie de développement par l'Agence canadienne de développement international, les autres agences gouvernementales et les organisations non gouvernementales).

Transferts courants des administrations aux particuliers. Paiements tels prestations fiscales et crédits d'impôt pour enfants, prestations d'assurance-emploi, pensions de vieillesse, prestations de bien-être social, bourses et subventions de recherche, prestations d'indemnisation des accidents de travail, subventions aux autochtones et à leurs organisations, pensions de la fonction publique et pensions versées en vertu du Régime de pensions du Canada et du Régime de rentes du Québec.

Transferts courants des non-résidents aux administrations. Retenues fiscales versées au gouvernement du Canada par les non-résidents.

Transferts courants des non-résidents aux particuliers. Pensions payées par des gouvernements étrangers à des résidents canadiens plus versements par des non-résidents à des résidents canadiens.

Transferts courants des particuliers aux non-résidents. Versements par des résidents canadiens (notamment par des organisations religieuses ou charitables) à des nonrésidents et retenues fiscales versées à l'étranger.

Transferts courants des particuliers aux sociétés. La partie "transfert" des intérêts sur la dette de consommation.

Transferts courants des particuliers et entreprises individuelles aux administrations. Impôts sur le revenu, cotisations aux régimes d'assurance sociale et autres transferts courants.

Transferts courants des sociétés aux particuliers. Dons de charité et autres contributions.

Transferts de capitaux. Transferts en argent ou en nature, provenant de la richesse du donateur (successions et capitaux des migrants, transfert de la propriété d'un actif ou annulation d'une dette) ou transferts que le bénéficiaire est censé utiliser pour acquérir un actif. Les transferts de capitaux sont sans effet sur l'épargne du donateur ou du bénéficiaire.

Transferts nets de capitaux. Transferts de capitaux provenant d'autres secteurs moins transferts de capitaux aux autres secteurs.

Valeur nette des successions et des capitaux des migrants. Fonds apportés au Canada par les immigrants, moins ceux transférés hors du pays par les émigrants.

Ventes de biens et services par les administrations. Revenus tirés de la vente de biens et services, tels frais d'aqueduc, droits d'atterrissage et frais exigés pour les documents gouvernementaux.

MERCI DE VOTRE COMMANDE!

Statistique Canada Statistics Canada Canada

Market Research Handbook 1999

Unlock Canadian Consumer and Business Markets...

he ALL-NEW Market Research Handbook 1999 reveals the Canadian marketplace the way no other statistical resource can. It delivers first hand results from more than 20 specialized Statistics Canada surveys, plus the very latest details from the 1996 Census, in one practical sourcebook!

For entrepreneurs, market researchers, planners and analysts, for big business and small, Market Research Handbook 1999 is an invaluable and comprehensive decision-support tool.

Capitalize on opportunities...

- > spot emerging market trends
- position your products effectively
- gain a competitive edge in an increasingly volatile and competitive economy
- ... and manage the future of your market!

Analyze the conditions in your market – from THE LOCAL TO THE NATIONAL LEVEL - USING:

Key Demographic Variables

- **population**
- age
- ▶ aggregated household expenditures
- education ▶ sex earnings
 - retail sales
 - and more!

Vital Economic Indicators private and public

- ▶ labour force productivity consumer and industrial
- price indexes
- investment international trade data
 - Gross Domestic Product

Business Demographics

- by industry
- size of business
- urban area
- plus more!

New for 1999!

- ▶ number of immigrants by intended occupation
- Internet service providers: types of services, regional composition and sources of revenue
- population projections for Nunavut
- aggregated household expenditures including games of chance expense (ie. Casino), as well as detailed clothing and health care expenses
- number and receipts of movie theatres including number of screens and seats
- more fields of study for full-time undergraduate enrolment
- employment change and life status of businesses

Market Research Handbook 1999 (Cat. No. 63-224-XPB) costs \$125. No shipping charges for delivery in Canada. For shipping charges: No shipping charges for delivery in Canada. For shipments to the United States, please add \$6. For shipments to other countries, please add \$10.

To order, CALL toll-free at 1 800 267-6677, FAX 1 877 287-4369 or MAIL your order to Statistics Canada, Dissemination Division, Circulation Management, 120 Parkdale Avenue, Ottawa, Ontario, KIA 0T6, Canada. Or contact your nearest Statistics Canada Regional Reference Centre listed in this publication. You may also order via E-MAIL: order@statcan.ca

Recueil statistique des études de marché 1999

Pénétrez les marchés de consommation et d'affaires canadiens ...

> e TOUT DERNIER Recueil statistique des études de marché 1999 fait état du marché canadien comme aucune autre source statistique ne le fait. Il réunit les résultats de plus de 20 enquêtes spéciales de Statistique Canada, de même que les plus récentes données du Recensement de 1996, dans un seul guide de référence

Pour les entrepreneurs, comme pour les spécialistes des études de marché, les planificateurs et les analystes, de même que pour les grandes et petites entreprises, le Recueil statistique des études de marché 1999 constitue un outil complet de très grande valeur.

Tirez profit des possibilités...

- repérez les nouvelles tendances
- positionnez vos produits efficacement
- obtenez un avantage concurrentiel au sein d'une économie de concurrence sans cesse changeante
- et gérez l'avenir de votre marché!

Analysez les conditions de votre marché – à L'ÉCHELLE RÉGIONALE OU NATIONALE - EN UTILISANT :

Les principales variables démographiques

- population
 - ▶ âge
- dépenses agrégées des ménages

▶ indices des prix à la consommation

- scolarité
- sexe
- ▶ et plus!
- revenu ventes au détail

Les indicateurs économiques

- données sur la productivité de la population active
- ▶ investissements privés et publiques
 - commerce international
 - et de l'industrie
- produit intérieur brut ▶ et plus!

La démographie des entreprises

- > secteur d'activité
- ▶ taille de l'entreprise
- région urbaine
- ▶ et plus!

Nouveau pour 1999!

- le nombre d'immigrants selon la profession projetée
- les fournisseurs de services Internet : type de services, composition régionale et sources de revenus
- les projections de la population du Nunavut
- les dépenses agrégées des ménages, y compris celles consacrées aux jeux de hasard (c.-à-d. au casino), ainsi qu'un bilan détaillé des dépenses sur l'habillement et les soins de santé
- le nombre de cinémas et leurs recettes, y compris le nombre d'écrans
- une ventilation plus détaillée des domaines d'études des étudiants à plein temps de premier cycle
- variation de l'emploi et statut des entreprises

Note of Appreciation

Canada owes the success of its statistical system to a long-standing partnership between Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.

Note de reconnaissance

Le succès du système statistique du Canada repose sur un partenariat bien établi entre Statistique Canada et la population, les entreprises, les administrations canadiennes et les autres organismes. Sans cette collaboration et cette bonne volonté, il serait impossible de produire des statistiques précises et actuelles.

Symbols

The following standard symbols are used in Statistics Canada publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- -- amount too small to be expressed.
- p preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

This publication was prepared by the following staff from the Income and Expenditure Accounts Division: Ferhana Ansari, Karen Ashman, Marcel Beaudry, Eric Belzile, Catherine Bertrand, Anne-Marie Bridger, John Butterill, Michel Chevalier, Jacques Delisle, Mary Lou Dubé, Luc Dubois, Dan Finnerty, Katherine Fraser, Gylliane Gervais, Céline Guindon, Cynthia Haggar-Guénette, Journana Harfouche, Louise Jones, Monique Joubert, Sophie Joyal, Karen King, Ron Levesque, Kim Longtin, Anna MacDonald, Joana Malette, Emmanuel Manolikakis, Dave McDowell, Patrick O'Hagan, Nona Park, Michel Pascal, André Picard, Robert Puchyr, Sylvia Reid-Hibbert, Giovanni Salvatore, Edith Sederis, Christopher Sham, Jérôme Ste-Marie, Deidre Sunley, Jamie Temple, Debra Tompkins, Alain Tremblay, Lee Tue-Fee, Michel Vallières, Chris Van Milligen, Karen Wilson, Charles Wright, Andrew Yip and Drew Zeller.

For more information about the National Income and Expenditure Accounts, telephone the Income and Expenditure Accounts Division at (613) 951-3640 and ask for the information officer.

The paper used in this publication meets the minimum requirements of American National Standard for Information Sciences - Permanence of Paper for Printed Library Materials, ANSI Z39.48 - 1984.

Signes conventionnels

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- -- nombres infimes.
- p nombres provisoires.
- r nombres rectifiés.
- x confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

Cette publication a été préparée par les employés suivants de la Division des comptes des revenus et dépenses: Ferhana Ansari, Karen Ashman, Marcel Beaudry, Eric Belzile, Catherine Bertrand, Anne-Marie Bridger, John Butterill, Michel Chevalier, Jacques Delisle, Mary Lou Dubé, Luc Dubois, Dan Finnerty, Katherine Fraser, Gylliane Gervais, Céline Guindon, Cynthia Haggar-Guénette, Journana Harfouche, Louise Jones, Monique Joubert, Sophie Joyal, Karen King, Ron Levesque, Kim Longtin, Anna MacDonald, Joana Malette, Emmanuel Manolikakis, Dave McDowell, Patrick O'Hagan, Nona Park, Michel Pascal, André Picard, Robert Puchyr, Sylvia Reid-Hibbert, Giovanni Salvatore, Edith Sederis, Christopher Sham, Jérôme Ste-Marie, Deidre Sunley, Jamie Temple, Debra Tompkins, Alain Tremblay, Lee Tue-Fee, Michel Vallières, Chris Van Milligen, Karen Wilson, Charles Wright, Andrew Yip et Drew Zeller.

Pour plus de renseignements sur les Comptes nationaux des revenus et dépenses, communiquez avec la Division des comptes des revenus et dépenses au (613) 951-3640 et demandez l'agent d'information.

Le papier utilisé dans la présente publication répond aux exigences minimales de l'"American National Standard for Information Sciences" - "Permanence of Paper for Printed Library Materials", ANSI Z39.48 - 1984.

The System of National Accounts

In Canada, the National Accounts have been developed since the close of the Second World War in a series of publications relating to their constituent parts. These have now reached a stage of evolution where they can be termed a "System of National Accounts". For purposes of identification, all publications (containing tables of statistics, descriptions of conceptual frameworks and descriptions of sources and methods) which make up this System carry the term "System of National Accounts" as a general title.

The System of National Accounts in Canada consists of several parts. The annual and quarterly Income and Expenditure Accounts (included with Catalogue Nos. carrying the prefix 13) were, historically speaking, the first set of statistics to be referred to with the title "National Accounts" (National Accounts, Income and Expenditure). The Balance of International Payments data (Catalogue Nos. with prefix 67) are also part of the System of National Accounts and they, in fact, pre-date the Income and Expenditure Accounts.

Greatly expanded structural detail on industries and on goods and services is portrayed in the Input-Output Tables of the System (Catalogue Nos. with prefix 15). The Catalogue Nos. carrying the prefix 15 also provide measures of the contribution of each industry to total Gross Domestic Product at factor cost as well as Productivity Measures.

Both the Input-Output tables and the estimates of Gross Domestic Product by Industry use the establishment as the primary unit of industrial production. Measures of financial transactions are provided by the Financial Flow Accounts (Catalogue Nos. with prefix 13). Types of lenders and financial instruments are the primary detail in these statistics and the legal entity is the main unit of classification of transactors. Balance sheets of outstanding assets and liabilities are published annually.

The System of National Accounts provides an overall conceptually integrated framework in which the various parts can be considered as interrelated sub-systems. At present, direct comparisons amongst those parts which use the establishment as the basic unit and those which use the legal entity can be carried out only at highly aggregated levels of data. However, Statistics Canada is continuing research on enterprise company establishment relationships; it may eventually be feasible to reclassify the data which are on one basis (say the establishment basis) to correspond to the units employed on another (the company or the enterprise basis).

In its broad outline, the Canadian System of National Accounts bears a close relationship to the international standard as described in *System of National Accounts, 1993*, a joint publication of the Commission of the European Communities, International Monetary Fund, Organization for Economic Cooperation and Development, United Nations and World Bank.

Le système de comptabilité nationale

Au Canada, les comptes nationaux ont fait l'objet depuis la fin de la Seconde Guerre mondiale de toute une série de publications portant sur leurs éléments constitutifs propres. Ils ont connu une telle évolution qu'on peut maintenant les qualifier de "Système de comptabilité nationale". Aux fins d'identification, toutes les publications qui font partie du système (elles contiennent des tableaux statistiques, la description du cadre théorique et l'explication des sources et des méthodes) portent le titre général de "Système de comptabilité nationale"

Le système de comptabilité nationale du Canada se divise en plusieurs catégories de comptes. Les comptes annuels et trimestriels des revenus et des dépenses (paraissant dans les publications dont le numéro de catalogue commence par 13) ont constitué le premier ensemble de statistiques à être connu sous le titre de "Comptes nationaux" (Comptes nationaux, revenus et dépenses). Les données sur la balance canadienne des paiements internationaux (numéro de catalogue commençant par 67) font également partie du système de comptabilité nationale; elles ont même existé avant les comptes des revenus et dépenses.

Une nomenclature beaucoup plus détaillée d'industries et de biens et services figure dans les tableaux d'entrées-sorties du système (numéro de catalogue commençant par 15). Les publications dont le numéro de catalogue commence par 15 comprennent aussi les mesures de l'apport de chaque branche d'activité au total du produit intérieur brut au coût des facteurs ainsi que les mesures de productivité.

L'établissement est l'unité primaire de production industrielle tant dans les tableaux d'entrées-sorties que dans les estimations du produit intérieur brut par activité économique. Les comptes de flux financiers (publications dont le numéro de catalogue commence par 13) mesurent les opérations financières. Les catégories de prêteurs et d'instruments financiers forment les éléments de base de ces statistiques et l'entité juridique est le point de départ du classement des agents économiques. Les comptes du bilan des actifs et passifs en cours sont disponibles annuellement.

Le système de comptabilité nationale constitue un ensemble conceptuellement intégré dans lequel les diverses catégories de comptes peuvent être considérées comme des sous-systèmes étroitement liés entre eux. Au stade actuel de développement, on ne peut faire de comparaison directe entre les éléments basés sur l'établissement et ceux qui sont basés sur l'entité juridique que lorsque les données sont groupées dans des catégories très générales. Toutefois, Statistique Canada poursuit ses recherches sur les relations entre l'entreprise, la société et l'établissement. Il sera peut-être possible un jour de reclasser les données établies sur une certaine base (l'établissement par exemple) de manière à les faire correspondre aux données établies sur une autre base (société ou entreprise).

Dans ses grandes lignes, le système de comptabilité nationale du Canada suit de très près la norme internationale exposée dans la publication *System of National Accounts, 1993* produite conjointement par la Commission des Communautés Européennes, le Fonds Monétaire International, l'Organisation pour la Coopération et le Développement, les Nations-Unies et la Banque Mondiale.

Note to Readers

Real GDP measures changes in the volume of production, according to international standards, by valuing output at the prices of a given base period. Currently, the official estimates of real GDP for Canada are measured in 1992 prices. Statistics Canada updates the base year every five years, when all the relevant data is available and will convert to 1997 prices with the first quarter release of 2001. Since the prices of high-tech commodities have fallen substantially since 1992, the impact of the growth in these commodities may be overstated in the current measure. After converting to 1997 prices, expenditures on high-tech commodities will remain as the driver that led the economy although the growth of the overall economy may be lower.

For more information

The 56 National Income and Expenditure Accounts (NIEA) tables are available on day of release in a variety of formats, including CANSIM (Statistics Canada's machine-readable database and retrieval system), diskettes (Catalogue no. 13-001-XDB) and the detailed Tables and Analytical Document (Catalogue no. 13-001-PPB). The latter two can be obtained by contacting the Income and Expenditure Accounts Division's client services officer by phone (613-951-3810), fax (613-951-3618) or Internet: iead-info-dcrd@statcan.ca. In addition, information officers (613-951-3640) answer questions about the NIEA orally, by mail or by fax. There is a minimum charge of \$40 (plus \$0.50 per page) for information sent by mail and of \$40 (plus \$1.50 per page) for information sent by fax. Higher charges apply when the information requested is not part of the official NIEA tables. Payment is due in advance. normally by Visa, MasterCard or American Express. Statistics Canada catalogued publications can be ordered using the tollfree telephone number on the inside cover.

Note aux lecteurs

Le PIB réel mesure les variations dans le volume de la production, selon des normes internationales, en évaluant la production aux prix constants d'une période de base donnée. Présentement, les estimations officielles du PIB réel du Canada sont mesurées aux prix de 1992. Statistique Canada met à jour l'année de base à tous les cinq ans, quand toutes les données appropriées sont disponibles, et effectuera la conversion aux prix de 1997 lors de la publication des résultats du premier trimestre 2001. Étant donné que les prix des produits de haute technologie ont chuté de façon importante depuis 1992, l'impact de la croissance dans ces produits peut être surévalué dans la mesure courante. Après conversion aux prix de 1997, les dépenses en produits de haute technologie demeurera le moteur de l'économie même si la croissance de l'économie globale pourrait être moins élevée.

Pour plus de renseignements

Les 56 tableaux des Comptes nationaux des revenus et dépenses (CNRD) sont disponibles le jour de la parution sous diverses formes: CANSIM (base de données ordinolingue et le système d'extraction de Statistique Canada), disquettes (Nº 13-001-XDB au catalogue) et Tableaux et document analytique (Nº 13-001-PPB au catalogue). Ceux-ci peuvent être obtenus en communiquant avec l'agent des Services à la clientèle au (613) 951-3810, Division des comptes des revenus et dépenses, par télécopieur, au (613) 951-3618 ou via l'Internet: iead-info-dcrd@statcan.ca. En outre, les agents d'information au (613) 951-3640 peuvent répondre aux questions sur les CNRD verbalement, par la poste ou par télécopieur. Il y a un coût minimum de 40 \$ (plus 0,50 \$ par page) pour l'information envoyée par la poste et de 40 \$ (plus 1,50 \$ par page) pour celle envoyée par télécopieur. Des frais plus élevés sont exigés quand l'information demandée ne fait pas partie des tableaux publiés des CNRD. Le paiement doit être versé à l'avance, par Visa, MasterCard ou American Express. Les publications figurant au catalogue de Statistique Canada peuvent être commandées par téléphone, en utilisant le numéro sans frais, qui figure à l'intérieur de la page couverture.

Highlights

Second quarter 2000

Real gross domestic product (GDP) grew 1.1% in the second quarter, marking the 20th consecutive quarterly increase. Producers of high tech equipment benefited from strong export sales of computers and related equipment and business investment was strong in high-tech commodities. Excluding the impact of high-tech commodities, the economy slowed markedly in the second guarter, growing only 0.6% at quarterly rates, compared with 1.4% in the first. New housing construction and resales of existing houses dropped, and spending fell back on related consumer products. such as household furniture and appliances. Weather-related expenditures such as clothing and recreation equipment were also weak, as Canada experienced a wetter-and-colder than-usual spring.

Faits saillants

Deuxième trimestre 2000

Le produit intérieur brut (PIB) réel a augmenté de 1.1 % au deuxième trimestre. Il s'agit de la vingtième hausse trimestrielle consécutive. Les producteurs de matériel de technologie de pointe ont bénéficié des fortes ventes à l'exportation d'ordinateurs et de matériel connexe et d'un marché intérieur tout aussi robuste, compte tenu de la des investissements des entreprises canadiennes pour les produits de technologie de pointe. Si l'on fait abstraction de l'impact des produits de l'économie technologie de pointe. considérablement au deuxième trimestre. s'accroissant seulement que de 0.6 % au taux trimestriel comparativement à 1.4 % au premier trimestre. La construction de maisons neuves et le marché de la revente de maisons existantes étaient à la baisse, et les dépenses en produits de consommation connexes tels que les meubles et les appareils ménagers ont ralenti. Les dépenses reliées au climat comme les vêtements et le matériel de loisirs ont aussi été faibles, compte tenu d'un printemps pluvieux et plus frais que d'habitude.

Year-over-year % change	3.7	4.3	5.2	4.9	5.0	5.3	Variation d'une année à l'autre en %

^{*} The change is the growth rate from one period to the next. The annualized change is the quarterly growth rate compounded to an annual rate. The year-over-year change is the growth rate of a given quarter compared with the same quarter in the previous year.

Exports continued to advance strongly in the second quarter (+ 2.1%), notably those of high-tech equipment. Exports of goods and services other than high-tech commodities fell by 0.5%.

Investment in business machinery and equipment advanced 6.5%, led by investment in computers and other office equipment. Investment in transportation equipment jumped by 11.6%. Without the increase related to high tech, business investment in machinery and equipment rose by 1.6%.

Les exportations ont continué de croître fortement au deuxième trimestre (+2,1 %), grâce aux exportations de matériel de technologie de pointe. Les exportations de biens et services autres que celles de produits de technologie de pointe ont diminué de 0,5 %.

Les investissements en machines et matériel des entreprises se sont accrus de 6,5 %, dominés par les ordinateurs et autre matériel de bureau. Les investissements en matériel de transport ont bondi de 11,6 %. Sans l'augmentation de l'investissement lié à la technologie de pointe, les investissements en machines et matériel des entreprises se sont accrus de 1,6 %.

^{*} La variation est le taux de croissance d'une période à l'autre. La variation annualisée est le taux de croissance trimestriel composé au taux annuel. La variation d'une année à l'autre est le taux de croissance d'un trimestre donné par rapport au même trimestre de l'année précédente.

Investment in residential structures dropped 2.9%, new housing construction fell 5.2%.

Consumer expenditures grew 0.9%, marking the sixth consecutive quarter of strong growth, despite lower spending in key components such as new and used motor vehicles and furniture and appliances.

Labour income growth accelerated to 2.5%, boosted by federal pay equity payments. Excluding this effect, labour income grew 1.4%, compared with 2.1% in the previous quarter.

Government revenues continued to exceed expenditures; the surplus for all levels of government remained about \$30 billion for the second consecutive quarter.

Growth in corporate profits moderated somewhat to a 2.7% increase in nominal terms, after five quarters of more robust growth.

Domestic prices, as measured by the GDP chain price index, rose 1.4% in the second quarter following a 1.1% increase in the first quarter. This increase is primarily due to the effect of federal pay equity payments that were made during the quarter. Without these payments, domestic prices would have increased 1.0% indicating that the underlying pattern of inflation is stable.

Continued strength in exports

Exports gained a further 2.1% in the second quarter, on the heels of a very strong first quarter (+4.1%).

Machinery and equipment exports jumped 11.4%. High-tech-related exports of computers, peripherals and telecommunications equipment were particularly strong, accounting for 12.2% of total exports of goods and services in nominal terms in the second quarter, compared with 10.9% in the first quarter.

Les investissements en construction résidentielle ont diminué de 2,9 %, la construction résidentielle neuve chutant de 5,2 %.

Les dépenses de consommation ont augmenté de 0,9 %, malgré un ralentissement dans quelques composantes clés telles que les automobiles neuves et celles d'occasion ainsi que les meubles et les appareils ménagers. Il s'agit du sixième trimestre consécutif de croissance importante.

La croissance du revenu du travail s'est accélérée pour atteindre 2,5 %, grâce aux paiements versés par l'administration fédérale au chapitre de l'équité en matière d'emploi. Si l'on exclut ces paiements, la hausse du revenu du travail s'est établie à 1,4 %, un ralentissement par rapport au taux de 2,1 % observé au trimestre précédent.

Les revenus des administrations publiques ont continué de surpasser les dépenses, alors que le surplus dégagé par l'ensemble des administrations publiques est demeuré à environ 30 milliards de dollars pour un deuxième trimestre consécutif.

La croissance des bénéfices des sociétés en valeur nominale a ralenti quelque peu pour se fixer à 2,7 %, après cinq trimestres de croissance plus forte.

Les prix intérieurs tels que mesurés par l'indice de prix en chaîne du PIB ont augmenté de 1,4 % au deuxième trimestre, après une hausse de 1,1 % au premier. Cette augmentation est principalement attribuable aux paiements d'équité en matière d'emploi versés par l'administration fédérale au deuxième trimestre. À l'exclusion de ces paiements, les prix intérieurs auraient augmenté de 1,0 %, dénotant la stabilité sous-jacente des prix.

Vigueur persistante des exportations

Les exportations se sont accrues de 2,1 % au deuxième trimestre, après la très forte progression de 4,1 % au premier.

Les exportations de machines et de matériel ont bondi de 11,4 %. Les exportations de produits de technologie de pointe, plus spécifiquement, d'ordinateurs, de périphériques et de matériel de télécommunications ont été particulièrement fortes, représentant 12,2 % du total des exportations des biens et services en valeur nominale au deuxième trimestre par rapport à 10,9 % au premier.

Exports of goods and services other than high tech commodities fell by 0.5%. The drop in exports from the previous quarter was concentrated in energy products and motor vehicles. Exports of energy products fell sharply (-4.4%) in tandem with sharp price increases. Motor vehicle exports fell during the quarter, after three quarters of solid growth. In the United States, personal expenditures on motor vehicles and parts declined 15.9% in the second quarter.

Investment in machinery and equipment picks up

While business investment in non-residential structures slowed, investment in business machinery and equipment grew by 6.5%.

Investment in computers and other office equipment recorded the third consecutive quarter of double-digit gains, continuing a period of robust growth that started in 1998. Excluding the increase in investment related to high-tech, business investment in machinery and equipment rose by 1.6%. Capital expenditures on other transportation equipment advanced 11.6%; this increase relates to equipment imported for the oil and gas industry. Strong corporate profits continue to fund for investment in capital assets.

Labour income boosted by federal pay equity

Labour income accelerated to 2.5% growth in nominal terms in the second quarter. Wages and salaries paid by federal administration, boosted by pay equity payments, jumped more than 50%. Without these payments, the growth of labour income would have been 1.4%. Personal income grew robustly, and the saving rate climbed to 4.4%.

Government surplus remained high

The total surplus for all governments was \$30.5 billion compared to \$31.9 billion in the first quarter,

Les exportations de biens et services autres que celles en produits de technologie de pointe ont diminué de 0,5 %. La baisse des exportations par rapport au trimestre précédent a touché principalement les produits énergétiques et les véhicules automobiles. Les exportations des produits énergétiques ont diminué fortement de 4,4 % parallèlement à la forte majoration des prix. Les exportations de véhicules automobiles ont baissé au deuxième trimestre, après trois trimestres de forte progression. Aux États-Unis, les dépenses personnelles pour les véhicules et les pièces automobiles ont reculé de 15,9 % au deuxième trimestre.

Redressement des investissements en machines et matériel

Les investissements des entreprises en machines et matériel ont augmenté de 6,5 %, alors que ceux au chapitre de la construction non résidentielle ont connu un ralentissement.

Les investissements en ordinateurs et autre matériel de bureau ont enregistré une croissance à deux chiffres pour un troisième trimestre consécutif, prolongeant une période de vigoureuse croissance amorcée en 1998. Sans l'augmentation de l'investissement lié à la technologie de pointe, les investissements en machines et matériel des entreprises ont augmenté de 1,6 %. Les investissements en autre équipement de transport se sont accrus de 11,6 %, une hausse liée aux importations d'équipement destiné au secteur du pétrole et du gaz naturel. Des bénéfices des sociétés élevés ont continué de favoriser l'apport de fonds pour les investissements en actifs de capital.

Le revenu du travail haussé par les paiements fédéraux d'équité en matière d'emploi

La croissance du revenu du travail en valeur nominale s'est accélérée au deuxième trimestre pour atteindre 2,5 %. Les salaires et les traitements versés par l'administration fédérale ont bondi de plus de 50 % en raison des paiements d'équité en matière d'emploi. Sans ces derniers, le taux de croissance du revenu du travail aurait été de 1,4 %. Le revenu des particuliers s'est accru fortement et le taux de l'épargne a augmenté pour se fixer à 4,4 %.

L'excédent des administrations publiques demeure élevé

L'excédent de l'ensemble du secteur des administrations publiques s'est établi à 30,5 milliards de dollars,

and government credit market debt was further reduced. Revenues were boosted by corporate tax collections, and by royalties from the oil and gas industry at the provincial level. The federal surplus was reduced by the federal pay equity payout and by transfers to provincial governments, which grew nearly 40% in the second quarter as additional funds were made available under the Canada Health and Social Transfer. Overall, the outlay at the federal level under the Canada Health and Social Transfer was offset by an equal income at the provincial level, resulting in a sharp upturn of the provincial surplus.

Consumer expenditures continue to grow

Consumer expenditures rose 0.9%, marking the sixth consecutive quarter of strong growth. The rate of growth of consumer spending on goods was less than half of the increase of the previous quarter (+0.5% compared with +1.3%). Consumer expenditures on services increased 1.2%.

Sales of furniture and appliances slowed as investment in housing declined. Unseasonable weather conditions curbed spending on sporting and camping equipment, recreational services, clothing and footwear, and alcoholic beverages bought on licensed premises. Consumer demand for natural gas remained strong due to bad weather.

Investment in residential structures dips

Investment in housing fell 2.9% during the second quarter. Both the value of new housing construction (-5.2%) and ownership transfer costs (-2.9%) dropped, and renovation-related activity slowed.

Housing starts fell to 142,100 dwelling units, down almost 13%, marking the first quarterly decline

comparativement à 31,9 milliards de dollars au premier trimestre, et la dette des gouvernements sur les marchés financiers a encore baissé. Les revenus ont été haussés grâce aux prélèvements au chapitre de l'impôt des sociétés ainsi qu'aux royautés dans l'industrie du pétrole et du gaz à l'échelon provincial. L'excédent de l'administration fédérale s'est trouvé réduit par les paiements en matière d'équité salariale et par les transferts aux provinces, lesquels ont augmenté de presque 40 % au deuxième trimestre en raison de la libération de fonds supplémentaires au chapitre du Transfert canadien en matière de santé et de programmes sociaux. Pour l'ensemble administrations publiques, les dépenses effectuées par l'administration fédérale au chapitre du Transfert canadien en matière de santé et de programmes sociaux ont été annulées par un revenu équivalent à l'ehcelon provincial, se traduisant par une vive remontée de l'excédent provincial.

Poursuite de la croissance des dépenses de consomation

Les dépenses de consommation ont augmenté de 0,9 %. Il s'agit du sixième trimestre consécutif de forte croissance. Le taux de croissance des dépenses de consommation en biens a diminué de plus de la moitié par rapport au premier trimestre, passant de 1,3 % à 0,5 %, alors que les dépenses de consommation en services ont progressé de 1,2 %.

Les ventes de meubles et d'appareils ménagers ont ralenti, compte tenu d'une diminution des investissements dans l'habitation. Des conditions climatiques inhabituelles ont eu un effet négatif sur les dépenses en matériel de sport et de camping, en services de loisirs, en vêtements et chaussures et en boissons alcoolisées consommées dans les établissements licenciés. La demande personnelle pour le gaz naturel est demeurée forte étant donné le mauvais temps.

Repli des investissements en construction résidentielle

Les investissements dans l'habitation ont diminué de 2,9 % au deuxième trimestre. La valeur de la construction résidentielle neuve et celle des coûts de transfert de propriété ont diminué respectivement de 5,2 % et de 2,9 % au deuxième trimestre, tandis que l'activité au chapitre des rénovations ralentissait.

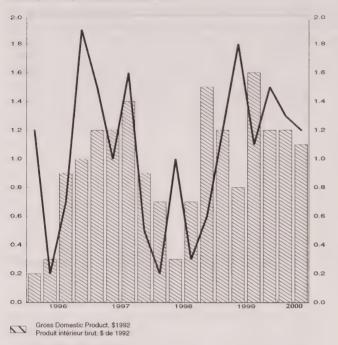

Les mises en chantier de logements sont tombées pour se situer à 142 100 unités, en baisse de presque 13%. Il

since the second quarter of 1998. Most of the fall occurred in Ontario, where starts fell by 14,000 units. Cement truckers struck in Southern Ontario, slowing housing starts. Residential building permits fell by 7.4%

s'agit de la première diminution trimestrielle depuis le deuxième trimestre de 1998. C'est en Ontario que l'on a observé la baisse la plus forte, alors que les mises en chantier ont reculé de 14 000 unités, freinées par la grève des camionneurs livreurs de ciment dans le sud de la province. Les permis de bâtir résidentiels ont diminué de 7,4 %.

Footnotes

Table 5

- Sum of accrued net income of farm operators from farm production and net income of non-farm unincorporated business, including rent.
- [2] Total income minus current transfers to government.

Table 6

- Includes interest and dividends received from nonresidents.
- [2] Interest on the public debt is routed to other sectors of the economy through the corporate sector due to incomplete information on the transactions of government debt instruments.

Table 9, 10, 11, 12 and 13

[1] [2] In GDP, government current expenditure is recorded on a net basis, that is, after deduction of sales of goods and services. In the government sector accounts, sales of goods and services to other sectors are shown separately as part of revenue, and current expenditure is recorded on a gross basis, which leaves saving unchanged.

Table 14

[1] [2] [3] This account presents the saving as well as the net lending or borrowing position of non-residents with respect to their transactions with Canadian residents. The sign of these aggregates is, therefore, the reverse of what appears in the Canadian Balance of International Payments.

Table 15

[1] [2] [3] [4] By definition, the sum of this aggregate over all sectors is equal to zero.

Notes

Tableau 5

- [1] Somme du revenu comptable net des exploitants agricoles au titre de la production agricole et du revenu net des entreprises individuelles non agricoles, loyers compris.
- [2] Revenu total moins transferts courants aux administrations publiques.

Tableau 6

- Comprends les intérêts et les dividendes reçus des nonrésidents.
- [2] Les intérêts sur la dette publique sont affectés aux autres secteurs de l'économie par le biais du secteur des sociétés en raison d'un manque d'information sur les transactions de titres de dette des administrations.

Tableau 9, 10, 11, 12 et 13

[1] [2] Dans le PIB, les dépenses courantes des administrations sont enregistrées sur une base nette, c'est-à-dire après déduction des ventes de biens et services. Dans les comptes sectoriels des administrations, les ventes de biens et services aux autres secteurs sont montrées séparément sous les revenus et les dépenses courantes sont enregistrées sur une base brute, ce qui laisse l'épargne inchangée.

Tableau 14

[1] [2] [3] Ce compte présente la position des non-résidents en regard de leurs transactions avec les résidents canadiens, et ce pour l'épargne ainsi que, le prêt ou l'emprunt net. Conséquemment, le signe de ce agrégats est inversé par rapport à ce qui figure dans la balance des paiements internationaux du Canada.

Tableau 15

[1] [2] [3] [4] Par définition, la somme de cet agrégat pour tous les secteurs est égal à zéro.

Glossary

Accrued net income of farm operators from farm production. Net income received by farm operators from farm production plus the undistributed portion of earnings arising out of the operations of the Canadian Wheat Board and the adjustment made to shift agricultural subsidies from a cash to an accrual basis.

Association of individuals. Non-profit institutions serving households, such as churches, labour unions and charitable organizations, plus credit unions, trusteed pension plans, life insurance companies, fraternal societies and mutual non-life insurance companies. They are treated as businesses with respect to their capital outlays and their intermediation activities, but as persons with respect to their current expenses.

Bonds. Marketable and non-marketable securities issued in Canadian or foreign currency with an original term to maturity in excess of one year. Includes:

Canada bonds. Direct bonds of the federal government (of which, Canada Savings Bonds) and quaranteed federal enterprise bonds.

Provincial bonds. Direct bonds of provincial governments (of which, provincial savings bonds) and guaranteed provincial enterprise bonds.

Municipal bonds. Direct bonds of municipalities and guaranteed municipal enterprise bonds.

Other bonds. Bonds issued by Canadian corporations, hospitals and non-profit institutions, as well as non-guaranteed bonds of government business enterprises. Also included are asset-backed securities.

Business sector. All transactors producing goods and services for sale at a price intended to cover costs of production, namely corporations, government business enterprises, unincorporated businesses and independent professional practitioners. Also includes owners occupying their own dwelling, treated as businesses renting to themselves, and associations of individuals, treated as businesses with respect to their capital outlays and their intermediation activities.

Canada and Quebec Pension Plans. The part of the government sector which consists of the operations of the Canada and Quebec Pension Plans, established in 1966.

Canadian residents. Institutional units, such as persons, corporations and non-profit institutions, which have a centre of economic interest (a dwelling, a business location) in the economic territory of Canada.

Capital and financial account. This account shows, for each major sector, a) the saving and acquisition of non-financial capital and the difference between them, called net lending; and b) transactions in financial assets, transactions in liabilities and the difference between them, called net financial investment. In theory, the two balancing items, net lending and net financial investment, are equal; in practice, imperfections in the statistics lead to a difference between the two, shown as a statistical discrepancy.

Capital consumption allowances. Allowances for the using up of capital in the productive process. They are calculated for business and government fixed assets as well as housing. They also include miscellaneous valuation adjustments bringing business accounting records into conformity with national accounts definitions, such as the addition of claims paid by insurance companies to compensate for fire and other losses.

Capital transfers. Transfers in cash or in kind, out of the wealth of the donor (inheritances and migrants' funds, transfer of ownership of an asset or cancellation of a liability), or transfers which the recipient is expected to use towards the acquisition of an asset. Capital transfers have no effect on the saving of the donor or recipient.

Chain price indexes. Price indexes where the values of the aggregate index for two adjacent periods, calculated from the detailed price indexes, are based on the expenditure pattern from the first of the two periods, and where these index values are linked together in a chain to form the index.

Chain Fisher volume index. A measure of change in volume from period to period. It is calculated as the geometric mean of a chain Paasche volume index and a chain Laspeyres volume index. In other words, it is an average of two distinct measures of change in volume: one calculated as if prices were constant in the first of two adjacent periods (Laspeyres volume) and the other calculated as if prices were constant in the second of the two adjacent periods (Paasche volume).

Claims. Financial instrument comprising:

Corporate claims. Loans, advances and issues of debt between associated corporations; on the asset side, also includes investment in shares between associated corporations.

Government claims. Claims between governments, between related government business enterprises or between a parent government and its enterprises, in the form of shares, debt securities, loans and advances.

Constant prices. A valuation expressed at the prices prevailing during a fixed reference or base period. At present, the base period for national accounts estimates in constant prices is 1992, which means that they have been restated in 1992 prices. See current prices.

Consumer credit. Credit extended to persons for purchasing consumer goods and services.

Consumer goods. New goods acquired by households for their own consumption. Comprise three categories: a) Durable goods, which can be used repeatedly or continuously for more than one year, such as motor vehicles and major appliances; b) Semi-durable goods, which can be used on multiple occasions and have an expected lifetime of one year or somewhat more, such as clothing, footwear and linens; c) Non-durable goods, which can be used only once, such as food, gasoline, alcoholic beverages and tobacco; in practice, the latter also include a few goods of little value used more than once, such as household supplies.

Consumer services. Services consumed by households, such as rent (including the rent imputed on owner-occupied housing), transportation, education, medical care, child care, food and accommodation services as well as travel expenditures of Canadians abroad, less travel expenditures of foreigners in Canada. Also includes the current (operating) expenses of associations of individuals.

Contributions to social insurance plans. Employer and employee contributions to employment insurance, government pension funds, the Canada and Quebec Pension Plans and workers' compensation.

Corporate and government business enterprise sector. All business transactors whose legal form of organization is the corporation, plus government business enterprises. This sector is divided into non-financial and financial enterprises. The latter are comprised of several sub-sectors (Bank of Canada, chartered banks, credit unions, life insurance companies, trusteed pension funds, mutual funds, etc.). The intermediation activities of credit unions, life insurance companies and trusteed pension funds shown as assets of these sub-sectors are balanced by claim liabilities which, in turn, are assets of the persons and unincorporated business sector.

Corporation profits before taxes. The net earnings from economic activity of privately-held corporations, measured after deduction of capital consumption allowances.

Currency and deposits. Financial instruments comprising:

Currency and bank deposits. Deposits denominated in Canadian dollars at chartered banks in Canada and at the Bank of Canada, plus Canadian currency and coin in circulation.

Other deposits. All deposits at other Canadian deposit-taking institutions, including shares in credit unions.

Foreign currency and deposits. Holdings of foreign currency and foreign currency denominated deposits at chartered banks in Canada, foreign branches and subsidiaries of Canadian chartered banks, foreign banks and other foreign deposit-taking institutions.

Current prices. A valuation at current prices is expressed at the prices prevailing during the period being referred to. See **constant prices.**

Current transfers. Transfers out of the income of the donor, reducing his saving and adding to that of the recipient.

Current transfers from corporations to persons. Charitable donations and other contributions.

Current transfers from government to business. Subsidies to the business sector.

Current transfers from government to non-residents. Pensions paid to non-residents, contributions to international organizations and economic and technical assistance as well as food aid provided by the Canadian International Development Assistance Agency and other governmental agencies.

Current transfers from government to persons. Payments such as the Child Tax Benefit/Credit, Employment Insurance benefits, old age security benefits, welfare payments, scholarships and research grants, workers' compensation benefits, grants to aboriginal peoples and their organizations, public service pensions and pensions paid under the Canada and Quebec Pension Plans.

Current transfers from non-residents to government. Withholding taxes paid by non-residents to the Government of Canada.

Current transfers from non-residents to persons. Pensions paid by foreign governments to Canadian residents plus remittances by non-residents to Canadian residents.

Current transfers from persons and unincorporated businesses to government. Income taxes, contributions to social insurance plans and other current transfers.

Current transfers from persons to corporations. The transfer portion of interest on the consumer debt.

Current transfers from persons to non-residents. Remittances by Canadian residents (particularly religious and charitable organizations) to non-residents and withholding taxes paid abroad.

Direct taxes. Current transfers to government from persons, unincorporated businesses, corporations and government business enterprises in the form of taxes on income from employment, property, holding gains or any other source. Direct taxes from persons are recorded on a cash basis, and those from corporations and government business enterprises, on an accrual basis.

Direct taxes from persons. Income taxes, succession duties and estate taxes paid by persons and unincorporated businesses.

Dividends. Income payable and receivable in respect of corporate equities (cash dividends) and further equity participation in corporate enterprises (stock dividends).

Economic territory. The economic territory of a country encompasses the geographic territory, plus the air space, territorial waters and continental shelf, as well as its territorial enclaves abroad (embassies, consulates, military bases...).

Exports and imports of goods and services. Current receipts and payments arising out of transactions in moveable goods and services between residents and non-residents. Services include travel, freight and shipping, business services, government transactions, financial intermediation and other services.

Factor cost. A valuation reflecting the cost of the factors of production (labour and capital). It corresponds to the value remaining after the deduction from market prices of all applicable taxes and subsidies. See **market prices**.

Farm inventories. Farm output stored on farms; includes grains, tobacco, potatoes and livestock.

Final domestic demand. The sum of personal expenditure on consumer goods and services, net government current expenditure on goods and services, government gross fixed capital formation and business gross fixed capital formation.

Fixed-weighted price indexes. Also known as "Laspeyres" indexes, these are price indexes where a fixed pattern of expenditure from some base period is used to aggregate the detailed price indexes in each period.

Foreign investments. All marketable financial instruments (bonds, short-term paper and shares) which are liabilities of the non-resident sector (foreign governments and corporations) and assets of domestic sectors.

Government business enterprises. Government enterprises and agencies which operate on a profit or cost recovery basis and whose motivation is similar to that of private enterprises. Their total profits (net of losses) are recorded in GDP, while only the profits remitted to government are recorded in the government income and

outlay account, under government investment income. The difference between these two measures, retained earnings, forms part of business sector saving.

Government current expenditure on goods and services. All current outlays for goods and services by the government sector, including wages and salaries of government employees. It also includes expenditure on weapons for defence and an imputation for the depreciation of government fixed assets. It is recorded before deduction of revenues from sales of goods and services in the government income and outlay account, and after deduction of these revenues in GDP (net government current expenditure on goods and services).

Government investment income. In GDP, includes interest income of public service pension plans, other interest and dividend income of governments and royalties. In the government income and outlay account, it also includes the profits of government business enterprises remitted to government. See government business enterprises.

Government sales of goods and services. Revenues from the sale of goods and services, such as water charges, landing fees and charges for government documents.

Government sector. All departments, agencies, and funds (budgetary and non-budgetary) of the federal, provincial and local levels of government, as well as crown corporations which receive more than 50% of their revenues in grants from their parent governments. Also included are school boards, universities, non-profit colleges, hospitals, non-profit residential care facilities, as well as the Canada and Quebec Pension Plans.

Grain in commercial channels. Grain in the hands of the Canadian Wheat Board or private grain dealers.

Gross Domestic Product. The total unduplicated value of the goods and services produced in the economic territory of a country or region during a given period. GDP can be measured three ways: as total incomes earned in current production, as total final sales of current production, or as total net values added in current production. It can be valued either at factor cost or at market prices.

Gross Fixed Capital Formation. Expenditures by the government and business sectors on buildings, engineering construction and machinery and equipment. Includes imports of used machinery and equipment, which constitute additions to domestic capital stock, and transfer costs on the sale of existing fixed assets (i.e. real estate commissions). Comprises three broad categories: residential structures, non-residential structures and machinery and equipment. Government fixed capital formation includes spending on non-military defence buildings and equipment. Abbreviated as fixed capital in the capital and financial account. Synonym of investment in fixed capital.

Gross National Product. A measure of income equal to the Gross Domestic Product at market prices, plus investment income received from non-residents, less investment income paid to non-residents.

Holding gains and losses. Additions to or subtractions from income which result from selling an asset for more or less than its purchase price. As holding gains and losses are not related to current production, they are excluded from GDP through the inventory valuation adjustment.

Households. A group of persons who share the same living accommodation, pool some, or all of their income and wealth and consume certain goods and services collectively. They may engage in any other kind of economic activity.

Implicit price indexes. Also known as variable-weighted or "Paasche" indexes (although not strictly of the Paasche type), these price indexes are a by-product of the deflation procedure, obtained by dividing an expenditure series expressed at current prices by the corresponding series expressed at constant prices.

Imports of goods and services. See exports and imports of goods and services.

Income and outlay account. This account shows, for each major sector, all sources of current income (production, receipts of property income and other transfers) and all current outlays (expenditure on goods and services, payments of property income and other transfers), as well as saving, equal to a sector's income less its outlay.

Indirect taxes. Taxes which add to the cost of production and are likely to be reflected in market prices paid by the purchaser, such as sales and excise taxes, import duties and property taxes.

Inheritances and migrants' funds. Capital brought to Canada by immigrants at the time of arrival or transferred outside Canada by emigrants at time of departure, or intended to be transferred at a later date, plus bequests to Canadian residents from non-residents or vice-versa.

Interest and miscellaneous investment income. Investment income of persons, except dividends, plus government investment income, less net investment income of persons and governments from non-residents, less the transfer portion of interest on the consumer debt, less the interest on the public debt.

Interest on the consumer debt. Interest paid by persons on account of liabilities incurred to finance personal expenditure on consumer goods and services. Consists of two parts: the administrative expenses, representing the cost of rendering services to borrowers, and the remaining "transfer portion".

Interest on the public debt. Interest payments on liabilities of the government sector.

Inventory valuation adjustment. The difference between the change in inventory book values and the value of physical change in inventories, which is a measure of the net holding gain or loss realized by business as a result of price changes. Holding gains and losses on inventories are present in corporation profits and other income aggregates, and must be removed in order to measure the value of current production.

Investment in fixed capital. Synonym of **gross fixed** capital formation.

Investment in inventories. Change in the physical volume of business and government inventories, valued at the average market prices of the period. Business inventories consist of two categories: a) non-farm inventories and b) farm inventories and grain in commercial channels. Government inventories include only uranium stocks, up to 1981, and those held by federal government commodity agencies, such as the Canadian Dairy Commission. Abbreviated as inventories in the capital and financial account.

Investment income of persons. Interest on deposits, bonds, mortgages, etc. and royalties paid by corporations, governments and non-residents to persons, plus investment income accumulating on their behalf in trusteed pension plans and life insurance funds, or on behalf of other associations of individuals. Excludes dividends.

Investment income paid to non-residents. Investment income payments on Canadian liabilities to non-residents, inclusive of any applicable withholding taxes. Includes interest, dividends and other payments such as net expenses of Canadian banks from foreign currency transactions and net revenues of foreign insurance companies from insurance operations in Canada.

Investment income received from non-residents. Investment income earned by Canadian residents on their assets abroad, inclusive of any applicable withholding taxes. Includes interest, dividends and other receipts such as net earnings of Canadian banks from foreign currency transactions and net revenues of Canadian insurance companies from insurance operations abroad.

Labour income. The sum of wages and salaries plus supplementary labour income.

Life insurance and pensions. Liability of life insurance companies and trusteed pension plans to policyholders or beneficiaries and federal government liability with respect to annuities sold under the Government Annuities Act. Asset of policy holders or beneficiaries.

Loans. Financial instrument comprising **Bank loans** and **Other loans.** Negotiated loans made by chartered banks and other financial institutions.

Machinery and equipment. Capital expenditures on durable, tangible goods with an expected service life of one year or more, such as furniture, motor vehicles, office machines and equipment not permanently installed (permanently built-in equipment belongs to non-residential construction). Includes installation and delivery costs.

Market prices. A valuation expressed in terms of the prices actually paid by the purchaser, that is, after all applicable taxes and subsidies. See **factor cost**.

Military pay and allowances. The part of labour income consisting of payments to members of the Armed Forces serving in Canada or abroad. Includes military pay, allowances and the employer's social contributions. Excludes veterans' allowances, treated as transfer payments.

Mortgages. Negotiated loans and agreements of sale secured by real property, mostly residential buildings. Includes first, second and third mortgages. Mortgages are characterized by blended repayments, usually monthly, of principal and interest.

Net acquisition of existing assets. A sector's purchases less sales of used fixed assets and land. Business purchases less sales of natural resources, resource rights and intangible assets are also included. Abbreviated as existing assets.

Net capital transfers. Capital transfers from other sectors less capital transfers to other sectors.

Net domestic product at factor cost. The sum of all incomes arising from production, or ownership of assets used in production, within the economic territory of a country or region. Includes labour income, profits before taxes, interest and miscellaneous investment income, accrued net income of farm operators from farm production, net income of non-farm unincorporated business, including rent, and the inventory valuation adjustment. Differs from GDP at factor cost in that it excludes capital consumption allowances.

Net financial investment. The net lending (or borrowing) of a sector can be measured either through incomes and expenditures or through financial transactions. Under the financial transactions approach, net lending is called net financial investment. It is equal to a sector's transactions in financial assets less its transactions in liabilities. See net lending and capital and financial account.

Net income of non-farm unincorporated business, including rent. Earnings of unincorporated proprietors, except farm operators, from their own business. Includes the

net income of unincorporated businesses and self-employed individuals, as well as the net rental income of persons.

Net income received by farm operators from farm production. Gross proceeds from the sale of farm products, plus subsidies on a cash basis, plus the imputed value of farm output consumed by farming households, plus investmen in farm inventories, less farm operating expenses and depreciation on farm buildings and equipment. Excludes other types of income, such as net rent or interest receipts, and profits of incorporated farms. See accrued net income of farm operators from farm production.

Net inheritances and migrants' funds. Funds brought to Canada by immigrants, less funds transferred outside Canada by emigrants.

Net investment income from non-residents. Investment income received from, less investment income paid to, non-residents.

Net lending. The net lending (or borrowing) of a sector can be measured either through incomes and expenditures or through financial transactions. Under the income and expenditure approach, net lending is the difference between internally generated funds and outlays on non-financial capital. A sector's net lending equals its saving, plus its capital consumption allowances and net capital transfers from non-residents, less its investment in fixed capital and inventories. See net financial investment and capital and financial account.

Net national income at factor cost. Net domestic product at factor cost plus net investment income from non-residents.

Net rental income. Earnings of persons, after expenses, arising from the ownership of residential property, whether rented or owner-occupied, and from the rental of non-residential property.

Non-farm inventories. Inventories of raw materials, goods-in-process and finished products.

Non-financial capital acquisition. The gross fixed capital formation of a sector, plus its investment in inventories and its net acquisition of existing assets. Does not apply to the non-resident sector which, by definition, can only engage in financial investment.

Non-resident sector. All transactors who do not have a centre of economic interest (a dwelling, a business location) in the economic territory of Canada. By definition, non-residents can only engage in financial investment. Any transactor making non-financial investment is deemed to be a resident.

Non-residential structures. Construction of industrial, commercial and institutional buildings, such as plants, warehouses, shopping centres, office buildings, schools and hospitals, plus construction of highways, bridges, railway tracks, canals, waterworks, sewage systems, dams, hydro or thermal generating plants, telephone lines, oil and gas facilities, etc. Includes new construction, conversions resulting in a structural change, major renovations, permanently built-in equipment and site preparation.

Non-residential structures and equipment. The sum of business investment in non-residential structures and in machinery and equipment.

Official reserves. The sum of a) official holdings of gold and foreign exchange (U.S. dollars and deposits in other convertible currencies), b) loans to or from the International Monetary Fund on general account, and c) special drawing rights.

Other current transfers from persons to government. Transfers not classified as direct taxes. Includes hospital and medical care premiums, various licences and permits, fines and penalties, as well as donations to entities within the government sector.

Other financial assets / Other liabilities. Various items not included under other financial instruments, such as accrued interest, interest receivable or payable and prepaid expenses.

Outside Canada. Embassies and other Canadian government offices abroad which are part of the territory of Canada.

Personal disposable income. Personal income less current transfers to government.

Personal expenditure on consumer goods and services. Household spending on new consumer goods and on consumer services, plus any mark-up on used goods. Operating expenses of associations of individuals serving households are also included, under consumer services.

Personal income. The sum of all incomes received by persons residing in Canada, whether factor earnings from current production or current transfers from other sectors, plus the investment income that associations of individuals accumulate on their own behalf or on behalf of persons.

Personal saving. Personal disposable income less personal expenditure on consumer goods and services, less current transfers from persons to corporations and to non-residents.

Personal sector. All persons, households and associations of individuals serving households.

Persons and unincorporated business sector. Transactors of the personal sector plus those of the unincorporated business sector. In the capital and financial account, transactions of these two sectors are consolidated. In addition, in this account, although credit unions, life insurance companies and trusteed pension plans appear as sub-sectors of the corporate and government business enterprise sector, their transactions in financial assets are balanced by liabilities which, in turn, are recorded as assets of the persons and unincorporated business sector.

Reinvested earnings of direct investment enterprises. Profits earned on, less dividends received from, direct foreign investment. From 1961, equity income from direct foreign investment is recorded on an accrual rather than cash basis in the Balance of International Payments. This gives rise to an additional reconciliation item between the former and the National Economic and Financial Accounts, in which this change has not been incorporated.

Residential structures. Construction of dwellings (subdivided into single, semi-detached, row housing and apartments), garages, cottages and mobile homes. Includes new construction, conversions resulting in a structural change and major renovations (together referred to as "alterations and improvements"), permanently built-in equipment, site preparation and transfer costs such as real estate commissions.

Saving. The current income of a sector, less its current expenditure. Includes current transfers but excludes capital consumption allowances and capital transfers. Referred to as gross saving when it includes capital consumption allowances.

Sector accounts. The quarterly national accounts now include the full sector accounts, previously only released on an annual basis. These sector accounts record the income, outlay, saving, non-financial and financial investment, borrowing and net lending for the four main sectors: a) persons and unincorporated businesses; b) corporations and government business enterprises; c) government; and d) non-residents. See income and outlay account and capital and financial account.

Shares. Financial instrument consisting of common and preferred shares (including term preferred shares and mutual fund shares), plus contributed surplus. Stock issued by a government business enterprise to a parent government is classified to government claims.

Short-term paper. Marketable financial instrument comprising:

Government of Canada short-term paper. Treasury bills, which are notes of original term to maturity of less than one year, issued at a discount and sold at auction

every week; also includes Canada bills issued in foreign currency.

Other short-term paper. Notes of original term to maturity of one year or less, issued at a discount by a variety of financial and non-financial institutions; includes provincial and municipal Treasury bills.

Statistical discrepancy. Double-entry bookkeeping is fundamental in national accounting and several aggregates, such as GDP and net lending, can be calculated in two or more ways. In principle, all the measures of an aggregate are equal. In practice, differences invariably arise between them due to imperfections in basic statistics and estimation techniques. This difference is called a statistical discrepancy and serves as the balancing item between two theoretically equal aggregates. It can be recorded as is, like the discrepancy between the two estimates of net lending or it can be divided in two, one half being subtracted from the higher estimate and the other, added to the lower one, like the discrepancy between income-based and expenditure-based GDP.

Subsidies. Transfers from government to the business sector toward current costs of production. These transfers represent additions to the income of producers from current production.

Supplementary labour income. Employers' social contributions, either compulsory or voluntary. Includes retirement allowances and contributions to employment insurance, the Canada and Quebec Pension Plans, other pension plans, workers' compensation, medicare, dental plans, short- and long-term disability insurance, etc.

Surplus or deficit of Canada on current transactions with non-residents. Exports of goods and services less imports of goods and services, plus net investment income from non-residents and net current transfers from non-residents.

Surplus or deficit on current account in the "Canadian Balance of International Payments". The surplus or deficit of Canada on current transactions with non-residents plus net reinvested earnings on direct investment.

Trade accounts receivable/payable. Short-term credit advanced or received in the ordinary course of business by suppliers or buyers of business goods and services.

Transactors. Economic agents who engage in transactions involving the purchase and sale of goods and services and the payment and receipt of factor incomes and transfers.

Transfers. Cash, good, service, or asset other than cash transferred by one transactor to another without counterpart, that is, without the donor receiving anything in return. See **current transfers** and **capital transfers**.

Unincorporated business sector. All business transactors whose legal form of organization is not the corporation. Includes independent business operators, self-employed farmers, fishermen and professionals and unincorporated landlords (including those renting to themselves).

Wages and salaries. Total remuneration, in cash or in kind, paid to employees in return for work done. It is recorded on a gross basis, before any deduction for income taxes, pensions, unemployment insurance and other social insurance schemes. Also includes other forms of compensation, namely commissions, tips, bonuses, directors' fees and allowances such as those for holidays and sick leave, as well as military pay and allowances. Excludes employers' social contributions, which are treated as supplementary labour income.

Withholding taxes. Taxes withheld by the Government of Canada on selected income and service payments to non-residents, or withheld by foreign governments on selected income and service payments to Canadian residents.

Glossaire

Acquisition de capital non financier. La formation brute de capital fixe d'un secteur, plus son investissement en stocks et son acquisition nette d'actifs existants. Ne s'applique pas au secteur des non-résidents qui, par définition, réalise seulement des investissements financiers.

Acquisition nette d'actifs existants. Acquisitions moins cessions, par un secteur, d'actifs tangibles usagés et de terrains. Pour les entreprises, englobe aussi les acquisitions moins cessions de ressources naturelles, droits miniers et actifs intangibles. Abrégé comme actifs existants.

Actifs existants. Voir acquisition nette d'actifs existants.

Actions. Instrument financier englobant les actions ordinaires et privilégiées (y compris actions privilégiées à échéance déterminée et actions des fonds mutuels) ainsi que le surplus d'apport. Les actions émises par une entreprise publique à l'administration mère sont classées sous créances, administrations.

Agents. Agents économiques qui effectuent des opérations visant l'achat et la vente de biens et services et qui versent ou recoivent des revenus de facteurs et des transferts.

Ajustement de la valeur des stocks. Écart entre la variation des valeurs comptables des stocks et la valeur de la variation matérielle des stocks, qui mesure le gain (ou perte) de détention net réalisé par l'entreprise à la suite de variations de prix. Les gains ou pertes de détention sur stocks se retrouvent dans les bénéfices des sociétés et dans d'autres agrégats du revenu et doivent être enlevés en vue de mesurer la valeur de la production courante.

Argent liquide et dépôts. Instruments financiers incluant:

Argent liquide et dépôts bancaires. Dépôts en dollars canadiens dans les banques à charte au Canada et à la Banque du Canada, billets canadiens et monnaie en circulation.

Autres dépôts. Tous les dépôts dans les autres institutions de dépôt, y inclus parts dans les caisses d'épargne et de crédit.

Devises et dépôts étrangers. Avoirs et dépôts en devises étrangères dans les banques à charte au Canada, leurs succursales et filiales à l'étranger, les banques étrangères et les autres institutions de dépôt étrangères.

Associations de particuliers. Institutions sans but lucratif au service des ménages, telles églises, syndicats et organismes de charité, ainsi que caisses d'épargne et de crédit, régimes de pensions en fiducie, sociétés d'assurance-vie, sociétés de secours mutuel et compagnies

mutuelles d'assurance générale. Elles sont traitées en entreprises quant à leurs dépenses de capital et leurs activités d'intermédiation, et en particuliers quant à leurs dépenses courantes.

Assurance-vie et rentes. Engagement des sociétés d'assurance-vie et des régimes de pensions en fiducie envers les assurés ou les bénéficiaires et de l'administration fédérale à l'égard des rentes vendues en vertu de la Loi relative aux rentes sur l'État. Actif des assurés ou des bénéficiaires

Autres éléments d'actif / de passif. Divers postes non inclus dans les autres instruments financiers, tels intérêts courus, intérêt à payer ou à recevoir et charges payées d'avance.

Autres transferts courants des particuliers aux administrations. Transferts non classés comme impôts directs. Comprend les primes d'assurance-hospitalisation et santé, divers licences et permis (permis de chasse et pêche, licences de mariage), les amendes et pénalités, la part des particuliers des licences et permis pour véhicules automobiles ainsi que les dons aux hôpitaux.

Bâtiments résidentiels. Construction de logements (subdivisés en logements individuels, logements semidétachés, maisons en rangée et appartements), garages, chalets et maisons mobiles. Englobe la construction neuve, les rénovations majeures et les conversions entraînant un changement de structure (dites "améliorations et modifications"), le matériel incorporé de façon permanente, la préparation du site et les coûts de transfert comme les commissions immobilières.

Bénéfices des sociétés avant impôts. Gains nets résultant de l'activité économique des sociétés privées, mesurés après déduction des provisions pour consommation de capital.

Bénéfices réinvestis d'entreprises d'investissement direct. Bénéfices réalisés sur, moins dividendes reçus de, l'investissement étranger direct. À compter de 1961, le revenu sur l'avoir au titre d'investissement étranger direct est inscrit sur une base d'exercice plutôt que de caisse dans la Balance des paiements internationaux. Il en résulte un poste de rapprochement additionnel entre cette dernière et les comptes économiques et financiers nationaux dans lesquels ce changement n'a pas été introduit.

Biens de consommation. Biens neufs acquis par les ménages pour consommation propre. Comprend trois catégories: a) biens durables, utilisables de façon répétée ou continue durant plus d'un an, tels véhicules et gros appareils ménagers; b) biens semi-durables, utilisables en de multiples occasions et d'une durée utile anticipée d'un an

ou un peu plus, tels vêtements, chaussures et linge de maison; c) biens non durables, utilisables une seule fois, tels aliments, essence, boissons alcoolisées et tabac; en pratique, ces derniers comprennent aussi quelques biens de peu de valeur utilisables plus d'une fois, comme des fournitures ménagères.

Céréales en circuit commercial. Céréales détenues par la Commission canadienne du blé ou des négociants privés.

Compte des revenus et dépenses. Ce compte montre, pour chaque grand secteur, toutes les sources de revenu courant (production, revenus de propriété reçus et autres transferts) et toutes les dépenses courantes (dépenses en biens et services, revenus de propriété versés et autres transferts), ainsi que l'épargne, égale au revenu d'un secteur moins sa dépense.

Compte du capital et financier. Ce compte montre, pour chaque grand secteur, a) l'épargne et l'acquisition de capital non financier, et l'écart entre les deux, appelé le prêt net; et b) les transactions sur actifs financiers, les transactions sur passif et l'écart entre les deux, appelé l'investissement financier net. En théorie, les deux postes d'équilibre, prêt net et investissement financier net, sont égaux; en pratique, les imperfections dans les statistiques engendrent un écart entre les deux, montré comme une divergence statistique.

Comptes à recevoir / à payer. Crédit à court terme accordé ou reçu dans le cours ordinaire des affaires par des fournisseurs ou acheteurs de biens et services commerciaux.

Comptes sectoriels. Les comptes nationaux trimestriels comprennent désormais des comptes sectoriels complets, diffusés auparavant uniquement sur une base annuelle. Ces comptes sectoriels comptabilisent le revenu, les dépenses, l'épargne, l'investissement non financier et financier, l'emprunt et le prêt net, pour les quatre grands secteurs: a) particuliers et entreprises individuelles; b) sociétés et entreprises publiques; c) administrations; et d) non-résidents. Voir compte des revenus et dépenses et compte du capital et financier.

Cotisations aux régimes d'assurance sociale. Cotisations des employeurs et salariés à l'assuranceemploi, aux régimes de pensions de la fonction publique, aux Régimes de pensions du Canada et de rentes du Québec et aux caisses de santé et sécurité au travail.

Coût des facteurs. Une évaluation traduisant le coût des facteurs de production (travail et capital). Elle correspond à la valeur restante, une fois enlevés des prix du marché tous les impôts et subventions applicables.

Créances, Instrument financier incluant:

Créances, entreprises. Prêts, avances et titres de

dette entre sociétés liées; du côté de l'actif, englobe aussi placements sous forme d'actions entre sociétés liées.

Créances, administrations. Créances entre administrations, entre entreprises publiques liées ou entre une administration et ses entreprises sous forme d'actions, titres de dette, prêts et avances.

Crédit à la consommation. Crédit accordé aux particuliers pour l'achat de biens et services de consommation.

Demande intérieure finale. Somme des dépenses personnelles en biens et services de consommation, des dépenses courantes nettes des administrations en biens et services, de la formation brute de capital fixe des administrations ainsi que celle des entreprises.

Dépenses courantes des administrations en biens et services. Toutes les dépenses courantes en biens et services du secteur des administrations publiques, y compris salaires et traitements des employés de l'État. Englobe aussi l'armement et une imputation pour la dépréciation du capital fixe des administrations. Elles sont comptabilisées avant déduction des recettes tirées de la vente de biens et services dans le compte des revenus et dépenses des administrations et après déduction de ces recettes dans le PIB (dépenses courantes nettes des administrations en biens et services).

Dépenses personnelles en biens et services de consommation. Dépenses des ménages en biens de consommation neufs et en services de consommation, et marges sur biens usagés. Les dépenses de fonctionnement des associations de particuliers au service des ménages sont aussi incluses, sous "services de consommation".

Divergence statistique. La comptabilité en partie double est à la base de la comptabilité nationale et plusieurs agrégats, comme le PIB et le prêt net, peuvent être calculés de deux façons ou plus. En théorie, toutes les mesures d'un agrégat sont égales. En pratique, des écarts surviennent immanquablement entre elles en raison d'imperfections dans les statistiques. Cet écart est appelé divergence statistique et sert de poste d'équilibre entre deux estimations théoriquement égales. Il peut être comptabilisé tel quel, comme la divergence entre les deux estimations du prêt net, ou il peut être divisé en deux, une moitié étant soustraite de l'estimation la plus élevée, et l'autre ajoutée à la plus basse, comme la divergence entre l'estimation du PIB en termes de revenus et celle en termes de dépenses.

Dividendes. Revenu payable ou recevable à l'égard de titres de propriété (dividendes en espèces) et participation accrue à la propriété de sociétés (dividendes sous forme d'actions).

Effets à court terme. Instrument financier négociable incluant:

Effets à court terme du Gouvernement du Canada. Bons du Trésor, soit des billets à ordre du porteur d'une échéance originale de moins d'un an, émis à escompte et vendus aux enchères chaque semaine; comprend aussi les "Bons du Canada" émis en devises étrangères.

Autres effets à court terme. Billets d'une échéance originale d'un an ou moins, émis à escompte par diverses institutions financières et non financières; comprend les bons du Trésor provinciaux et municipaux.

Entreprises publiques. Entreprises et agences publiques à but lucratif ou visant à recouvrer leurs coûts et dont la motivation est semblable à celle des entreprises privées. Leurs bénéfices totaux (pertes déduites) sont comptabilisés dans le PIB, alors que leurs bénéfices versés le sont dans le compte des revenus et dépenses des administrations, sous revenus de placements. L'écart entre ces deux mesures, les bénéfices non répartis, fait partie de l'épargne du secteur des entreprises.

Épargne. Le revenu courant d'un secteur moins ses dépenses courantes. Comprend les transferts courants mais exclut les provisions pour consommation de capital et transferts de capitaux. L'agrégat est appelé épargne brute s'il englobe les provisions pour consommation de capital.

Épargne personnelle. Revenu personnel disponible moins dépenses personnelles en biens et services de consommation, moins transferts courants des particuliers aux sociétés et aux non-résidents.

Excédent ou déficit du Canada au titre des opérations courantes avec les non-résidents. Exportations de biens et services moins importations de biens et services, plus revenus de placements nets reçus des non-résidents, plus transferts courants nets reçus des non-résidents.

Excédent ou déficit du compte courant d'après la balance canadienne des paiements internationaux. Excédent ou déficit du Canada au titre des opérations courantes avec les non-résidents, plus valeur nette des successions et des capitaux des migrants.

Exportations et importations de biens et services. Recettes et paiements courants au titre de transactions portant sur des biens meubles et des services entre résidents et non-résidents. Les services comprennent les voyages, les frais de transport, les services commerciaux, les opérations gouvernementales, l'intermédiation financière et d'autres services.

Extérieur du Canada. Ambassades et autres bureaux du gouvernement du Canada à l'étranger, qui font partie du territoire du Canada.

Formation brute de capital fixe. Dépenses par le secteur des entreprises et celui des administrations en immeubles, travaux de génie et machines et matériel. Comprend les importations de machines et matériel usagés, qui viennent accroître le stock de capital productif au pays, et les coûts de transfert sur la vente d'actifs existants (commissions immobilières par exemple). Renferme trois grandes bâtiments résidentiels. ouvrages catégories: résidentiels, et machines et matériel. La formation brute de capital fixe des administrations comprend les bâtiments et l'équipement de la défense à des fins non militaires. Abrégé en capital fixe dans le compte de capital et financier. Synonyme d'investissement en capital fixe.

Gains et pertes de détention. Additions au, ou déductions du, revenu résultant de la vente d'un actif à un prix supérieur ou inférieur à son prix d'acquisition. Comme les gains et pertes de détention ne sont pas reliés à la production courante, ils sont exclus du PIB au moyen de l'ajustement de la valeur des stocks.

Hypothèques. Prêts négociés et accords de vente garantis par des biens immobiliers, surtout des immeubles résidentiels. Comprend les première, deuxième et troisième hypothèques. Les hypothèques sont caractérisées par le remboursement, en général mensuel, d'un mélange de capital et d'intérêts.

Importations de biens et services. Voir exportations et importations de biens et services.

Impôts directs. Transferts courants aux administrations par les particuliers, entreprises individuelles, sociétés et entreprises publiques sous forme d'impôts prélevés sur le revenu d'emploi, la propriété, les gains en capital ou toute autre source. Les impôts directs des particuliers sont inscrits sur une base de caisse, et ceux des sociétés et des entreprises publiques le sont sur une base d'exercice.

Impôts directs des particuliers. Impôts sur le revenu et droits et impôts successoraux versés par les particuliers et les entreprises individuelles.

Impôts indirects. Impôts qui s'ajoutent au coût de production et se retrouvent probablement dans le prix du marché payé par l'acheteur, tels taxes de vente et d'accise, droits à l'importation et impôts fonciers.

Indices de prix à pondération fixe. Également appelés indices "Laspeyres", indices de prix dans lesquels un panier fixe de dépenses pour une période de référence donnée sert à agréger les indices de prix détaillés à chaque période.

Indices de prix en chaîne. Indices de prix dans lesquels les valeurs de l'indice agrégé à partir d'indices de prix détaillés pour deux périodes adjacentes sont basées sur le panier de dépenses de la première des deux périodes et raccordées ensemble en une chaîne pour former l'indice.

Indices de volume en chaîne Fisher. Une mesure de la variation en volume d'une période à l'autre. Elle est calculée comme la moyenne géométrique d'un indice de volume en chaîne Paasche et d'un indice de volume en chaîne Laspeyres. En d'autres termes, c'est la moyenne de deux mesures distinctes en volume: une calculée comme si les prix étaient constants dans la première des deux périodes adjacentes (volume de Laspeyres) et l'autre, comme si les prix étaient constants dans la seconde des deux périodes adjacentes (volume de Paasche).

Indices implicites de prix. Également appelés indices à pondération variable ou "Paasche" (sans être strictement de type Paasche), ces indices sont un sous-produit de la procédure de déflation et sont obtenus en divisant une série des dépenses exprimées en prix courants par la série correspondante exprimée en prix constants.

Intérêts et revenus divers de placements. Revenus de placements des particuliers, sauf dividendes, plus revenus de placements des administrations, moins revenus nets de placements reçus des non-résidents par les particuliers et les administrations, moins la partie "transfert" des intérêts sur la dette de consommation, moins le service de la dette publique.

Intérêts sur la dette de consommation. Intérêts versés par les particuliers sur des engagements encourus pour financer des dépenses personnelles en biens et services de consommation; comprend deux parties: les frais d'administration, correspondant au coût des services rendus aux emprunteurs, et la partie résiduelle, dite "transfert".

Intérêts sur la dette publique. Intérêts sur les engagements du secteur des administrations publiques.

Investissement en capital fixe. Synonyme de **formation brute de capital fixe**.

Investissement en stocks. Variation du volume matériel des stocks détenus par les entreprises et les administrations, évaluée aux prix moyens du marché au cours de la période. Les stocks des entreprises renferment deux catégories: a) stocks non agricoles et b) stocks agricoles et céréales en circuit commercial. Les stocks des administrations englobent seulement des stocks d'uranium, jusqu'en 1981, et ceux détenus par des agences fédérales comme la Commission canadienne du lait. Abrégé en stocks dans le compte du capital et financier.

Investissement financier net. Le prêt (ou emprunt) net d'un secteur peut être mesuré soit par les revenus et dépenses, soit par les transactions financières. Dans l'approche des transactions financières, le prêt net est appelé investissement financier net. Pour un secteur, il est égal à ses transactions sur actifs financiers moins ses transactions sur passif. Voir prêt net et compte du capital et financier.

Investissements étrangers. Tous les instruments financiers négociables (actions, obligations et effets à court terme) inscrits au passif du secteur des non-résidents (sociétés, gouvernements étrangers) et à l'actif de secteurs intérieurs.

Machines et matériel. Dépenses d'immobilisations en biens matériels durables d'une durée utile anticipée d'un an ou plus, tels meubles, véhicules, machines de bureau et équipement non installé en permanence (celui incorporé de façon permanente fait partie des ouvrages non résidentiels). Englobe le coût de livraison et d'installation.

Ménages. Un groupe de personnes qui partagent un logement, mettent ensemble toutes, ou partie, de leurs revenus et richesse et consomment certains biens et services collectivement. Ils peuvent aussi exercer n'importe quelle autre activité économique.

Obligations. Titres, négociables ou non, émis en devises canadiennes ou étrangères ayant une échéance originale de plus d'un an. Comprend:

Obligations fédérales. Obligations directes du gouvernement fédéral (dont, obligations d'épargne du Canada) et obligations garanties des entreprises fédérales.

Obligations provinciales. Obligations directes (dont, obligations d'épargne) des administrations provinciales et obligations garanties des entreprises provinciales.

Obligations municipales. Obligations des administrations municipales et obligations garanties des entreprises municipales.

Autres obligations. Obligations négociables émises par les sociétés canadiennes, les hôpitaux et les organismes sans but lucratif, et obligations non garanties des entreprises publiques

Ouvrages non résidentiels. Érection de bâtiments industriels, commerciaux et institutionnels, tels usines, entrepôts, centres commerciaux, édifices à bureaux, écoles et hôpitaux, et construction de routes, ponts, voies ferrées, canaux, réseaux d'adduction d'eau, égouts, barrages, centrales électriques ou thermiques, lignes téléphoniques, installations pétrolières et gazières, etc. Englobe construction neuve, conversions entraînant un changement de structure, rénovations majeures, matériel incorporé de façon permanente et préparation du site.

Ouvrages non résidentiels et équipement. Somme de l'investissement des entreprises en ouvrages non résidentiels et en machines et matériel.

Prêts / Emprunts. Instrument financier comprenant prêts/ emprunts bancaires et autres prêts/emprunts. Prêts négociés, offerts surtout par les banques à charte et autres institutions financières.

Prêt net. Le prêt (ou emprunt) net d'un secteur peut être mesuré soit par les revenus et dépenses, soit par les transactions financières. Selon l'approche des revenus et dépenses, le prêt net est l'écart entre les fonds d'origine interne et l'investissement en capital non financier. Le prêt net d'un secteur égale son épargne, plus ses provisions pour consommation de capital et les transferts nets de capitaux des non-résidents, moins son investissement en capital fixe et en stocks. Voir investissement financier net et compte du capital et financier.

Prix constants. Une évaluation exprimée aux prix ayant cours dans une période de référence fixe. À l'heure actuelle, la période de référence des estimations des comptes nationaux en prix constants est 1992, ce qui signifie que celles-ci sont exprimées en prix de 1992. Voir prix courants.

Prix courants. Une évaluation en prix courants est exprimée aux prix ayant cours dans la période à laquelle il est fait référence. Voir **prix constants**.

Prix du marché. Une évaluation exprimée en termes des prix effectivement payés par l'acheteur, c'est-à-dire après prise en compte de tous les impôts et subventions applicables. Voir **coût des facteurs**.

Produit intérieur brut. Valeur sans double compte des biens et services produits dans le territoire économique d'un pays ou d'une région au cours d'une période donnée. Le PIB peut être calculé de trois façons, soit comme la somme des revenus gagnés dans la production courante, la somme des ventes finales de la production courante ou la somme des valeurs ajoutées nettes dans la production courante. Il peut être évalué au coût des facteurs ou aux prix du marché.

Produit intérieur net au coût des facteurs. Somme de tous les revenus engendrés par la production, ou la propriété d'actifs servant à la production, dans le territoire économique d'un pays ou d'une région. Comprend rémunération des salariés, bénéfices avant impôts, intérêts et revenus divers de placements, revenu comptable net des exploitants agricoles au titre de la production agricole, revenu net des entreprises individuelles y compris les loyers et ajustement de la valeur des stocks. Diffère du PIB au coût des facteurs en ce qu'il exclut les provisions pour consommation de capital.

Produit national brut. Une mesure de revenu égale au Produit intérieur brut, plus les revenus de placements reçus des non-résidents, moins les revenus de placements versés aux non-résidents.

Provisions pour consommation de capital. Provisions pour tenir compte de l'usure du capital dans le processus productif. Elles sont calculées à l'égard des actifs fixes des entreprises et administrations ainsi que des logements. Englobe aussi divers ajustements de valeur visant à rendre les dossiers comptables des entreprises conformes aux définitions de la comptabilité nationale, telle l'addition des prestations versées par les compagnies d'assurance pour compenser les pertes dues aux incendies.

Régime de pensions du Canada et régime de rentes du Québec. La partie du secteur des administrations qui concerne les opérations du Régime de pensions du Canada et du Régime de rentes du Québec, créés en 1966.

Rémunération des salariés. Somme des salaires et traitements et du revenu supplémentaire du travail. Appelé aussi "revenu du travail".

Réserves officielles. Somme de a) avoirs officiels en or et devises étrangères (dollars américains et dépôts en autres devises étrangères convertibles), b) prêts au, et emprunts du, compte général du Fonds monétaire international, et c) droits de tirage spéciaux.

Résidents canadiens. Unités institutionnelles, tels particuliers, sociétés et institutions sans but lucratif, qui ont un centre d'intérêt économique (logement ou place d'affaire) dans le territoire économique du Canada.

Retenues fiscales. Impôts retenus par le gouvernement du Canada sur certains paiements de revenus ou de services faits à des non-résidents, ou retenus par les gouvernements étrangers sur certains paiements de revenus ou services faits à des résidents canadiens.

Revenu comptable net des exploitants agricoles au titre de la production agricole. Revenu net reçu par les exploitants agricoles au titre de la production agricole, plus la part non répartie des bénéfices sur les opérations de la Commission canadienne du blé et l'ajustement apporté pour exprimer les subventions agricoles sur une base d'exercice plutôt que comptable.

Revenu national net au coût des facteurs. Produit intérieur net au coût des facteurs, plus les revenus nets de placements des non-résidents.

Revenu net de loyers. Gains des particuliers, après déduction des dépenses, tirés de la propriété résidentielle, qu'elle soit louée ou occupée par le propriétaire, et de la location de propriété non résidentielle.

Revenu net des entreprises individuelles non agricoles, loyers compris. Gains des propriétaires individuels, sauf les exploitants agricoles, au titre de leur propre entreprise. Englobe le revenu net des entreprises individuelles et des travailleurs à leur propre compte ainsi que le revenu net de loyers des particuliers.

Revenu net reçu par les exploitants agricoles au titre de la production agricole. Recettes brutes de la vente de produits agricoles, plus subventions sur une base de caisse, plus valeur imputée de la production agricole consommée par les ménages sur les fermes, plus investissement en stocks agricoles, moins dépenses d'exploitation agricoles et dépréciation sur les bâtiments et le matériel agricoles. Exclut les autres revenus, tels loyers nets ou revenus d'intérêt et les bénéfices des exploitations constituées en sociétés. Voir revenu comptable net des exploitants agricoles au titre de la production agricole.

Revenu personnel. Somme de tous les revenus reçus par les particuliers résidant au Canada, qu'il s'agisse de gains de facteurs au titre de la production courante ou de transferts courants d'autres secteurs, plus revenus de placements que les associations de particuliers accumulent pour leur propre compte ou celui des particuliers.

Revenu personnel disponible. Revenu personnel moins transferts courants aux administrations.

Revenu supplémentaire du travail. Cotisations sociales des employeurs, obligatoires ou facultatives. Comprend les allocations de retraite et les cotisations à l'assurance-emploi, au Régime de pensions du Canada, au Régime de rentes du Québec, aux autres régimes de pensions, aux caisses de santé et sécurité au travail, à l'assurance-santé, aux régimes de soins dentaires, à l'assurance-invalidité à court ou à long terme, etc.

Revenus de placements des administrations publiques. Dans le PIB, englobe les revenus d'intérêts des régimes de pension de la fonction publique, d'autres revenus d'intérêts et de dividendes des administrations et les redevances. Dans le compte des revenus et dépenses des administrations, comprend aussi les bénéfices versés par les entreprises publiques aux administrations. Voir entreprises publiques.

Revenus de placements des particuliers. Intérêts (sur dépôts, obligations, hypothèques, etc.) et redevances versés par les sociétés, les administrations et les non-résidents aux particuliers, plus revenus de placements s'accumulant à leur profit dans les régimes de pensions en fiducie et les caisses d'assurance-vie, ou au profit d'autres associations de particuliers. Exclut les dividendes.

Revenus de placements reçus des non-résidents. Revenus de placements gagnés par les résidents canadiens sur leurs actifs à l'étranger, incluant toutes les retenues fiscales applicables. Englobe intérêts, dividendes et autres revenus tels gains nets des banques canadiennes sur des transactions en devises étrangères et des compagnies d'assurance canadiennes de leur activité à l'étranger.

Revenus de placements versés aux non-résidents. Revenus de placements sur des engagements canadiens envers des non-résidents, incluant toutes les retenues fiscales applicables. Englobe intérêts, dividendes et autres paiements comme les dépenses nettes des banques canadiennes sur des transactions en devises étrangères et les revenus nets des compagnies d'assurance étrangères de leur activité au Canada.

Revenus nets de placements des non-résidents. Revenus de placements reçus des, moins revenus de placements versés aux, non-résidents.

Salaires et traitements. Rémunération totale, en espèces ou en nature, versée à des salariés pour un travail exécuté. Elle est inscrite sur une base brute, avant toute déduction pour les impôts sur le revenu, les pensions, l'assurance-chômage et les autres régimes d'assurance sociale. Englobe aussi d'autres types de rémunération, soit commissions, pourboires, primes de rendement, honoraires des directeurs et allocations pour vacances et congés de maladie, ainsi que solde et indemnités militaires. Exclut les cotisations sociales des employeurs, qui sont traitées comme revenu supplémentaire du travail.

Secteur des administrations publiques. Tous les ministères, agences et fonds généraux (budgétaires et non budgétaires) des administrations fédérale, provinciales et locales, y compris les sociétés de la couronne qui tirent plus de 50% de leurs revenus de transferts de l'administration mère. Englobe aussi les conseils scolaires, les universités, les collèges à but non lucratif, les hôpitaux, et les centres d'hébergement à but non lucratif, ainsi que le Régime de pensions du Canada et le Régime de rentes du Québec.

Secteur des entreprises. Tous les agents produisant des biens et services vendus à un prix censé couvrir le coût de production, soit sociétés, entreprises publiques, entreprises individuelles et professionnels à leur propre compte. Englobe aussi les propriétaires occupant leur logement, traités en entreprises louant à elles-mêmes, et les associations de particuliers, traitées en entreprises quant à leurs dépenses de capital et leurs activités d'intermédiation.

Secteur des entreprises individuelles. Tous les agents du secteur des entreprises qui ne sont pas légalement constitués en sociétés. Englobe les propriétaires d'entreprises indépendants, les fermiers, pêcheurs et professionnels à leur propre compte et les propriétaires de logements non constitués en sociétés (y compris propriétaires-occupants).

Secteur des non-résidents. Tous les agents qui n'ont pas de centre d'intérêt économique (logement ou place d'affaire)

dans le territoire économique du Canada. Par définition, les non-résidents font seulement de l'investissement financier. Tout agent faisant un investissement non financier est considéré comme résident.

Secteur des particuliers. Tous les particuliers, ménages et associations de particuliers au service des ménages.

Secteur des particuliers et entreprises individuelles. Agents du secteur des particuliers, plus ceux du secteur des entreprises individuelles. Dans le compte du capital et financier, les transactions de ces deux secteurs sont consolidées. En outre, dans ce compte, bien que les caisses d'épargne et de crédit, les sociétés d'assurance-vie et les régimes de pensions en fiducie figurent comme soussecteurs de celui des sociétés et entreprises publiques, leurs transactions en actifs financiers sont équilibrées par des créances à leur tour inscrites à l'actif du secteur des particuliers et entreprises individuelles.

Secteur des sociétés et des entreprises publiques. Tous les agents du secteur des entreprises légalement constitués en sociétés, plus les entreprises publiques. Ce secteur est divisé en entreprises non financières et financières, lesquelles sont subdivisées en plusieurs sous-secteurs (Banque du Canada, banques à charte, caisses d'épargne, sociétés d'assurance-vie, régimes de pensions en fiducie, fonds mutuels, etc.). Les activités d'intermédiation des caisses d'épargne et de crédit, sociétés d'assurance-vie et régimes de pensions en fiducie figurant à l'actif de ces sous-secteurs sont équilibrées par des créances à leur passif, inscrites à leur tour à l'actif du secteur des particuliers et entreprises individuelles.

Services de consommation. Services consommés par les ménages, tels loyer (y compris le loyer imputé aux propriétaires-occupants), transports, éducation, soins médicaux, garde des enfants, hébergement et restauration ainsi que dépenses de voyage des Canadiens à l'étranger, moins dépenses de voyage des étrangers au Canada. Englobe aussi les dépenses de fonctionnement des associations de particuliers.

Solde et indemnités militaires. Partie de la rémunération des salariés qui consiste en paiements aux membres des Forces armées en service au Canada et à l'étranger. Englobe la solde, les indemnités militaires et les cotisations sociales de l'employeur. Exclut les allocations aux anciens combattants, traitées en paiements de transfert.

Stocks agricoles. Production agricole détenue sur les fermes; englobe céréales, tabac, pommes de terre et bétail.

Stocks non agricoles. Stocks de matières premières, de produits en cours et de produits finis.

Subventions. Transferts des administrations au secteur des entreprises, visant les coûts de production courants. Ces

transferts viennent s'ajouter au revenu des producteurs au titre de la production courante.

Successions et capitaux des migrants. Capitaux apportés au Canada par les immigrants à l'arrivée ou transférés hors du pays par les émigrants lors du départ, ou sommes censées être transférées à une date ultérieure, plus héritages versés à des résidents canadiens par des non-résidents ou vice versa.

Territoire économique. Le territoire économique d'un pays englobe le territoire géographique, plus l'espace aérien, les eaux territoriales et le plateau continental, ainsi que les enclaves territoriales de ce pays à l'étranger (ambassades, consulats, bases militaires...).

Transferts. Argent, bien, service ou actif autre que de l'argent transféré d'un agent à un autre sans contrepartie, c'est-à-dire sans que le donateur reçoive quelque chose en retour. Voir transferts courants et transferts de capitaux.

Transferts courants. Transferts provenant du revenu du donateur, diminuant son épargne et accroissant celle du bénéficiaire.

Transferts courants des administrations aux entreprises. Subventions au secteur des entreprises.

Transferts courants des administrations aux nonrésidents. Pensions versées aux non-résidents et contributions officielles (aide alimentaire ainsi qu'assistance économique et technique fournies aux pays en voie de développement par l'Agence canadienne de développement international, les autres agences gouvernementales et les organisations non gouvernementales).

Transferts courants des administrations aux particuliers. Paiements tels prestations fiscales et crédits d'impôt pour enfants, prestations d'assurance-emploi, pensions de vieillesse, prestations de bien-être social, bourses et subventions de recherche, prestations d'indemnisation des accidents de travail, subventions aux autochtones et à leurs organisations, pensions de la fonction publique et pensions versées en vertu du Régime de pensions du Canada et du Régime de rentes du Québec.

Transferts courants des non-résidents aux administrations. Retenues fiscales versées au gouvernement du Canada par les non-résidents.

Transferts courants des non-résidents aux particuliers. Pensions payées par des gouvernements étrangers à des résidents canadiens plus versements par des non-résidents à des résidents canadiens.

Transferts courants des particuliers aux non-résidents. Versements par des résidents canadiens (notamment par des organisations religieuses ou charitables) à des nonrésidents et retenues fiscales versées à l'étranger.

Transferts courants des particuliers aux sociétés. La partie "transfert" des intérêts sur la dette de consommation.

Transferts courants des particuliers et entreprises individuelles aux administrations. Impôts sur le revenu, cotisations aux régimes d'assurance sociale et autres transferts courants.

Transferts courants des sociétés aux particuliers. Dons de charité et autres contributions.

Transferts de capitaux. Transferts en argent ou en nature, provenant de la richesse du donateur (successions et capitaux des migrants, transfert de la propriété d'un actif ou annulation d'une dette) ou transferts que le bénéficiaire est censé utiliser pour acquérir un actif. Les transferts de capitaux sont sans effet sur l'épargne du donateur ou du bénéficiaire.

Transferts nets de capitaux. Transferts de capitaux provenant d'autres secteurs moins transferts de capitaux aux autres secteurs.

Valeur nette des successions et des capitaux des migrants. Fonds apportés au Canada par les immigrants, moins ceux transférés hors du pays par les émigrants.

Ventes de biens et services par les administrations. Revenus tirés de la vente de biens et services, tels frais d'aqueduc, droits d'atterrissage et frais exigés pour les documents gouvernementaux.

Whether you're looking for information about the census, health data or recent economic news, Statistics Canada's Online Catalogue of Products and Services has the answer to your questions!

Access a variety of data through an efficient and up-to-date search tool, for work, analyses or personal use.

A NO NONSENSE SEARCH

Search the Catalogue through keywords, expressions, titles, subjects and more!

A thesaurus is available to make your search easier and save you time.

Que vous soyez à la recherche d'information sur le recensement, de données sur la santé ou encore de nouvelles économiques récentes, le Catalogue en ligne des produits et services de Statistique Canada a la réponse à vos questions!

Cet outil de recherche efficace et à jour vous permettra d'accéder à une variété de données pour vos travaux, vos analyses ou tout simplement pour votre information personnelle.

CHERCHEZ SANS VOUS CASSER LA TÊTE

Le Catalogue vous permet d'effectuer une recherche par mots-clés, expressions, titres, sujets et bien plus encore!

Un thésaurus est mis à votre disposition pour faciliter votre recherche et économiser du temps.

RESULTS THAT MEET YOUR EXPECTATIONS!

Access a wide variety of products and services in hard copy or electronic format:

- articles
- **publications**
- m research documents
- and more!

The information summary of your search results will guide you towards the product or service you require. All the information you need at your fingertips!

Click your way to an extensive source of information and see for yourself what this online catalogue has to offer!

- surveys
- CD-ROM
- customized aggregated data

DES RÉSULTATS À LA HAUTEUR DE VOS ATTENTES!

Accédez à une gamme de produits et services en version papier ou électronique :

- articles
- m enquêtes
- documents de recherche
- publications
- CD-ROM
- données agrégées personnalisées
- et plus encore!

La liste des résultats vous présente un résumé de l'information pertinente à votre recherche, ainsi que la façon dont vous pouvez vous procurer le produit ou service désiré. Bref, tous les renseignements dont vous avez besoin à portée de la main!

D'un seul clic de souris, accédez dès maintenant à cette vaste source d'information et voyez vousmême ce que ce catalogue en ligne peut vous offrir!

Note of Appreciation

Canada owes the success of its statistical system to a long-standing partnership between Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.

Note de reconnaissance

Le succès du système statistique du Canada repose sur un partenariat bien établi entre Statistique Canada et la population, les entreprises, les administrations canadiennes et les autres organismes. Sans cette collaboration et cette bonne volonté, il serait impossible de produire des statistiques précises et actuelles.

Symbols

The following standard symbols are used in Statistics Canada publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- -- amount too small to be expressed.
- p preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

This publication was prepared by the following staff from the Income and Expenditure Accounts Division: Karen Ashman, Marcel Beaudry, Eric Belzile, Catherine Bertrand, Anne-Marie Bridger, John Butterill, Michel Chevalier, Jacques Delisle, Mary Lou Dubé, Luc Dubois, Dan Finnerty, Katherine Fraser, Céline Guindon, Cynthia Haggar-Guénette, Jennifer Harding, Journana Harfouche, Irfan Hashmi, Greg Haymes, Louise Jones, Monique Joubert, Sophie Joyal, Karen King, Diane Lake, Denise Laronde-Jones, Ron Levesque, Anna MacDonald, Joana Malette, Emmanuel Manolikakis, Abdulelah Mohammed, Patrick O'Hagan, Nona Park, Michel Pascal, Alice Peters, André Picard, Robert Puchyr, Gohar Razi, Giovanni Salvatore, Christopher Sham, Jérôme Ste-Marie, Deidre Sunley, Jamie Temple, Debra Tompkins, Alain Tremblay, Lee Tue-Fee, Michel Vallières, Chris Van Milligen, Constance Wamala, Weimin Wang, Karen Wilson, Charles Wright, Andrew Yip, Wai-yong Yong, and Drew Zeller.

For more information about the National Income and Expenditure Accounts, telephone the Income and Expenditure Accounts Division at (613) 951-3640 and ask for the information officer.

The paper used in this publication meets the minimum requirements of American National Standard for Information Sciences - Permanence of Paper for Printed Library Materials, ANSI Z39.48 - 1984.

Signes conventionnels

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- -- nombres infimes.
- p nombres provisoires.
- r nombres rectifiés.
- x confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

Cette publication a été préparée par les employés suivants de la Division des comptes des revenus et dépenses: Karen Ashman, Marcel Beaudry, Eric Belzile, Catherine Bertrand, Anne-Marie Bridger, John Butterill, Michel Chevalier, Jacques Delisle, Mary Lou Dubé, Luc Dubois, Dan Finnerty, Katherine Fraser, Céline Guindon, Cynthia Haggar-Guénette, Jennifer Harding, Journana Harfouche, Irfan Hashmi, Greg Haymes, Louise Jones, Monique Joubert, Sophie Joyal, Karen King, Diane Lake, Denise Laronde-Jones, Ron Levesque, Anna MacDonald, Malette, Emmanuel Manolikakis, Abdulelah Mohammed, Patrick O'Hagan, Nona Park, Michel Pascal, Alice Peters, André Picard, Robert Puchyr, Gohar Razi, Giovanni Salvatore, Christopher Sham, Jérôme Ste-Marie, Deidre Sunley, Jamie Temple, Debra Tompkins, Alain Tremblay, Lee Tue-Fee, Michel Vallières, Chris Van Milligen, Constance Wamala, Weimin Wang, Karen Wilson, Charles Wright, Andrew Yip, Wai-yong Yong et Drew Zeller.

Pour plus de renseignements sur les Comptes nationaux des revenus et dépenses, communiquez avec la Division des comptes des revenus et dépenses au (613) 951-3640 et demandez l'agent d'information.

Le papier utilisé dans la présente publication répond aux exigences minimales de l'"American National Standard for Information Sciences" - "Permanence of Paper for Printed Library Materials", ANSI Z39.48 - 1984.

The System of National Accounts

In Canada, the National Accounts have been developed since the close of the Second World War in a series of publications relating to their constituent parts. These have now reached a stage of evolution where they can be termed a "System of National Accounts". For purposes of identification, all publications (containing tables of statistics, descriptions of conceptual frameworks and descriptions of sources and methods) which make up this System carry the term "System of National Accounts" as a general title.

The System of National Accounts in Canada consists of several parts. The annual and quarterly Income and Expenditure Accounts (included with Catalogue Nos. carrying the prefix 13) were, historically speaking, the first set of statistics to be referred to with the title "National Accounts" (National Accounts, Income and Expenditure). The Balance of International Payments data (Catalogue Nos. with prefix 67) are also part of the System of National Accounts and they, in fact, pre-date the Income and Expenditure Accounts.

Greatly expanded structural detail on industries and on goods and services is portrayed in the Input-Output Tables of the System (Catalogue Nos. with prefix 15). The Catalogue Nos. carrying the prefix 15 also provide measures of the contribution of each industry to total Gross Domestic Product at factor cost as well as Productivity Measures.

Both the Input-Output tables and the estimates of Gross Domestic Product by Industry use the establishment as the primary unit of industrial production. Measures of financial transactions are provided by the Financial Flow Accounts (Catalogue Nos. with prefix 13). Types of lenders and financial instruments are the primary detail in these statistics and the legal entity is the main unit of classification of transactors. Balance sheets of outstanding assets and liabilities are published annually.

The System of National Accounts provides an overall conceptually integrated framework in which the various parts can be considered as interrelated sub-systems. At present, direct comparisons amongst those parts which use the establishment as the basic unit and those which use the legal entity can be carried out only at highly aggregated levels of data. However, Statistics Canada is continuing research on enterprise company establishment relationships; it may eventually be feasible to reclassify the data which are on one basis (say the establishment basis) to correspond to the units employed on another (the company or the enterprise basis).

In its broad outline, the Canadian System of National Accounts bears a close relationship to the international standard as described in *System of National Accounts, 1993*, a joint publication of the Commission of the European Communities, International Monetary Fund, Organization for Economic Cooperation and Development, United Nations and World Bank.

Le système de comptabilité nationale

Au Canada, les comptes nationaux ont fait l'objet depuis la fin de la Seconde Guerre mondiale de toute une série de publications portant sur leurs éléments constitutifs propres. Ils ont connu une telle évolution qu'on peut maintenant les qualifier de "Système de comptabilité nationale". Aux fins d'identification, toutes les publications qui font partie du système (elles contiennent des tableaux statistiques, la description du cadre théorique et l'explication des sources et des méthodes) portent le titre général de "Système de comptabilité nationale".

Le système de comptabilité nationale du Canada se divise en plusieurs catégories de comptes. Les comptes annuels et trimestriels des revenus et des dépenses (paraissant dans les publications dont le numéro de catalogue commence par 13) ont constitué le premier ensemble de statistiques à être connu sous le titre de "Comptes nationaux" (Comptes nationaux, revenus et dépenses). Les données sur la balance canadienne des paiements internationaux (numéro de catalogue commençant par 67) font également partie du système de comptabilité nationale; elles ont même existé avant les comptes des revenus et dépenses.

Une nomenclature beaucoup plus détaillée d'industries et de biens et services figure dans les tableaux d'entrées-sorties du système (numéro de catalogue commençant par 15). Les publications dont le numéro de catalogue commence par 15 comprennent aussi les mesures de l'apport de chaque branche d'activité au total du produit intérieur brut au coût des facteurs ainsi que les mesures de productivité.

L'établissement est l'unité primaire de production industrielle tant dans les tableaux d'entrées-sorties que dans les estimations du produit intérieur brut par activité économique. Les comptes de flux financiers (publications dont le numéro de catalogue commence par 13) mesurent les opérations financières. Les catégories de prêteurs et d'instruments financiers forment les éléments de base de ces statistiques et l'entité juridique est le point de départ du classement des agents économiques. Les comptes du bilan des actifs et passifs en cours sont disponibles annuellement.

Le système de comptabilité nationale constitue un ensemble conceptuellement intégré dans lequel les diverses catégories de comptes peuvent être considérées comme des sous-systèmes étroitement liés entre eux. Au stade actuel de développement, on ne peut faire de comparaison directe entre les éléments basés sur l'établissement et ceux qui sont basés sur l'entité juridique que lorsque les données sont groupées dans des catégories très générales. Toutefois, Statistique Canada poursuit ses recherches sur les relations entre l'entreprise, la société et l'établissement. Il sera peut-être possible un jour de reclasser les données établies sur une certaine base (l'établissement par exemple) de manière à les faire correspondre aux données établies sur une autre base (société ou entreprise).

Dans ses grandes lignes, le système de comptabilité nationale du Canada suit de très près la norme internationale exposée dans la publication *System of National Accounts, 1993* produite conjointement par la Commission des Communautés Européennes, le Fonds Monétaire International, l'Organisation pour la Coopération et le Développement, les Nations-Unies et la Banque Mondiale.

For more information

The 56 National Income and Expenditure Accounts (NIEA) tables are available on day of release in a variety of formats, including CANSIM (Statistics Canada's machine-readable database and retrieval system), diskettes (Catalogue no. 13-001-XDB) and the detailed Tables and Analytical Document (Catalogue no. 13-001-PPB). The latter two can be obtained by contacting the Income and Expenditure Accounts Division's client services officer by phone (613-951-3810), fax (613-951-3618) or Internet: iead-info-dcrd@statcan.ca. In addition, information officers (613-951-3640) answer questions about the NIEA orally, by mail or by fax. There is a minimum charge of \$40 (plus \$0.50 per page) for information sent by mail and of \$40 (plus \$1.50 per page) for information sent by fax. Higher charges apply when the information requested is not part of the official NIEA tables. Payment is due in advance, normally by Visa, MasterCard or American Express. Statistics Canada catalogued publications can be ordered using the tollfree telephone number on the inside cover.

Pour plus de renseignements

Les 56 tableaux des Comptes nationaux des revenus et dépenses (CNRD) sont disponibles le jour de la parution sous diverses formes: CANSIM (base de données ordinolinque et le système d'extraction de Statistique Canada), disquettes (Nº 13-001-XDB au catalogue) et Tableaux et document analytique (Nº 13-001-PPB au catalogue). Ceux-ci peuvent être obtenus en communiquant avec l'agent des Services à la clientèle au (613) 951-3810, Division des comptes des revenus et dépenses, par télécopieur, au (613) 951-3618 ou via l'Internet: iead-info-dcrd@statcan.ca. En outre, les agents d'information au (613) 951-3640 peuvent répondre aux questions sur les CNRD verbalement, par la poste ou par télécopieur. Il y a un coût minimum de 40 \$ (plus 0,50 \$ par page) pour l'information envoyée par la poste et de 40 \$ (plus 1,50 \$ par page) pour celle envoyée par télécopieur. Des frais plus élevés sont exigés quand l'information demandée ne fait pas partie des tableaux publiés des CNRD. Le paiement doit être versé à l'avance, par Visa, MasterCard ou American Express. Les publications figurant au catalogue de Statistique Canada peuvent être commandées par téléphone, en utilisant le numéro sans frais, qui figure à l'intérieur de la page couverture.

Highlights

Third quarter 2000

Real gross domestic product (GDP) increased 1.2% in the third quarter, maintaining the pace seen over the previous six quarters. Growth originated from domestic demand, while exports stalled, edging down after more than three years of sustained growth.

Growth in consumer spending gained momentum, rising 1.3%, as purchases of motor vehicles climbed 5.1%, in large part because of dealer incentives. Outlays for recreational equipment also grew strongly, as consumers may have delayed purchases owing to poor weather conditions in the spring and early summer. Housing investment resumed growth after a decline in the second quarter.

Table 1. Real GDP growth*

Faits saillants

Troisième trimestre 2000

Le produit intérieur brut réel (PIB) a augmenté de 1,2 % au troisième trimestre, un taux équivalent à ceux observés au cours des six trimestres précédents. La croissance est attribuable à la demande intérieure. Les exportations, quant à elles, ont marqué une pause et ont fléchi après plus de trois ans de croissance soutenue.

La croissance des dépenses de consommation a gagné du terrain (+1,3 %), grâce à la hausse de 5,1 % des achats de véhicules automobiles en partie stimulés par les mesures incitatives des concessionnaires. Les dépenses en matériel récréatif ont aussi enregistré une forte hausse, les consommateurs ayant peut-être retardé leurs achats en raison du mauvais temps au printemps et au début de l'été. L'investissement dans le secteur de l'habitation a repris après un recul au deuxième trimestre.

Tableau 1. Croissance du PIB réel*

			1999			2000	,	
	First quarter	Second quarter	Third quarter	Fourth quarter	First quarter	Second quarter	Third quarter	
	Premier trimestre	Deuxième trimestre	Troisième trimestre	Quatrième trimestre	Premier trimestre	Deuxième trimestre	Troisième trimestre	
% change	1.2	0.8	1.6	1.2	1.3	1.1	1.2	Variation en %
Annualized % change	4.8	3.3	6.5	5.1	5.5	4.6	4.8	Variation annualisée en %
Year-over-year % change	3.7	4.3	5.2	4.9	5.1	5.4	5.0	Variation d'une année à l'autre en %

^{*} The change is the growth rate from one period to the next. The annualized change is the quarterly growth rate compounded to an annual rate.

The year-over-year change is the growth rate of a given quarter compared with the same quarter in the previous year.

Business investment in plant and equipment remained strong; machinery and equipment purchases grew a healthy 3.8%. Soaring spending on telecommunications equipment was an important contributor to the increase, and solid advances also occurred in autos, furniture and computers and other office equipment. Non-residential construction investment was virtually unchanged from the second quarter.

Manufacturers piled up inventories in the quarter, particularly of durable goods. The buildup occurred at all stages of production. Retailers and wholesalers also accumulated stocks, in tandem with rising sales.

L'investissement des entreprises en usines et matériel est demeuré solide, les achats de machines et matériel s'étant accru vigoureusement de 3,8 %. La montée en flèche des dépenses en matériel de télécommunications a grandement contribué à cette progression. On a observé également une forte augmentation des dépenses en automobiles, en meubles, en ordinateurs et autre matériel de bureau. L'investissement dans la construction non résidentielle n'a pratiquement pas changé par rapport au trimestre précédent.

Les fabricants ont accru leurs stocks durant le trimestre, en particulier ceux de biens durables. Cette accumulation a visé tous les stades de la production. Les détaillants et les grossistes ont aussi accumulé des stocks, parallèlement aux ventes à la hausse.

^{*} La variation est le taux de croissance d'une période à l'autre. La variation annualisée est le taux de croissance trimestriel composé au taux annuel. La variation d'une année à l'autre est le taux de croissance d'un trimestre donné par rapport au même trimestre de l'année précédente.

Exports of goods and services edged down 0.1% as automotive exports decreased. Exports of energy products, measured by volume, declined for a second consecutive quarter.

Growth in corporation profits softened to 1.0%, continuing the deceleration seen in the second quarter. Significant gains in oil and gas, electrical and electronics, and deposit-taking financial institutions were offset by declines in wood and paper, mining and other financial industries.

Consumer demand picked up

Personal expenditure on consumer goods and services grew 1.3%, the strongest quarterly increase since the second quarter of 1998. Purchases of durable goods led the growth, in particular spending on motor vehicles, which jumped 5.1%. Manufacturers offered incentives to stimulate sales and clear out model year 2000 inventories. Unit sales of new passenger cars posted strong growth, with overseas-built cars showing particular strength. Expenditures on motor vehicle repairs and parts also posted a solid increase.

Consumer spending on recreational, sporting and camping equipment advanced 3.8%. Poor weather conditions in the spring and early summer may have led consumers to delay purchases until later in the year.

Housing investment resumed growth

Residential investment grew 1.5%, following a 2.4% decline in the second quarter. New construction, renovations and transfer costs all advanced at about the same rate. Urban housing starts increased sharply in Quebec and the Atlantic region, with gains concentrated in starts of multiple dwellings.

Continued strength in business plant and equipment investment

Business investment in machinery and equipment remained strong, growing a healthy 3.8% after a 7.6% increase in the second quarter. Investment in

Les exportations de biens et de services ont fléchi de 0,1 %, les produits automobiles ayant enregistré une baisse. Les exportations de produits énergétiques, mesurées en volume, ont diminué pour un deuxième trimestre consécutif.

La croissance des bénéfices des sociétés s'est atténuée (+1,0 %), ce qui marque la poursuite de la décélération observée au deuxième trimestre. Les fortes augmentations dans les secteurs de l'extraction pétrolière et gazière, de l'électricité et de l'électronique ainsi que dans les institutions financières de dépôts ont été neutralisées par les diminutions enregistrées dans les secteurs du bois et du papier, des mines et dans d'autres secteurs financiers.

La demande des consommateurs a repris de la vigueur

Les dépenses personnelles en biens et services de consommation ont augmenté de 1,3 %. Il s'agit de la plus forte augmentation trimestrielle depuis le deuxième trimestre de 1998. Les achats de biens durables étaient en tête, en particulier les dépenses en véhicules automobiles, qui ont bondi de 5,1 %. Les fabricants ont offert des mesures incitatives pour stimuler les ventes et liquider leurs stocks de modèles de l'an 2000. Le nombre de voitures neuves vendues a connu une forte hausse, en particulier celles construites à l'étranger. Les dépenses en réparations et pièces de véhicules motorisés se sont elles aussi fortement accrues.

Les dépenses de consommation en matériel récréatif et sportif et en matériel de camping ont progressé de 3,8 %. Le mauvais temps au printemps et au début de l'été a pu inciter les consommateurs à retarder leurs achats à plus tard dans l'année.

Reprise de la croissance des investissements dans le secteur de l'habitation

L'investissement dans le secteur résidentiel a augmenté de 1,5 %, après une diminution de 2,4 % observée au deuxième trimestre. La construction résidentielle neuve, les rénovations et les coûts de transferts se sont tous accrus à peu près au même taux. Les mises en chantier de logements urbains ont crû fortement au Québec et dans la région de l'Atlantique, les hausses s'étant concentrées dans les logements multiples.

L'investissement des entreprises en usines et matériel est toujours élevé

L'investissement des entreprises en machines et matériel est demeuré fort, ayant enregistré une croissance vigoureuse de 3,8 %, suivant une augmentation de 7,6 %

telecommunications equipment surged 30.9%, and solid gains also occurred in automobiles, furniture and computers and other office equipment. These advances more than offset a drop in investment in industrial machinery, which fell 10.6% after sustained growth throughout 1999. The level of non-residential construction activity was virtually unchanged (-0.1%), after a deceleration in the second quarter. This was the case for both building and engineering construction.

Manufacturers built up stocks

Manufacturing inventories piled up in the third quarter; the accumulation occurred at all stages of production. Electrical products were an important contributor to the buildup, as increasing stocks coincided with softening export growth. Significant accumulation also occurred in transportation equipment other than motor vehicles. Manufacturers of non-durable goods also built up stocks.

Retailers and wholesalers continued to invest in stocks, in tandem with rising sales.

Export growth stalled

Exports of goods and services edged down, marking the end of a string of 14 quarters of uninterrupted growth. Automotive exports declined for a second consecutive quarter, as the motor vehicle industry was affected by a number of factors, such as a model changeover and an extended plant shutdown because of a fire.

Exports of energy products declined in volume terms but rose in value terms, as prices continued to increase. With prices at high levels, crude petroleum exploration was constrained by equipment and personnel shortages as well as poor weather. Exports were also curbed by a shutdown for scheduled platform maintenance in Eastern Canada.

Growth in exports of machinery and equipment cooled to a moderate 0.7%, after a double-digit gain in the second quarter.

enregistrée au deuxième trimestre. L'investissement en matériel de télécommunications a bondi de 30,9 %, et de fortes progressions ont été enregistrées dans les secteurs de l'automobile, des meubles, des ordinateurs et autre matériel de bureau. Ces augmentations ont plus que compensé une baisse de l'investissement en machines industrielles, qui a chuté de 10,6 % après une croissance soutenue tout au long de l'année précédente. Le niveau d'activité dans le secteur de la construction non résidentielle est demeuré pratiquement le même (-0,1 %), après un ralentissement au trimestre précédent. Il en a été de même tant pour la construction d'immeubles que pour les travaux de génie.

Accumulation des stocks par les fabricants

Les fabricants ont augmenté leurs stocks au troisième trimestre, cette accumulation se produisant à tous les stades de production. Les stocks en produits électriques ont grandement contribué à cette accumulation, coïncidant avec une croissance plus faible des exportations. Une accumulation importante a aussi été observée pour le matériel de transport autre que les véhicules automobiles. Les fabricants de biens non durables ont aussi accru leurs stocks.

Les détaillants et les grossistes ont continué d'augmenter leurs stocks, parallèlement à la hausse des ventes.

Pause de la croissance des exportations

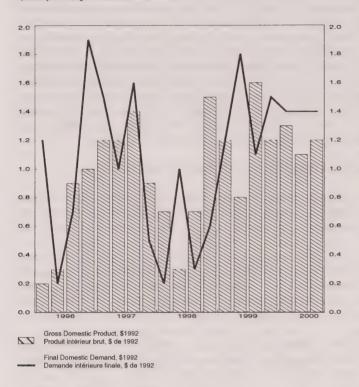

Les exportations de biens et services ont fléchi, ce qui a mis un terme à une suite de 14 trimestres de croissance ininterrompue. Les exportations de produits automobiles ont accusé une baisse pour un deuxième trimestre consécutif, l'industrie des véhicules automobiles ayant été touchée par un certain nombre de facteurs, tels que l'adoption d'un nouveau modèle et la fermeture prolongée d'une usine à cause d'un incendie.

Les exportations de produits énergétiques ont diminué en volume, mais ont augmenté en valeur dans la foulée de l'augmentation des prix. Compte tenu des prix élevés du pétrole, les activités d'exploration de pétrole brut ont été limitées par des pénuries de matériel et de personnel, ainsi que par le mauvais temps. Les exportations ont aussi baissé à cause d'un arrêt prévu pour l'entretien des plates-formes dans l'est du Canada.

La croissance des exportations de machines et matériel a ralenti quelque peu (+0,7 %) après une croissance à deux chiffres au deuxième trimestre.

Footnotes

Table 5

- [1] Sum of accrued net income of farm operators from farm production and net income of non-farm unincorporated business, including rent.
- [2] Total income minus current transfers to government.

Table 6

- Includes interest and dividends received from nonresidents.
- [2] Interest on the public debt is routed to other sectors of the economy through the corporate sector due to incomplete information on the transactions of government debt instruments.

Table 9, 10, 11, 12 and 13

[1] [2] In GDP, government current expenditure is recorded on a net basis, that is, after deduction of sales of goods and services. In the government sector accounts, sales of goods and services to other sectors are shown separately as part of revenue, and current expenditure is recorded on a gross basis, which leaves saving unchanged.

Table 14

[1] [2] [3] This account presents the saving as well as the net lending or borrowing position of non-residents with respect to their transactions with Canadian residents. The sign of these aggregates is, therefore, the reverse of what appears in the Canadian Balance of International Payments.

Table 15

[1] [2] [3] [4] By definition, the sum of this aggregate over all sectors is equal to zero.

Notes

Tableau 5

- [1] Somme du revenu comptable net des exploitants agricoles au titre de la production agricole et du revenu net des entreprises individuelles non agricoles, loyers compris.
- [2] Revenu total moins transferts courants aux administrations publiques.

Tableau 6

- Comprends les intérêts et les dividendes reçus des nonrésidents.
- [2] Les intérêts sur la dette publique sont affectés aux autres secteurs de l'économie par le biais du secteur des sociétés en raison d'un manque d'information sur les transactions de titres de dette des administrations.

Tableau 9, 10, 11, 12 et 13

[1] [2] Dans le PIB, les dépenses courantes des administrations sont enregistrées sur une base nette, c'est-à-dire après déduction des ventes de biens et services. Dans les comptes sectoriels des administrations, les ventes de biens et services aux autres secteurs sont montrées séparément sous les revenus et les dépenses courantes sont enregistrées sur une base brute, ce qui laisse l'épargne inchangée.

Tableau 14

[1] [2] [3] Ce compte présente la position des non-résidents en regard de leurs transactions avec les résidents canadiens, et ce pour l'épargne ainsi que, le prêt ou l'emprunt net. Conséquemment, le signe de ce agrégats est inversé par rapport à ce qui figure dans la balance des paiements internationaux du Canada.

Tableau 15

[1] [2] [3] [4] Par définition, la somme de cet agrégat pour tous les secteurs est égal à zéro.

Glossary

Accrued net income of farm operators from farm production. Net income received by farm operators from farm production plus the undistributed portion of earnings arising out of the operations of the Canadian Wheat Board and the adjustment made to shift agricultural subsidies from a cash to an accrual basis.

Association of individuals. Non-profit institutions serving households, such as churches, labour unions and charitable organizations, plus credit unions, trusteed pension plans, life insurance companies, fraternal societies and mutual non-life insurance companies. They are treated as businesses with respect to their capital outlays and their intermediation activities, but as persons with respect to their current expenses.

Bonds. Marketable and non-marketable securities issued in Canadian or foreign currency with an original term to maturity in excess of one year. Includes:

Canada bonds. Direct bonds of the federal government (of which, Canada Savings Bonds) and guaranteed federal enterprise bonds.

Provincial bonds. Direct bonds of provincial governments (of which, provincial savings bonds) and guaranteed provincial enterprise bonds.

Municipal bonds. Direct bonds of municipalities and guaranteed municipal enterprise bonds.

Other bonds. Bonds issued by Canadian corporations, hospitals and non-profit institutions, as well as non-guaranteed bonds of government business enterprises. Also included are asset-backed securities.

Business sector. All transactors producing goods and services for sale at a price intended to cover costs of production, namely corporations, government business enterprises, unincorporated businesses and independent professional practitioners. Also includes owners occupying their own dwelling, treated as businesses renting to themselves, and associations of individuals, treated as businesses with respect to their capital outlays and their intermediation activities.

Canada and Quebec Pension Plans. The part of the government sector which consists of the operations of the Canada and Quebec Pension Plans, established in 1966.

Canadian residents. Institutional units, such as persons, corporations and non-profit institutions, which have a centre of economic interest (a dwelling, a business location) in the economic territory of Canada.

Capital and financial account. This account shows, for each major sector, a) the saving and acquisition of non-financial capital and the difference between them, called net lending; and b) transactions in financial assets, transactions in liabilities and the difference between them, called net financial investment. In theory, the two balancing items, net lending and net financial investment, are equal; in practice, imperfections in the statistics lead to a difference between the two, shown as a statistical discrepancy.

Capital consumption allowances. Allowances for the using up of capital in the productive process. They are calculated for business and government fixed assets as well as housing. They also include miscellaneous valuation adjustments bringing business accounting records into conformity with national accounts definitions, such as the addition of claims paid by insurance companies to compensate for fire and other losses.

Capital transfers. Transfers in cash or in kind, out of the wealth of the donor (inheritances and migrants' funds, transfer of ownership of an asset or cancellation of a liability), or transfers which the recipient is expected to use towards the acquisition of an asset. Capital transfers have no effect on the saving of the donor or recipient.

Chain price indexes. Price indexes where the values of the aggregate index for two adjacent periods, calculated from the detailed price indexes, are based on the expenditure pattern from the first of the two periods, and where these index values are linked together in a chain to form the index.

Chain Fisher volume index. A measure of change in volume from period to period. It is calculated as the geometric mean of a chain Paasche volume index and a chain Laspeyres volume index. In other words, it is an average of two distinct measures of change in volume: one calculated as if prices were constant in the first of two adjacent periods (Laspeyres volume) and the other calculated as if prices were constant in the second of the two adjacent periods (Paasche volume).

Claims. Financial instrument comprising:

Corporate claims. Loans, advances and issues of debt between associated corporations; on the asset side, also includes investment in shares between associated corporations.

Government claims. Claims between governments, between related government business enterprises or between a parent government and its enterprises, in the form of shares, debt securities, loans and advances.

Constant prices. A valuation expressed at the prices prevailing during a fixed reference or base period. At present, the base period for national accounts estimates in constant prices is 1992, which means that they have been restated in 1992 prices. See current prices.

Consumer credit. Credit extended to persons for purchasing consumer goods and services.

Consumer goods. New goods acquired by households for their own consumption. Comprise three categories: a) Durable goods, which can be used repeatedly or continuously for more than one year, such as motor vehicles and major appliances; b) Semi-durable goods, which can be used on multiple occasions and have an expected lifetime of one year or somewhat more, such as clothing, footwear and linens; c) Non-durable goods, which can be used only once, such as food, gasoline, alcoholic beverages and tobacco; in practice, the latter also include a few goods of little value used more than once, such as household supplies.

Consumer services. Services consumed by households, such as rent (including the rent imputed on owner-occupied housing), transportation, education, medical care, child care, food and accommodation services as well as travel expenditures of Canadians abroad, less travel expenditures of foreigners in Canada. Also includes the current (operating) expenses of associations of individuals.

Contributions to social insurance plans. Employer and employee contributions to employment insurance, government pension funds, the Canada and Quebec Pension Plans and workers' compensation.

Corporate and government business enterprise sector. All business transactors whose legal form of organization is the corporation, plus government business enterprises. This sector is divided into non-financial and financial enterprises. The latter are comprised of several sub-sectors (Bank of Canada, chartered banks, credit unions, life insurance companies, trusteed pension funds, mutual funds, etc.). The intermediation activities of credit unions, life insurance companies and trusteed pension funds shown as assets of these sub-sectors are balanced by claim liabilities which, in turn, are assets of the persons and unincorporated business sector.

Corporation profits before taxes. The net earnings from economic activity of privately-held corporations, measured after deduction of capital consumption allowances.

Currency and deposits. Financial instruments comprising:

Currency and bank deposits. Deposits denominated in Canadian dollars at chartered banks in Canada and at the Bank of Canada, plus Canadian currency and coin in circulation.

Other deposits. All deposits at other Canadian deposit-taking institutions, including shares in credit unions.

Foreign currency and deposits. Holdings of foreign currency and foreign currency denominated deposits at chartered banks in Canada, foreign branches and subsidiaries of Canadian chartered banks, foreign banks and other foreign deposit-taking institutions.

Current prices. A valuation at current prices is expressed at the prices prevailing during the period being referred to. See constant prices.

Current transfers. Transfers out of the income of the donor, reducing his saving and adding to that of the recipient.

Current transfers from corporations to persons.Charitable donations and other contributions.

Current transfers from government to business. Subsidies to the business sector.

Current transfers from government to non-residents. Pensions paid to non-residents, contributions to international organizations and economic and technical assistance as well as food aid provided by the Canadian International Development Assistance Agency and other governmental agencies.

Current transfers from government to persons. Payments such as the Child Tax Benefit/Credit, Employment Insurance benefits, old age security benefits, welfare payments, scholarships and research grants, workers' compensation benefits, grants to aboriginal peoples and their organizations, public service pensions and pensions paid under the Canada and Quebec Pension Plans.

Current transfers from non-residents to government. Withholding taxes paid by non-residents to the Government of Canada.

Current transfers from non-residents to persons. Pensions paid by foreign governments to Canadian residents plus remittances by non-residents to Canadian residents.

Current transfers from persons and unincorporated businesses to government. Income taxes, contributions to social insurance plans and other current transfers.

Current transfers from persons to corporations. The transfer portion of interest on the consumer debt.

Current transfers from persons to non-residents. Remittances by Canadian residents (particularly religious and charitable organizations) to non-residents and withholding taxes paid abroad.

Direct taxes. Current transfers to government from persons, unincorporated businesses, corporations and government business enterprises in the form of taxes on income from employment, property, holding gains or any other source. Direct taxes from persons are recorded on a cash basis, and those from corporations and government business enterprises, on an accrual basis.

Direct taxes from persons. Income taxes, succession duties and estate taxes paid by persons and unincorporated businesses.

Dividends. Income payable and receivable in respect of corporate equities (cash dividends) and further equity participation in corporate enterprises (stock dividends).

Economic territory. The economic territory of a country encompasses the geographic territory, plus the air space, territorial waters and continental shelf, as well as its territorial enclaves abroad (embassies, consulates, military bases...).

Exports and imports of goods and services. Current receipts and payments arising out of transactions in moveable goods and services between residents and non-residents. Services include travel, freight and shipping, business services, government transactions, financial intermediation and other services.

Factor cost. A valuation reflecting the cost of the factors of production (labour and capital). It corresponds to the value remaining after the deduction from market prices of all applicable taxes and subsidies. See **market prices**.

Farm inventories. Farm output stored on farms; includes grains, tobacco, potatoes and livestock.

Final domestic demand. The sum of personal expenditure on consumer goods and services, net government current expenditure on goods and services, government gross fixed capital formation and business gross fixed capital formation.

Fixed-weighted price indexes. Also known as "Laspeyres" indexes, these are price indexes where a fixed pattern of expenditure from some base period is used to aggregate the detailed price indexes in each period.

Foreign investments. All marketable financial instruments (bonds, short-term paper and shares) which are liabilities of the non-resident sector (foreign governments and corporations) and assets of domestic sectors.

Government business enterprises. Government enterprises and agencies which operate on a profit or cost recovery basis and whose motivation is similar to that of private enterprises. Their total profits (net of losses) are recorded in GDP, while only the profits remitted to government are recorded in the government income and

outlay account, under government investment income. The difference between these two measures, retained earnings, forms part of business sector saving.

Government current expenditure on goods and services. All current outlays for goods and services by the government sector, including wages and salaries of government employees. It also includes expenditure on weapons for defence and an imputation for the depreciation of government fixed assets. It is recorded before deduction of revenues from sales of goods and services in the government income and outlay account, and after deduction of these revenues in GDP (net government current expenditure on goods and services).

Government investment income. In GDP, includes interest income of public service pension plans, other interest and dividend income of governments and royalties. In the government income and outlay account, it also includes the profits of government business enterprises remitted to government. See government business enterprises.

Government sales of goods and services. Revenues from the sale of goods and services, such as water charges, landing fees and charges for government documents.

Government sector. All departments, agencies, and funds (budgetary and non-budgetary) of the federal, provincial and local levels of government, as well as crown corporations which receive more than 50% of their revenues in grants from their parent governments. Also included are school boards, universities, non-profit colleges, hospitals, non-profit residential care facilities, as well as the Canada and Quebec Pension Plans.

Grain in commercial channels. Grain in the hands of the Canadian Wheat Board or private grain dealers.

Gross Domestic Product. The total unduplicated value of the goods and services produced in the economic territory of a country or region during a given period. GDP can be measured three ways: as total incomes earned in current production, as total final sales of current production, or as total net values added in current production. It can be valued either at factor cost or at market prices.

Gross Fixed Capital Formation. Expenditures by the government and business sectors on buildings, engineering construction and machinery and equipment. Includes imports of used machinery and equipment, which constitute additions to domestic capital stock, and transfer costs on the sale of existing fixed assets (i.e. real estate commissions). Comprises three broad categories: residential structures, non-residential structures and machinery and equipment. Government fixed capital formation includes spending on non-military defence buildings and equipment. Abbreviated as fixed capital in the capital and financial account. Synonym of investment in fixed capital.

Gross National Product. A measure of income equal to the Gross Domestic Product at market prices, plus investment income received from non-residents, less investment income paid to non-residents.

Holding gains and losses. Additions to or subtractions from income which result from selling an asset for more or less than its purchase price. As holding gains and losses are not related to current production, they are excluded from GDP through the inventory valuation adjustment.

Households. A group of persons who share the same living accommodation, pool some, or all of their income and wealth and consume certain goods and services collectively. They may engage in any other kind of economic activity.

Implicit price indexes. Also known as variable-weighted or "Paasche" indexes (although not strictly of the Paasche type), these price indexes are a by-product of the deflation procedure, obtained by dividing an expenditure series expressed at current prices by the corresponding series expressed at constant prices.

Imports of goods and services. See exports and imports of goods and services.

Income and outlay account. This account shows, for each major sector, all sources of current income (production, receipts of property income and other transfers) and all current outlays (expenditure on goods and services, payments of property income and other transfers), as well as saving, equal to a sector's income less its outlay.

Indirect taxes. Taxes which add to the cost of production and are likely to be reflected in market prices paid by the purchaser, such as sales and excise taxes, import duties and property taxes.

Inheritances and migrants' funds. Capital brought to Canada by immigrants at the time of arrival or transferred outside Canada by emigrants at time of departure, or intended to be transferred at a later date, plus bequests to Canadian residents from non-residents or vice-versa.

Interest and miscellaneous investment income. Investment income of persons, except dividends, plus government investment income, less net investment income of persons and governments from non-residents, less the transfer portion of interest on the consumer debt, less the interest on the public debt.

Interest on the consumer debt. Interest paid by persons on account of liabilities incurred to finance personal expenditure on consumer goods and services. Consists of two parts: the administrative expenses, representing the cost of rendering services to borrowers, and the remaining "transfer portion".

Interest on the public debt. Interest payments on liabilities of the government sector.

Inventory valuation adjustment. The difference between the change in inventory book values and the value of physical change in inventories, which is a measure of the net holding gain or loss realized by business as a result of price changes. Holding gains and losses on inventories are present in corporation profits and other income aggregates, and must be removed in order to measure the value of current production.

Investment in fixed capital. Synonym of gross fixed capital formation.

Investment in inventories. Change in the physical volume of business and government inventories, valued at the average market prices of the period. Business inventories consist of two categories: a) non-farm inventories and b) farm inventories and grain in commercial channels. Government inventories include only uranium stocks, up to 1981, and those held by federal government commodity agencies, such as the Canadian Dairy Commission. Abbreviated as inventories in the capital and financial account.

Investment income of persons. Interest on deposits, bonds, mortgages, etc. and royalties paid by corporations, governments and non-residents to persons, plus investment income accumulating on their behalf in trusteed pension plans and life insurance funds, or on behalf of other associations of individuals. Excludes dividends.

Investment income paid to non-residents. Investment income payments on Canadian liabilities to non-residents, inclusive of any applicable withholding taxes. Includes interest, dividends and other payments such as net expenses of Canadian banks from foreign currency transactions and net revenues of foreign insurance companies from insurance operations in Canada.

Investment income received from non-residents. Investment income earned by Canadian residents on their assets abroad, inclusive of any applicable withholding taxes. Includes interest, dividends and other receipts such as net earnings of Canadian banks from foreign currency transactions and net revenues of Canadian insurance companies from insurance operations abroad.

Labour income. The sum of wages and salaries plus supplementary labour income.

Life insurance and pensions. Liability of life insurance companies and trusteed pension plans to policyholders or beneficiaries and federal government liability with respect to annuities sold under the Government Annuities Act. Asset of policy holders or beneficiaries.

Loans. Financial instrument comprising **Bank loans** and **Other loans.** Negotiated loans made by chartered banks and other financial institutions.

Machinery and equipment. Capital expenditures on durable, tangible goods with an expected service life of one year or more, such as furniture, motor vehicles, office machines and equipment not permanently installed (permanently built-in equipment belongs to non-residential construction). Includes installation and delivery costs.

Market prices. A valuation expressed in terms of the prices actually paid by the purchaser, that is, after all applicable taxes and subsidies. See **factor cost**.

Military pay and allowances. The part of labour income consisting of payments to members of the Armed Forces serving in Canada or abroad. Includes military pay, allowances and the employer's social contributions. Excludes veterans' allowances, treated as transfer payments.

Mortgages. Negotiated loans and agreements of sale secured by real property, mostly residential buildings. Includes first, second and third mortgages. Mortgages are characterized by blended repayments, usually monthly, of principal and interest.

Net acquisition of existing assets. A sector's purchases less sales of used fixed assets and land. Business purchases less sales of natural resources, resource rights and intangible assets are also included. Abbreviated as existing assets.

Net capital transfers. Capital transfers from other sectors less capital transfers to other sectors.

Net domestic product at factor cost. The sum of all incomes arising from production, or ownership of assets used in production, within the economic territory of a country or region. Includes labour income, profits before taxes, interest and miscellaneous investment income, accrued net income of farm operators from farm production, net income of non-farm unincorporated business, including rent, and the inventory valuation adjustment. Differs from GDP at factor cost in that it excludes capital consumption allowances.

Net financial investment. The net lending (or borrowing) of a sector can be measured either through incomes and expenditures or through financial transactions. Under the financial transactions approach, net lending is called net financial investment. It is equal to a sector's transactions in financial assets less its transactions in liabilities. See net lending and capital and financial account.

Net income of non-farm unincorporated business, including rent. Earnings of unincorporated proprietors, except farm operators, from their own business. Includes the

net income of unincorporated businesses and self-employed individuals, as well as the net rental income of persons.

Net income received by farm operators from farm production. Gross proceeds from the sale of farm products, plus subsidies on a cash basis, plus the imputed value of farm output consumed by farming households, plus investmen in farm inventories, less farm operating expenses and depreciation on farm buildings and equipment. Excludes other types of income, such as net rent or interest receipts, and profits of incorporated farms. See accrued net income of farm operators from farm production.

Net inheritances and migrants' funds. Funds brought to Canada by immigrants, less funds transferred outside Canada by emigrants.

Net investment income from non-residents. Investment income received from, less investment income paid to, non-residents.

Net lending. The net lending (or borrowing) of a sector can be measured either through incomes and expenditures or through financial transactions. Under the income and expenditure approach, net lending is the difference between internally generated funds and outlays on non-financial capital. A sector's net lending equals its saving, plus its capital consumption allowances and net capital transfers from non-residents, less its investment in fixed capital and inventories. See net financial investment and capital and financial account.

Net national income at factor cost. Net domestic product at factor cost plus net investment income from non-residents.

Net rental income. Earnings of persons, after expenses, arising from the ownership of residential property, whether rented or owner-occupied, and from the rental of non-residential property.

Non-farm inventories. Inventories of raw materials, goods-in-process and finished products.

Non-financial capital acquisition. The gross fixed capital formation of a sector, plus its investment in inventories and its net acquisition of existing assets. Does not apply to the non-resident sector which, by definition, can only engage in financial investment.

Non-resident sector. All transactors who do not have a centre of economic interest (a dwelling, a business location) in the economic territory of Canada. By definition, non-residents can only engage in financial investment. Any transactor making non-financial investment is deemed to be a resident.

Non-residential structures. Construction of industrial, commercial and institutional buildings, such as plants, warehouses, shopping centres, office buildings, schools and hospitals, plus construction of highways, bridges, railway tracks, canals, waterworks, sewage systems, dams, hydro or thermal generating plants, telephone lines, oil and gas facilities, etc. Includes new construction, conversions resulting in a structural change, major renovations, permanently built-in equipment and site preparation.

Non-residential structures and equipment. The sum of business investment in non-residential structures and in machinery and equipment.

Official reserves. The sum of a) official holdings of gold and foreign exchange (U.S. dollars and deposits in other convertible currencies), b) loans to or from the International Monetary Fund on general account, and c) special drawing rights.

Other current transfers from persons to government. Transfers not classified as direct taxes. Includes hospital and medical care premiums, various licences and permits, fines and penalties, as well as donations to entities within the government sector.

Other financial assets / Other liabilities. Various items not included under other financial instruments, such as accrued interest, interest receivable or payable and prepaid expenses.

Outside Canada. Embassies and other Canadian government offices abroad which are part of the territory of Canada.

Personal disposable income. Personal income less current transfers to government.

Personal expenditure on consumer goods and services. Household spending on new consumer goods and on consumer services, plus any mark-up on used goods. Operating expenses of associations of individuals serving households are also included, under consumer services.

Personal income. The sum of all incomes received by persons residing in Canada, whether factor earnings from current production or current transfers from other sectors, plus the investment income that associations of individuals accumulate on their own behalf or on behalf of persons.

Personal saving. Personal disposable income less personal expenditure on consumer goods and services, less current transfers from persons to corporations and to non-residents.

Personal sector. All persons, households and associations of individuals serving households.

Persons and unincorporated business sector. Transactors of the personal sector plus those of the unincorporated business sector. In the capital and financial account, transactions of these two sectors are consolidated. In addition, in this account, although credit unions, life insurance companies and trusteed pension plans appear as sub-sectors of the corporate and government business enterprise sector, their transactions in financial assets are balanced by liabilities which, in turn, are recorded as assets of the persons and unincorporated business sector.

Reinvested earnings of direct investment enterprises. Profits earned on, less dividends received from, direct foreign investment. From 1961, equity income from direct foreign investment is recorded on an accrual rather than cash basis in the Balance of International Payments. This gives rise to an additional reconciliation item between the former and the National Economic and Financial Accounts, in which this change has not been incorporated.

Residential structures. Construction of dwellings (subdivided into single, semi-detached, row housing and apartments), garages, cottages and mobile homes. Includes new construction, conversions resulting in a structural change and major renovations (together referred to as "alterations and improvements"), permanently built-in equipment, site preparation and transfer costs such as real estate commissions.

Saving. The current income of a sector, less its current expenditure. Includes current transfers but excludes capital consumption allowances and capital transfers. Referred to as gross saving when it includes capital consumption allowances.

Sector accounts. The quarterly national accounts now include the full sector accounts, previously only released on an annual basis. These sector accounts record the income, outlay, saving, non-financial and financial investment, borrowing and net lending for the four main sectors: a) persons and unincorporated businesses; b) corporations and government business enterprises; c) government; and d) non-residents. See income and outlay account and capital and financial account.

Shares. Financial instrument consisting of common and preferred shares (including term preferred shares and mutual fund shares), plus contributed surplus. Stock issued by a government business enterprise to a parent government is classified to government claims.

Short-term paper. Marketable financial instrument comprising:

Government of Canada short-term paper. Treasury bills, which are notes of original term to maturity of less than one year, issued at a discount and sold at auction every week; also includes Canada bills issued in foreign currency.

Other short-term paper. Notes of original term to maturity of one year or less, issued at a discount by a variety of financial and non-financial institutions; includes provincial and municipal Treasury bills.

Statistical discrepancy. Double-entry bookkeeping is fundamental in national accounting and several aggregates, such as GDP and net lending, can be calculated in two or more ways. In principle, all the measures of an aggregate are equal. In practice, differences invariably arise between them due to imperfections in basic statistics and estimation techniques. This difference is called a statistical discrepancy and serves as the balancing item between two theoretically equal aggregates. It can be recorded as is, like the discrepancy between the two estimates of net lending or it can be divided in two, one half being subtracted from the higher estimate and the other, added to the lower one, like the discrepancy between income-based and expenditure-based GDP

Subsidies. Transfers from government to the business sector toward current costs of production. These transfers represent additions to the income of producers from current production.

Supplementary labour income. Employers' social contributions, either compulsory or voluntary. Includes retirement allowances and contributions to employment insurance, the Canada and Quebec Pension Plans, other pension plans, workers' compensation, medicare, dental plans, short- and long-term disability insurance, etc.

Surplus or deficit of Canada on current transactions with non-residents. Exports of goods and services less imports of goods and services, plus net investment income from non-residents and net current transfers from non-residents.

Surplus or deficit on current account in the "Canadian Balance of International Payments". The surplus or deficit of Canada on current transactions with non-residents plus net reinvested earnings on direct investment.

Trade accounts receivable/payable. Short-term credit advanced or received in the ordinary course of business by suppliers or buyers of business goods and services.

Transactors. Economic agents who engage in transactions involving the purchase and sale of goods and services and the payment and receipt of factor incomes and transfers.

Transfers. Cash, good, service, or asset other than cash transferred by one transactor to another without counterpart, that is, without the donor receiving anything in return. See **current transfers** and **capital transfers**.

Unincorporated business sector. All business transactors whose legal form of organization is not the corporation. Includes independent business operators, self-employed farmers, fishermen and professionals and unincorporated landlords (including those renting to themselves).

Wages and salaries. Total remuneration, in cash or in kind, paid to employees in return for work done. It is recorded on a gross basis, before any deduction for income taxes, pensions, unemployment insurance and other social insurance schemes. Also includes other forms of compensation, namely commissions, tips, bonuses, directors' fees and allowances such as those for holidays and sick leave, as well as military pay and allowances. Excludes employers' social contributions, which are treated as supplementary labour income.

Withholding taxes. Taxes withheld by the Government of Canada on selected income and service payments to non-residents, or withheld by foreign governments on selected income and service payments to Canadian residents.

Glossaire

Acquisition de capital non financier. La formation brute de capital fixe d'un secteur, plus son investissement en stocks et son acquisition nette d'actifs existants. Ne s'applique pas au secteur des non-résidents qui, par définition, réalise seulement des investissements financiers.

Acquisition nette d'actifs existants. Acquisitions moins cessions, par un secteur, d'actifs tangibles usagés et de terrains. Pour les entreprises, englobe aussi les acquisitions moins cessions de ressources naturelles, droits miniers et actifs intangibles. Abrégé comme actifs existants.

Actifs existants. Voir acquisition nette d'actifs existants.

Actions. Instrument financier englobant les actions ordinaires et privilégiées (y compris actions privilégiées à échéance déterminée et actions des fonds mutuels) ainsi que le surplus d'apport. Les actions émises par une entreprise publique à l'administration mère sont classées sous créances, administrations.

Agents. Agents économiques qui effectuent des opérations visant l'achat et la vente de biens et services et qui versent ou reçoivent des revenus de facteurs et des transferts.

Ajustement de la valeur des stocks. Écart entre la variation des valeurs comptables des stocks et la valeur de la variation matérielle des stocks, qui mesure le gain (ou perte) de détention net réalisé par l'entreprise à la suite de variations de prix. Les gains ou pertes de détention sur stocks se retrouvent dans les bénéfices des sociétés et dans d'autres agrégats du revenu et doivent être enlevés en vue de mesurer la valeur de la production courante.

Argent liquide et dépôts. Instruments financiers incluant:

Argent liquide et dépôts bancaires. Dépôts en dollars canadiens dans les banques à charte au Canada et à la Banque du Canada, billets canadiens et monnaie en circulation.

Autres dépôts. Tous les dépôts dans les autres institutions de dépôt, y inclus parts dans les caisses d'épargne et de crédit.

Devises et dépôts étrangers. Avoirs et dépôts en devises étrangères dans les banques à charte au Canada, leurs succursales et filiales à l'étranger, les banques étrangères et les autres institutions de dépôt étrangères.

Associations de particuliers. Institutions sans but lucratif au service des ménages, telles églises, syndicats et organismes de charité, ainsi que caisses d'épargne et de crédit, régimes de pensions en fiducie, sociétés d'assurance-vie, sociétés de secours mutuel et compagnies mutuelles d'assurance générale. Elles sont traitées en entreprises quant à leurs dépenses de capital et leurs activités d'intermédiation, et en particuliers quant à leurs dépenses courantes.

Assurance-vie et rentes. Engagement des sociétés d'assurance-vie et des régimes de pensions en fiducie envers les assurés ou les bénéficiaires et de l'administration fédérale à l'égard des rentes vendues en vertu de la Loi relative aux rentes sur l'État. Actif des assurés ou des bénéficiaires

Autres éléments d'actif / de passif. Divers postes non inclus dans les autres instruments financiers, tels intérêts courus, intérêt à payer ou à recevoir et charges payées d'avance.

Autres transferts courants des particuliers aux administrations. Transferts non classés comme impôts directs. Comprend les primes d'assurance-hospitalisation et santé, divers licences et permis (permis de chasse et pêche, licences de mariage), les amendes et pénalités, la part des particuliers des licences et permis pour véhicules automobiles ainsi que les dons aux hôpitaux.

Bâtiments résidentiels. Construction de logements (subdivisés en logements individuels, logements semidétachés, maisons en rangée et appartements), garages, chalets et maisons mobiles. Englobe la construction neuve, les rénovations majeures et les conversions entraînant un changement de structure (dites "améliorations et modifications"), le matériel incorporé de façon permanente, la préparation du site et les coûts de transfert comme les commissions immobilières.

Bénéfices des sociétés avant impôts. Gains nets résultant de l'activité économique des sociétés privées, mesurés après déduction des provisions pour consommation de capital.

Bénéfices réinvestis d'entreprises d'investissement direct. Bénéfices réalisés sur, moins dividendes reçus de, l'investissement étranger direct. À compter de 1961, le revenu sur l'avoir au titre d'investissement étranger direct est inscrit sur une base d'exercice plutôt que de caisse dans la Balance des paiements internationaux. Il en résulte un poste de rapprochement additionnel entre cette dernière et les comptes économiques et financiers nationaux dans lesquels ce changement n'a pas été introduit.

Biens de consommation. Biens neufs acquis par les ménages pour consommation propre. Comprend trois catégories: a) biens durables, utilisables de façon répétée ou continue durant plus d'un an, tels véhicules et gros appareils ménagers; b) biens semi-durables, utilisables en de multiples occasions et d'une durée utile anticipée d'un an

ou un peu plus, tels vêtements, chaussures et linge de maison; c) biens non durables, utilisables une seule fois, tels aliments, essence, boissons alcoolisées et tabac; en pratique, ces derniers comprennent aussi quelques biens de peu de valeur utilisables plus d'une fois, comme des fournitures ménagères.

Céréales en circuit commercial. Céréales détenues par la Commission canadienne du blé ou des négociants privés.

Compte des revenus et dépenses. Ce compte montre, pour chaque grand secteur, toutes les sources de revenu courant (production, revenus de propriété reçus et autres transferts) et toutes les dépenses courantes (dépenses en biens et services, revenus de propriété versés et autres transferts), ainsi que l'épargne, égale au revenu d'un secteur moins sa dépense.

Compte du capital et financier. Ce compte montre, pour chaque grand secteur, a) l'épargne et l'acquisition de capital non financier, et l'écart entre les deux, appelé le prêt net; et b) les transactions sur actifs financiers, les transactions sur passif et l'écart entre les deux, appelé l'investissement financier net. En théorie, les deux postes d'équilibre, prêt net et investissement financier net, sont égaux; en pratique, les imperfections dans les statistiques engendrent un écart entre les deux, montré comme une divergence statistique.

Comptes à recevoir / à payer. Crédit à court terme accordé ou reçu dans le cours ordinaire des affaires par des fournisseurs ou acheteurs de biens et services commerciaux.

Comptes sectoriels. Les comptes nationaux trimestriels comprennent désormais des comptes sectoriels complets, diffusés auparavant uniquement sur une base annuelle. Ces comptes sectoriels comptabilisent le revenu, les dépenses, l'épargne, l'investissement non financier et financier, l'emprunt et le prêt net, pour les quatre grands secteurs: a) particuliers et entreprises individuelles; b) sociétés et entreprises publiques; c) administrations; et d) non-résidents. Voir compte des revenus et dépenses et compte du capital et financier.

Cotisations aux régimes d'assurance sociale. Cotisations des employeurs et salariés à l'assuranceemploi, aux régimes de pensions de la fonction publique, aux Régimes de pensions du Canada et de rentes du Québec et aux caisses de santé et sécurité au travail.

Coût des facteurs. Une évaluation traduisant le coût des facteurs de production (travail et capital). Elle correspond à la valeur restante, une fois enlevés des prix du marché tous les impôts et subventions applicables.

Créances. Instrument financier incluant:

Créances, entreprises. Prêts, avances et titres de

dette entre sociétés liées; du côté de l'actif, englobe aussi placements sous forme d'actions entre sociétés liées.

Créances, administrations. Créances entre administrations, entre entreprises publiques liées ou entre une administration et ses entreprises sous forme d'actions, titres de dette, prêts et avances.

Crédit à la consommation. Crédit accordé aux particuliers pour l'achat de biens et services de consommation.

Demande intérieure finale. Somme des dépenses personnelles en biens et services de consommation, des dépenses courantes nettes des administrations en biens et services, de la formation brute de capital fixe des administrations ainsi que celle des entreprises.

Dépenses courantes des administrations en biens et services. Toutes les dépenses courantes en biens et services du secteur des administrations publiques, y compris salaires et traitements des employés de l'État. Englobe aussi l'armement et une imputation pour la dépréciation du capital fixe des administrations. Elles sont comptabilisées avant déduction des recettes tirées de la vente de biens et services dans le compte des revenus et dépenses des administrations et après déduction de ces recettes dans le PIB (dépenses courantes nettes des administrations en biens et services).

Dépenses personnelles en biens et services de consommation. Dépenses des ménages en biens de consommation neufs et en services de consommation, et marges sur biens usagés. Les dépenses de fonctionnement des associations de particuliers au service des ménages sont aussi incluses, sous "services de consommation".

Divergence statistique. La comptabilité en partie double est à la base de la comptabilité nationale et plusieurs agrégats, comme le PIB et le prêt net, peuvent être calculés de deux façons ou plus. En théorie, toutes les mesures d'un agrégat sont égales. En pratique, des écarts surviennent immanquablement entre elles en raison d'imperfections dans les statistiques. Cet écart est appelé divergence statistique et sert de poste d'équilibre entre deux estimations théoriquement égales. Il peut être comptabilisé tel quel, comme la divergence entre les deux estimations du prêt net, ou il peut être divisé en deux, une moitié étant soustraite de l'estimation la plus élevée, et l'autre ajoutée à la plus basse, comme la divergence entre l'estimation du PIB en termes de revenus et celle en termes de dépenses.

Dividendes. Revenu payable ou recevable à l'égard de titres de propriété (dividendes en espèces) et participation accrue à la propriété de sociétés (dividendes sous forme d'actions).

Effets à court terme. Instrument financier négociable incluant:

Effets à court terme du Gouvernement du Canada. Bons du Trésor, soit des billets à ordre du porteur d'une échéance originale de moins d'un an, émis à escompte et vendus aux enchères chaque semaine; comprend aussi les "Bons du Canada" émis en devises étrangères.

Autres effets à court terme. Billets d'une échéance originale d'un an ou moins, émis à escompte par diverses institutions financières et non financières; comprend les bons du Trésor provinciaux et municipaux.

Entreprises publiques. Entreprises et agences publiques à but lucratif ou visant à recouvrer leurs coûts et dont la motivation est semblable à celle des entreprises privées. Leurs bénéfices totaux (pertes déduites) sont comptabilisés dans le PIB, alors que leurs bénéfices versés le sont dans le compte des revenus et dépenses des administrations, sous revenus de placements. L'écart entre ces deux mesures, les bénéfices non répartis, fait partie de l'épargne du secteur des entreprises.

Épargne. Le revenu courant d'un secteur moins ses dépenses courantes. Comprend les transferts courants mais exclut les provisions pour consommation de capital et transferts de capitaux. L'agrégat est appelé épargne brute s'il englobe les provisions pour consommation de capital.

Épargne personnelle. Revenu personnel disponible moins dépenses personnelles en biens et services de consommation, moins transferts courants des particuliers aux sociétés et aux non-résidents.

Excédent ou déficit du Canada au titre des opérations courantes avec les non-résidents. Exportations de biens et services moins importations de biens et services, plus revenus de placements nets reçus des non-résidents, plus transferts courants nets reçus des non-résidents.

Excédent ou déficit du compte courant d'après la balance canadienne des paiements internationaux. Excédent ou déficit du Canada au titre des opérations courantes avec les non-résidents, plus valeur nette des successions et des capitaux des migrants.

Exportations et importations de biens et services. Recettes et paiements courants au titre de transactions portant sur des biens meubles et des services entre résidents et non-résidents. Les services comprennent les voyages, les frais de transport, les services commerciaux, les opérations gouvernementales, l'intermédiation financière et d'autres services.

Extérieur du Canada. Ambassades et autres bureaux du gouvernement du Canada à l'étranger, qui font partie du territoire du Canada.

Formation brute de capital fixe. Dépenses par le secteur des entreprises et celui des administrations en immeubles, travaux de génie et machines et matériel. Comprend les importations de machines et matériel usagés, qui viennent accroître le stock de capital productif au pays, et les coûts de transfert sur la vente d'actifs existants (commissions immobilières par exemple). Renferme trois grandes catégories: bâtiments résidentiels, ouvrages résidentiels, et machines et matériel. La formation brute de capital fixe des administrations comprend les bâtiments et l'équipement de la défense à des fins non militaires. Abrégé en capital fixe dans le compte de capital et financier. Synonyme d'investissement en capital fixe.

Gains et pertes de détention. Additions au, ou déductions du, revenu résultant de la vente d'un actif à un prix supérieur ou inférieur à son prix d'acquisition. Comme les gains et pertes de détention ne sont pas reliés à la production courante, ils sont exclus du PIB au moyen de l'ajustement de la valeur des stocks.

Hypothèques. Prêts négociés et accords de vente garantis par des biens immobiliers, surtout des immeubles résidentiels. Comprend les première, deuxième et troisième hypothèques. Les hypothèques sont caractérisées par le remboursement, en général mensuel, d'un mélange de capital et d'intérêts.

Importations de biens et services. Voir exportations et importations de biens et services.

Impôts directs. Transferts courants aux administrations par les particuliers, entreprises individuelles, sociétés et entreprises publiques sous forme d'impôts prélevés sur le revenu d'emploi, la propriété, les gains en capital ou toute autre source. Les impôts directs des particuliers sont inscrits sur une base de caisse, et ceux des sociétés et des entreprises publiques le sont sur une base d'exercice.

Impôts directs des particuliers. Impôts sur le revenu et droits et impôts successoraux versés par les particuliers et les entreprises individuelles.

Impôts indirects. Impôts qui s'ajoutent au coût de production et se retrouvent probablement dans le prix du marché payé par l'acheteur, tels taxes de vente et d'accise, droits à l'importation et impôts fonciers.

Indices de prix à pondération fixe. Également appelés indices "Laspeyres", indices de prix dans lesquels un panier fixe de dépenses pour une période de référence donnée sert à agréger les indices de prix détaillés à chaque période.

Indices de prix en chaîne. Indices de prix dans lesquels les valeurs de l'indice agrégé à partir d'indices de prix détaillés pour deux périodes adjacentes sont basées sur le panier de dépenses de la première des deux périodes et raccordées ensemble en une chaîne pour former l'indice.

Indices de volume en chaîne Fisher. Une mesure de la variation en volume d'une période à l'autre. Elle est calculée comme la moyenne géométrique d'un indice de volume en chaîne Paasche et d'un indice de volume en chaîne Laspeyres. En d'autres termes, c'est la moyenne de deux mesures distinctes en volume: une calculée comme si les prix étaient constants dans la première des deux périodes adjacentes (volume de Laspeyres) et l'autre, comme si les prix étaient constants dans la seconde des deux périodes adjacentes (volume de Paasche).

Indices implicites de prix. Également appelés indices à pondération variable ou "Paasche" (sans être strictement de type Paasche), ces indices sont un sous-produit de la procédure de déflation et sont obtenus en divisant une série des dépenses exprimées en prix courants par la série correspondante exprimée en prix constants.

Intérêts et revenus divers de placements. Revenus de placements des particuliers, sauf dividendes, plus revenus de placements des administrations, moins revenus nets de placements reçus des non-résidents par les particuliers et les administrations, moins la partie "transfert" des intérêts sur la dette de consommation, moins le service de la dette publique.

Intérêts sur la dette de consommation. Intérêts versés par les particuliers sur des engagements encourus pour financer des dépenses personnelles en biens et services de consommation; comprend deux parties: les frais d'administration, correspondant au coût des services rendus aux emprunteurs, et la partie résiduelle, dite "transfert".

Intérêts sur la dette publique. Intérêts sur les engagements du secteur des administrations publiques.

Investissement en capital fixe. Synonyme de **formation** brute de capital fixe.

Investissement en stocks. Variation du volume matériel des stocks détenus par les entreprises et les administrations, évaluée aux prix moyens du marché au cours de la période. Les stocks des entreprises renferment deux catégories: a) stocks non agricoles et b) stocks agricoles et céréales en circuit commercial. Les stocks des administrations englobent seulement des stocks d'uranium, jusqu'en 1981, et ceux détenus par des agences fédérales comme la Commission canadienne du lait. Abrégé en stocks dans le compte du capital et financier.

Investissement financier net. Le prêt (ou emprunt) net d'un secteur peut être mesuré soit par les revenus et dépenses, soit par les transactions financières. Dans l'approche des transactions financières, le prêt net est appelé investissement financier net. Pour un secteur, il est égal à ses transactions sur actifs financiers moins ses transactions sur passif. Voir prêt net et compte du capital et financier.

Investissements étrangers. Tous les instruments financiers négociables (actions, obligations et effets à court terme) inscrits au passif du secteur des non-résidents (sociétés, gouvernements étrangers) et à l'actif de secteurs intérieurs.

Machines et matériel. Dépenses d'immobilisations en biens matériels durables d'une durée utile anticipée d'un an ou plus, tels meubles, véhicules, machines de bureau et équipement non installé en permanence (celui incorporé de façon permanente fait partie des ouvrages non résidentiels). Englobe le coût de livraison et d'installation.

Ménages. Un groupe de personnes qui partagent un logement, mettent ensemble toutes, ou partie, de leurs revenus et richesse et consomment certains biens et services collectivement. Ils peuvent aussi exercer n'importe quelle autre activité économique.

Obligations. Titres, négociables ou non, émis en devises canadiennes ou étrangères ayant une échéance originale de plus d'un an. Comprend:

Obligations fédérales. Obligations directes du gouvernement fédéral (dont, obligations d'épargne du Canada) et obligations garanties des entreprises fédérales.

Obligations provinciales. Obligations directes (dont, obligations d'épargne) des administrations provinciales et obligations garanties des entreprises provinciales.

Obligations municipales. Obligations des administrations municipales et obligations garanties des entreprises municipales.

Autres obligations. Obligations négociables émises par les sociétés canadiennes, les hôpitaux et les organismes sans but lucratif, et obligations non garanties des entreprises publiques

Ouvrages non résidentiels. Érection de bâtiments industriels, commerciaux et institutionnels, tels usines, entrepôts, centres commerciaux, édifices à bureaux, écoles et hôpitaux, et construction de routes, ponts, voies ferrées, canaux, réseaux d'adduction d'eau, égouts, barrages, centrales électriques ou thermiques, lignes téléphoniques, installations pétrolières et gazières, etc. Englobe construction neuve, conversions entraînant un changement de structure, rénovations majeures, matériel incorporé de façon permanente et préparation du site.

Ouvrages non résidentiels et équipement. Somme de l'investissement des entreprises en ouvrages non résidentiels et en machines et matériel.

Prêts / Emprunts. Instrument financier comprenant prêts/ emprunts bancaires et autres prêts/emprunts. Prêts négociés, offerts surtout par les banques à charte et autres institutions financières.

Prêt net. Le prêt (ou emprunt) net d'un secteur peut être mesuré soit par les revenus et dépenses, soit par les transactions financières. Selon l'approche des revenus et dépenses, le prêt net est l'écart entre les fonds d'origine interne et l'investissement en capital non financier. Le prêt net d'un secteur égale son épargne, plus ses provisions pour consommation de capital et les transferts nets de capitaux des non-résidents, moins son investissement en capital fixe et en stocks. Voir investissement financier net et compte du capital et financier.

Prix constants. Une évaluation exprimée aux prix ayant cours dans une période de référence fixe. À l'heure actuelle, la période de référence des estimations des comptes nationaux en prix constants est 1992, ce qui signifie que celles-ci sont exprimées en prix de 1992. Voir prix courants.

Prix courants. Une évaluation en prix courants est exprimée aux prix ayant cours dans la période à laquelle il est fait référence. Voir **prix constants**.

Prix du marché. Une évaluation exprimée en termes des prix effectivement payés par l'acheteur, c'est-à-dire après prise en compte de tous les impôts et subventions applicables. Voir coût des facteurs.

Produit intérieur brut. Valeur sans double compte des biens et services produits dans le territoire économique d'un pays ou d'une région au cours d'une période donnée. Le PIB peut être calculé de trois façons, soit comme la somme des revenus gagnés dans la production courante, la somme des ventes finales de la production courante ou la somme des valeurs ajoutées nettes dans la production courante. Il peut être évalué au coût des facteurs ou aux prix du marché.

Produit intérieur net au coût des facteurs. Somme de tous les revenus engendrés par la production, ou la propriété d'actifs servant à la production, dans le territoire économique d'un pays ou d'une région. Comprend rémunération des salariés, bénéfices avant impôts, intérêts et revenus divers de placements, revenu comptable net des exploitants agricoles au titre de la production agricole, revenu net des entreprises individuelles y compris les loyers et ajustement de la valeur des stocks. Diffère du PIB au coût des facteurs en ce qu'il exclut les provisions pour consommation de capital.

Produit national brut. Une mesure de revenu égale au Produit intérieur brut, plus les revenus de placements reçus des non-résidents, moins les revenus de placements versés aux non-résidents.

Provisions pour consommation de capital. Provisions pour tenir compte de l'usure du capital dans le processus productif. Elles sont calculées à l'égard des actifs fixes des entreprises et administrations ainsi que des logements. Englobe aussi divers ajustements de valeur visant à rendre les dossiers comptables des entreprises conformes aux définitions de la comptabilité nationale, telle l'addition des prestations versées par les compagnies d'assurance pour compenser les pertes dues aux incendies.

Régime de pensions du Canada et régime de rentes du Québec. La partie du secteur des administrations qui concerne les opérations du Régime de pensions du Canada et du Régime de rentes du Québec, créés en 1966.

Rémunération des salariés. Somme des salaires et traitements et du revenu supplémentaire du travail. Appelé aussi "revenu du travail".

Réserves officielles. Somme de a) avoirs officiels en or et devises étrangères (dollars américains et dépôts en autres devises étrangères convertibles), b) prêts au, et emprunts du, compte général du Fonds monétaire international, et c) droits de tirage spéciaux.

Résidents canadiens. Unités institutionnelles, tels particuliers, sociétés et institutions sans but lucratif, qui ont un centre d'intérêt économique (logement ou place d'affaire) dans le territoire économique du Canada.

Retenues fiscales. Impôts retenus par le gouvernement du Canada sur certains paiements de revenus ou de services faits à des non-résidents, ou retenus par les gouvernements étrangers sur certains paiements de revenus ou services faits à des résidents canadiens.

Revenu comptable net des exploitants agricoles au titre de la production agricole. Revenu net reçu par les exploitants agricoles au titre de la production agricole, plus la part non répartie des bénéfices sur les opérations de la Commission canadienne du blé et l'ajustement apporté pour exprimer les subventions agricoles sur une base d'exercice plutôt que comptable.

Revenu national net au coût des facteurs. Produit intérieur net au coût des facteurs, plus les revenus nets de placements des non-résidents.

Revenu net de loyers. Gains des particuliers, après déduction des dépenses, tirés de la propriété résidentielle, qu'elle soit louée ou occupée par le propriétaire, et de la location de propriété non résidentielle.

Revenu net des entreprises individuelles non agricoles, loyers compris. Gains des propriétaires individuels, sauf les exploitants agricoles, au titre de leur propre entreprise. Englobe le revenu net des entreprises individuelles et des travailleurs à leur propre compte ainsi que le revenu net de loyers des particuliers.

Revenu net reçu par les exploitants agricoles au titre de la production agricole. Recettes brutes de la vente de produits agricoles, plus subventions sur une base de caisse, plus valeur imputée de la production agricole consommée par les ménages sur les fermes, plus investissement en stocks agricoles, moins dépenses d'exploitation agricoles et dépréciation sur les bâtiments et le matériel agricoles. Exclut les autres revenus, tels loyers nets ou revenus d'intérêt et les bénéfices des exploitations constituées en sociétés. Voir revenu comptable net des exploitants agricoles au titre de la production agricole.

Revenu personnel. Somme de tous les revenus reçus par les particuliers résidant au Canada, qu'il s'agisse de gains de facteurs au titre de la production courante ou de transferts courants d'autres secteurs, plus revenus de placements que les associations de particuliers accumulent pour leur propre compte ou celui des particuliers.

Revenu personnel disponible. Revenu personnel moins transferts courants aux administrations.

Revenu supplémentaire du travail. Cotisations sociales des employeurs, obligatoires ou facultatives. Comprend les allocations de retraite et les cotisations à l'assurance-emploi, au Régime de pensions du Canada, au Régime de rentes du Québec, aux autres régimes de pensions, aux caisses de santé et sécurité au travail, à l'assurance-santé, aux régimes de soins dentaires, à l'assurance-invalidité à court ou à long terme, etc.

Revenus de placements des administrations publiques. Dans le PIB, englobe les revenus d'intérêts des régimes de pension de la fonction publique, d'autres revenus d'intérêts et de dividendes des administrations et les redevances. Dans le compte des revenus et dépenses des administrations, comprend aussi les bénéfices versés par les entreprises publiques aux administrations. Voir entreprises publiques.

Revenus de placements des particuliers. Intérêts (sur dépôts, obligations, hypothèques, etc.) et redevances versés par les sociétés, les administrations et les non-résidents aux particuliers, plus revenus de placements s'accumulant à leur profit dans les régimes de pensions en fiducie et les caisses d'assurance-vie, ou au profit d'autres associations de particuliers. Exclut les dividendes.

Revenus de placements reçus des non-résidents. Revenus de placements gagnés par les résidents canadiens sur leurs actifs à l'étranger, incluant toutes les retenues fiscales applicables. Englobe intérêts, dividendes et autres revenus tels gains nets des banques canadiennes sur des transactions en devises étrangères et des compagnies d'assurance canadiennes de leur activité à l'étranger.

Revenus de placements versés aux non-résidents. Revenus de placements sur des engagements canadiens envers des non-résidents, incluant toutes les retenues fiscales applicables. Englobe intérêts, dividendes et autres paiements comme les dépenses nettes des banques canadiennes sur des transactions en devises étrangères et les revenus nets des compagnies d'assurance étrangères de leur activité au Canada.

Revenus nets de placements des non-résidents. Revenus de placements reçus des, moins revenus de placements versés aux, non-résidents.

Salaires et traitements. Rémunération totale, en espèces ou en nature, versée à des salariés pour un travail exécuté. Elle est inscrite sur une base brute, avant toute déduction pour les impôts sur le revenu, les pensions, l'assurance-chômage et les autres régimes d'assurance sociale. Englobe aussi d'autres types de rémunération, soit commissions, pourboires, primes de rendement, honoraires des directeurs et allocations pour vacances et congés de maladie, ainsi que solde et indemnités militaires. Exclut les cotisations sociales des employeurs, qui sont traitées comme revenu supplémentaire du travail.

Secteur des administrations publiques. Tous les ministères, agences et fonds généraux (budgétaires et non budgétaires) des administrations fédérale, provinciales et locales, y compris les sociétés de la couronne qui tirent plus de 50% de leurs revenus de transferts de l'administration mère. Englobe aussi les conseils scolaires, les universités, les collèges à but non lucratif, les hôpitaux, et les centres d'hébergement à but non lucratif, ainsi que le Régime de pensions du Canada et le Régime de rentes du Québec.

Secteur des entreprises. Tous les agents produisant des biens et services vendus à un prix censé couvrir le coût de production, soit sociétés, entreprises publiques, entreprises individuelles et professionnels à leur propre compte. Englobe aussi les propriétaires occupant leur logement, traités en entreprises louant à elles-mêmes, et les associations de particuliers, traitées en entreprises quant à leurs dépenses de capital et leurs activités d'intermédiation.

Secteur des entreprises individuelles. Tous les agents du secteur des entreprises qui ne sont pas légalement constitués en sociétés. Englobe les propriétaires d'entreprises indépendants, les fermiers, pêcheurs et professionnels à leur propre compte et les propriétaires de logements non constitués en sociétés (y compris propriétaires-occupants).

Secteur des non-résidents. Tous les agents qui n'ont pas de centre d'intérêt économique (logement ou place d'affaire)

dans le territoire économique du Canada. Par définition, les non-résidents font seulement de l'investissement financier. Tout agent faisant un investissement non financier est considéré comme résident.

Secteur des particuliers. Tous les particuliers, ménages et associations de particuliers au service des ménages.

Secteur des particuliers et entreprises individuelles. Agents du secteur des particuliers, plus ceux du secteur des entreprises individuelles. Dans le compte du capital et financier, les transactions de ces deux secteurs sont consolidées. En outre, dans ce compte, bien que les caisses d'épargne et de crédit, les sociétés d'assurance-vie et les régimes de pensions en fiducie figurent comme soussecteurs de celui des sociétés et entreprises publiques, leurs transactions en actifs financiers sont équilibrées par des créances à leur tour inscrites à l'actif du secteur des particuliers et entreprises individuelles.

Secteur des sociétés et des entreprises publiques. Tous les agents du secteur des entreprises légalement constitués en sociétés, plus les entreprises publiques. Ce secteur est divisé en entreprises non financières et financières, lesquelles sont subdivisées en plusieurs sous-secteurs (Banque du Canada, banques à charte, caisses d'épargne, sociétés d'assurance-vie, régimes de pensions en fiducie, fonds mutuels, etc.). Les activités d'intermédiation des caisses d'épargne et de crédit, sociétés d'assurance-vie et régimes de pensions en fiducie figurant à l'actif de ces sous-secteurs sont équilibrées par des créances à leur passif, inscrites à leur tour à l'actif du secteur des particuliers et entreprises individuelles.

Services de consommation. Services consommés par les ménages, tels loyer (y compris le loyer imputé aux propriétaires-occupants), transports, éducation, soins médicaux, garde des enfants, hébergement et restauration ainsi que dépenses de voyage des Canadiens à l'étranger, moins dépenses de voyage des étrangers au Canada. Englobe aussi les dépenses de fonctionnement des associations de particuliers.

Solde et indemnités militaires. Partie de la rémunération des salariés qui consiste en paiements aux membres des Forces armées en service au Canada et à l'étranger. Englobe la solde, les indemnités militaires et les cotisations sociales de l'employeur. Exclut les allocations aux anciens combattants, traitées en paiements de transfert.

Stocks agricoles. Production agricole détenue sur les fermes; englobe céréales, tabac, pommes de terre et bétail.

Stocks non agricoles. Stocks de matières premières, de produits en cours et de produits finis.

Subventions. Transferts des administrations au secteur des entreprises, visant les coûts de production courants. Ces

transferts viennent s'ajouter au revenu des producteurs au titre de la production courante.

Successions et capitaux des migrants. Capitaux apportés au Canada par les immigrants à l'arrivée ou transférés hors du pays par les émigrants lors du départ, ou sommes censées être transférées à une date ultérieure, plus héritages versés à des résidents canadiens par des non-résidents ou vice versa.

Territoire économique. Le territoire économique d'un pays englobe le territoire géographique, plus l'espace aérien, les eaux territoriales et le plateau continental, ainsi que les enclaves territoriales de ce pays à l'étranger (ambassades, consulats, bases militaires...).

Transferts. Argent, bien, service ou actif autre que de l'argent transféré d'un agent à un autre sans contrepartie, c'est-à-dire sans que le donateur reçoive quelque chose en retour. Voir transferts courants et transferts de capitaux.

Transferts courants. Transferts provenant du revenu du donateur, diminuant son épargne et accroissant celle du bénéficiaire.

Transferts courants des administrations aux entreprises. Subventions au secteur des entreprises.

Transferts courants des administrations aux nonrésidents. Pensions versées aux non-résidents et contributions officielles (aide alimentaire ainsi qu'assistance économique et technique fournies aux pays en voie de développement par l'Agence canadienne de développement international, les autres agences gouvernementales et les organisations non gouvernementales).

Transferts courants des administrations aux particuliers. Paiements tels prestations fiscales et crédits d'impôt pour enfants, prestations d'assurance-emploi, pensions de vieillesse, prestations de bien-être social, bourses et subventions de recherche, prestations d'indemnisation des accidents de travail, subventions aux autochtones et à leurs organisations, pensions de la fonction publique et pensions versées en vertu du Régime de pensions du Canada et du Régime de rentes du Québec.

Transferts courants des non-résidents aux administrations. Retenues fiscales versées au gouvernement du Canada par les non-résidents.

Transferts courants des non-résidents aux particuliers. Pensions payées par des gouvernements étrangers à des résidents canadiens plus versements par des non-résidents à des résidents canadiens.

Transferts courants des particuliers aux non-résidents. Versements par des résidents canadiens (notamment par des organisations religieuses ou charitables) à des nonrésidents et retenues fiscales versées à l'étranger.

Transferts courants des particuliers aux sociétés. La partie "transfert" des intérêts sur la dette de consommation.

Transferts courants des particuliers et entreprises individuelles aux administrations. Impôts sur le revenu, cotisations aux régimes d'assurance sociale et autres transferts courants.

Transferts courants des sociétés aux particuliers. Dons de charité et autres contributions.

Transferts de capitaux. Transferts en argent ou en nature, provenant de la richesse du donateur (successions et capitaux des migrants, transfert de la propriété d'un actif ou annulation d'une dette) ou transferts que le bénéficiaire est censé utiliser pour acquérir un actif. Les transferts de capitaux sont sans effet sur l'épargne du donateur ou du bénéficiaire.

Transferts nets de capitaux. Transferts de capitaux provenant d'autres secteurs moins transferts de capitaux aux autres secteurs.

Valeur nette des successions et des capitaux des migrants. Fonds apportés au Canada par les immigrants, moins ceux transférés hors du pays par les émigrants.

Ventes de biens et services par les administrations. Revenus tirés de la vente de biens et services, tels frais d'aqueduc, droits d'atterrissage et frais exigés pour les documents gouvernementaux.

Market Research Handbook 1999

Unlock Canadian Consumer and Business Markets...

he ALL-NEW Market Research Handbook 1999 reveals the Canadian marketplace the way no other statistical resource can. It delivers first hand results from more than 20 specialized Statistics Canada surveys, <u>plus the very latest</u> details from the 1996 Census, in one practical sourcebook!

For entrepreneurs, market researchers, planners and analysts, for big business and small, Market Research Handbook 1999 is an invaluable and comprehensive decision-support tool.

Capitalize on opportunities...

- ▶ spot emerging market trends
- position your products effectively
- gain a competitive edge in an increasingly volatile and competitive economy
- ... and manage the future of your market!

Analyze the conditions in your market – from THE LOCAL TO THE NATIONAL LEVEL - USING:

Key Demographic Variables

- population education
- age ▶ sex
- ▶ aggregated household expenditures
- retail sales earnings

Vital Economic Indicators

- ▶ labour force productivity consumer and industrial
- price indexes
- Gross Domestic Product
- private and public investment

▶ and more!

- ▶ international trade data
- and more!

Business Demographics

- by industry
- ▶ size of business
- urban area
- plus more!

New for 1999!

- ▶ number of immigrants by intended occupation
- Internet service providers: types of services, regional composition and sources of revenue
- population projections for Nunavut
- aggregated household expenditures including games of chance expense (ie. Casino), as well as detailed clothing and health care expenses
- ▶ number and receipts of movie theatres including number of screens and seats
- more fields of study for full-time undergraduate enrolment
- employment change and life status of businesses

Market Research Handbook 1999 (Cat. No. 63-224-XPB) costs \$125. In Canada, please add either GST and applicable PST or HST. Shipping charges: No shipping charges for delivery in Canada. For shipments to the United States, please add \$6. For shipments to other countries, please add \$10. To order, CALL toll-free at 1 800 267-6677, FAX 1 877 287-4369 or MAIL your order to Statistics Canada, Dissemination Division, Circulation Management, 120 Parkdale Avenue, Ottawa, Ontario, KIA 0T6, Canada. Or contact your nearest Statistics Canada Regional Reference Centre listed in this publication. You may also order via E-MAIL: order@statcan.ca

Recueil statistique des études de marché 1999

Pénétrez les marchés de consommation et d'affaires canadiens ...

e TOUT DERNIER Recueil statistique des études de marché 1999 fait état du marché canadien comme aucune autre source statistique ne le fait. Il réunit les résultats de plus de 20 enquêtes spéciales de Statistique Canada, de même que les plus récentes données du Recensement de 1996, dans un seul guide de référence pratique!

Pour les entrepreneurs, comme pour les spécialistes des études de marché, les planificateurs et les analystes, de même que pour les grandes et petites entreprises, le Recueil statistique des études de marché 1999 constitue un outil complet de très grande valeur.

Tirez profit des possibilités...

- repérez les nouvelles tendances
- positionnez vos produits efficacement
- obtenez un avantage concurrentiel au sein d'une économie de concurrence sans cesse changeante
- et gérez l'avenir de votre marché!

Analysez les conditions de votre marché – à L'ÉCHELLE RÉGIONALE OU NATIONALE - EN UTILISANT :

Les principales variables démographiques

- **population** âge scolarité
- ▶ dépenses agrégées des ménages
- ventes au détail revenu

Les indicateurs économiques

- de la population active
- ▶ commerce international
- produit intérieur brut
- données sur la productivité
 investissements privés et publiques

• et plus!

- ▶ indices des prix à la consommation et de l'industrie
- ▶ et plus!

La démographie des entreprises

- ▶ secteur d'activité
- ▶ taille de l'entreprise
- région urbaine
- ▶ et plus!

Nouveau pour 1999!

- le nombre d'immigrants selon la profession projetée
- ▶ les fournisseurs de services Internet : type de services, composition régionale et sources de revenus
- les projections de la population du Nunavut
- les dépenses agrégées des ménages, y compris celles consacrées aux jeux de hasard (c.-à-d. au casino), ainsi qu'un bilan détaillé des dépenses sur l'habillement et les soins de santé
- le nombre de cinémas et leurs recettes, y compris le nombre d'écrans et de sièges
- ▶ une ventilation plus détaillée des domaines d'études des étudiants à plein temps de premier cycle
- ▶ variation de l'emploi et statut des entreprises

Recueil statistique des études de marché 1999 (n° 63-224-XPB au catalogue) se vend 125 \$. Au Canada, veuillez ajouter soit la TPS et la TVP en vigueur, soit la TVH. Note of Appreciation

Canada owes the success of its statistical system to a long-standing partnership between Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.

Note de reconnaissance

Le succès du système statistique du Canada repose sur un partenariat bien établi entre Statistique Canada et la population, les entreprises, les administrations canadiennes et les autres organismes. Sans cette collaboration et cette bonne volonté, il serait impossible de produire des statistiques précises et actuelles.

Symbols

The following standard symbols are used in Statistics Canada publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- -- amount too small to be expressed.
- p preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

This publication was prepared by the following staff from the Income and Expenditure Accounts Division: Karen Ashman, Marcel Beaudry, Eric Belzile, Catherine Bertrand, Anne-Marie Bridger, John Butterill, Michel Chevalier, Jacques Delisle, Mary Lou Dubé, Luc Dubois, Dan Finnerty, Katherine Fraser, Céline Guindon, Cynthia Haggar-Guénette, Journana Harfouche, Irfan Hashmi, Greg Haymes, Louise Jones, Monique Joubert, Sophie Joyal, Karen King, Diane Lake, Denise Laronde-Jones, Ron Levesque, Anna MacDonald, Emmanuel Manolikakis, Abdulelah Mohammed, Rick Murat, Patrick O'Hagan, Nona Park, Michel Pascal, Alice Peters, André Picard, Robert Puchyr, Gohar Razi, Giovanni Salvatore, Christopher Sham, Jérôme Ste-Marie, Deidre Sunley, Jamie Temple, Debra Tompkins, Alain Tremblay, Lee Tue-Fee, Michel Vallières, Chris Van Milligen, Constance Wamala, Weimin Wang, Karen Wilson, Charles Wright, Andrew Yip, Wai-yong Yong, and Drew Zeller.

The System of National Accounts

In Canada, the National Accounts have been developed since the close of the Second World War in a series of publications relating to their constituent parts. These have now reached a stage of evolution where they can be termed a "System of National Accounts". For purposes of identification, all publications (containing tables of statistics, descriptions of conceptual frameworks and descriptions of sources and methods) which make up this System carry the term "System of National Accounts" as a general title.

The System of National Accounts in Canada consists of several parts. The annual and quarterly Income and Expenditure Accounts (included with Catalogue Nos. carrying the prefix 13) were, historically speaking, the first set of statistics to be referred to with the title "National Accounts" (National Accounts, Income and Expenditure). The Balance of International Payments data (Catalogue Nos. with prefix 67) are also part of the System of National Accounts and they, in fact, pre-date the Income and Expenditure Accounts.

Greatly expanded structural detail on industries and on goods and services is portrayed in the Input-Output Tables of the System (Catalogue Nos. with prefix 15). The Catalogue Nos. carrying the prefix 15 also provide measures of the contribution of each industry to total Gross Domestic Product at factor cost as well as Productivity Measures.

Both the Input-Output tables and the estimates of Gross Domestic Product by Industry use the establishment as the primary unit of industrial production. Measures of financial transactions are provided by the Financial Flow Accounts (Catalogue Nos. with prefix 13). Types of lenders and financial instruments are the primary detail in these statistics and the legal entity is the main unit of classification of transactors. Balance sheets of outstanding assets and liabilities are published annually.

The System of National Accounts provides an overall conceptually integrated framework in which the various parts can be considered as interrelated sub-systems. At present, direct comparisons amongst those parts which use the establishment as the basic unit and those which use the legal entity can be carried out only at highly aggregated levels of data. However, Statistics Canada is continuing research on enterprise company establishment relationships; it may eventually be feasible to reclassify the data which are on one basis (say the establishment basis) to correspond to the units employed on another (the company or the enterprise basis).

In its broad outline, the Canadian System of National Accounts bears a close relationship to the international standard as described in *System of National Accounts, 1993*, a joint publication of the Commission of the European Communities, International Monetary Fund, Organization for Economic Cooperation and Development, United Nations and World Bank.

Le système de comptabilité nationale

Au Canada, les comptes nationaux ont fait l'objet depuis la fin de la Seconde Guerre mondiale de toute une série de publications portant sur leurs éléments constitutifs propres. Ils ont connu une telle évolution qu'on peut maintenant les qualifier de "Système de comptabilité nationale". Aux fins d'identification, toutes les publications qui font partie du système (elles contiennent des tableaux statistiques, la description du cadre théorique et l'explication des sources et des méthodes) portent le titre général de "Système de comptabilité nationale".

Le système de comptabilité nationale du Canada se divise en plusieurs catégories de comptes. Les comptes annuels et trimestriels des revenus et des dépenses (paraissant dans les publications dont le numéro de catalogue commence par 13) ont constitué le premier ensemble de statistiques à être connu sous le titre de "Comptes nationaux" (Comptes nationaux, revenus et dépenses). Les données sur la balance canadienne des paiements internationaux (numéro de catalogue commençant par 67) font également partie du système de comptabilité nationale; elles ont même existé avant les comptes des revenus et dépenses.

Une nomenclature beaucoup plus détaillée d'industries et de biens et services figure dans les tableaux d'entrées-sorties du système (numéro de catalogue commençant par 15). Les publications dont le numéro de catalogue commence par 15 comprennent aussi les mesures de l'apport de chaque branche d'activité au total du produit intérieur brut au coût des facteurs ainsi que les mesures de productivité.

L'établissement est l'unité primaire de production industrielle tant dans les tableaux d'entrées-sorties que dans les estimations du produit intérieur brut par activité économique. Les comptes de flux financiers (publications dont le numéro de catalogue commence par 13) mesurent les opérations financières. Les catégories de prêteurs et d'instruments financiers forment les éléments de base de ces statistiques et l'entité juridique est le point de départ du classement des agents économiques. Les comptes du bilan des actifs et passifs en cours sont disponibles annuellement.

Le système de comptabilité nationale constitue un ensemble conceptuellement intégré dans lequel les diverses catégories de comptes peuvent être considérées comme des sous-systèmes étroitement liés entre eux. Au stade actuel de développement, on ne peut faire de comparaison directe entre les éléments basés sur l'établissement et ceux qui sont basés sur l'entité juridique que lorsque les données sont groupées dans des catégories très générales. Toutefois, Statistique Canada poursuit ses recherches sur les relations entre l'entreprise, la société et l'établissement. Il sera peut-être possible un jour de reclasser les données établies sur une certaine base (l'établissement par exemple) de manière à les faire correspondre aux données établies sur une autre base (société ou entreprise).

Dans ses grandes lignes, le système de comptabilité nationale du Canada suit de très près la norme internationale exposée dans la publication *System of National Accounts, 1993* produite conjointement par la Commission des Communautés Européennes, le Fonds Monétaire International, l'Organisation pour la Coopération et le Développement, les Nations-Unies et la Banque Mondiale.

For more information

The 56 National Income and Expenditure Accounts (NIEA) tables are available on day of release in a variety of formats, including CANSIM (Statistics Canada's machine-readable database and retrieval system), diskettes (Catalogue no. 13-001-XDB) and the detailed Tables and Analytical Document (Catalogue no. 13-001-PPB). The latter two can be obtained by contacting the Income and Expenditure Accounts Division's client services officer by phone (613-951-3810), fax (613-951-3618) or Internet: iead-info-dcrd@statcan.ca. In addition, information officers (613-951-3640) answer questions about the NIEA orally, by mail or by fax. There is a minimum charge of \$40 (plus \$0.50 per page) for information sent by mail and of \$40 (plus \$1.50 per page) for information sent by fax. Higher charges apply when the information requested is not part of the official NIEA tables. Payment is due in advance, normally by Visa, MasterCard or American Express. Statistics Canada catalogued publications can be ordered using the tollfree telephone number on the inside cover.

Pour plus de renseignements

Les 56 tableaux des Comptes nationaux des revenus et dépenses (CNRD) sont disponibles le jour de la parution sous diverses formes: CANSIM (base de données ordinolingue et le système d'extraction de Statistique Canada), disquettes (Nº 13-001-XDB au catalogue) et Tableaux et document analytique (Nº 13-001-PPB au catalogue). Ceux-ci peuvent être obtenus en communiquant avec l'agent des Services à la clientèle au (613) 951-3810, Division des comptes des revenus et dépenses, par télécopieur, au (613) 951-3618 ou via l'Internet: iead-info-dcrd@statcan.ca. En outre, les agents d'information au (613) 951-3640 peuvent répondre aux questions sur les CNRD verbalement, par la poste ou par télécopieur. Il y a un coût minimum de 40 \$ (plus 0,50 \$ par page) pour l'information envoyée par la poste et de 40 \$ (plus 1,50 \$ par page) pour celle envoyée par télécopieur. Des frais plus élevés sont exigés quand l'information demandée ne fait pas partie des tableaux publiés des CNRD. Le paiement doit être versé à l'avance, par Visa, MasterCard ou American Express. Les publications figurant au catalogue de Statistique Canada peuvent être commandées par téléphone, en utilisant le numéro sans frais, qui figure à l'intérieur de la page couverture.

Technical Series

The Income and Expenditure Accounts Division (IEAD) has a series of technical paper reprints, which users can obtain without charge. A list of the reprints currently available is presented below. For copies, contact the client services representative at 613-951-3810 or write to IEAD, Statistics Canada, 21st Floor, R.H. Coats Building, Tunney's Pasture, Ottawa, Ontario, K1A 0T6. Highlights

Fourth quarter 2000

Growth in real gross domestic (GDP) product slowed to 0.6% in the fourth quarter of 2000, after increasing at an average quarterly rate of 1.2% since mid-1998. The level of final domestic demand was virtually unchanged following several quarters of solid growth, and export growth slowed further to 0.3%. Strong increases throughout 1999 and early in 2000 resulted in annual growth of 4.7%, a rate similar to that of 1999.

Business plant and equipment investment fell 2.4% in the quarter; an increase in non-residential construction was more than offset by a 4.0% drop in machinery and equipment purchases. Virtually every category of machinery and equipment investment registered a decline.

Growth in personal spending slowed in the fourth quarter (+0.6%), largely due to an 8.6% drop in motor vehicle purchases, after dealer incentives boosted growth in the third. Excluding motor vehicles, the growth of personal expenditure would be 1.1%. The early arrival of winter in many areas of Canada boosted spending on natural gas and electricity, and also encouraged purchases of recreational and sporting equipment.

Table 1. Real GDP growth*

	First quarter	Second quarter	Third quarter	Fourth quarter	2000	
	Premier trimestre	Deuxième trimestre	Troisième trimestre	Quatrième trimestre	2000	
% change	1.2	1.0	1.1	0.6	4.7	Variation en %
Annualized % change	4.8	4.3	4.5	2.6	-	Variation annualisée en %
Year-over-year % change	4.9	5.2	4.7	4.0	4.7	Variation d'une année à l'autre en %

^{*} The change is the growth rate from one period to the next. The annualized change is the quarterly growth rate compounded to an annual rate. The year-over-year change is the growth rate of a given quarter compared with the same quarter in the previous year.

Export growth slowed for a third consecutive quarter (+0.3%), as demand continued to cool south of the border and auto exports fell. However,

La croissance des exportations a ralenti pour un troisième trimestre consécutif (+0,3 %), à la suite de la baisse continue de la demande de nos voisins du Sud et

Faits saillants

Quatrième trimestre 2000

La croissance du produit intérieur brut (PIB) réel a ralenti, pour se fixer à 0,6 % au quatrième trimestre, après une hausse trimestrielle moyenne de 1,2 % depuis le milieu de 1998. La demande intérieure finale est demeurée pratiquement inchangée, après plusieurs trimestres de forte croissance, et la croissance des exportations a continué de ralentir pour s'établir à 0,3 %. De fortes hausses tout au long de 1999 et en début d'année 2000 ont mené à une croissance annuelle de 4,7 %, un taux semblable à celui de 1999.

L'investissement des entreprises en usines et matériel a chuté de 2,4 % au quatrième trimestre, malgré une hausse de la construction non résidentielle qui n'a pu compenser la baisse de 4,0 % des achats de machines et matériel. Pratiquement toutes les catégories d'investissement en machines et matériel ont enregistré un recul.

La croissance des dépenses personnelles a ralenti durant le quatrième trimestre (+0,6 %), principalement en raison d'une baisse de 8,6 % des achats de véhicules automobiles. Cette baisse fait suite à une hausse qui découlait des mesures incitatives des concessionnaires durant le troisième trimestre. En excluant les véhicules automobiles, l'augmentation des dépenses personnelles se chiffrerait à 1,1 %. L'arrivée hâtive de l'hiver dans de nombreuses régions du Canada a entraîné une hausse des dépenses en gaz naturel et en électricité et a aussi stimulé les achats de matériel récréatif et de sport.

Tableau 1. Croissance du PIB réel*

^{*} La variation est le taux de croissance d'une période à l'autre. La variation annualisée est le taux de croissance trimestriel composé au taux annuel. La variation d'une année à l'autre est le taux de croissance d'un trimestre donné par rapport au même trimestre de l'année précédente.

exports of machinery and equipment (+4.7%) and energy products (+1.7%) were sources of strength.

Inventory levels continued to increase, but at a much slower pace than in the third quarter. Stocks were liquidated at the retail level (particularly for autos), while wholesalers reduced their rate of inventory accumulation. Manufacturers' inventories continued to pile up, although at somewhat a lower rate than the strong buildup seen in the third quarter. The accumulation was concentrated in electrical and electronic products.

Personal disposable (after tax) income advanced a healthy 2.3% in the fourth quarter, the largest quarterly increase since 1990. Solid gains in labour income, investment income and government transfers, coupled with a reduction in income taxes, led the advance.

Plant and equipment investment slipped

Business investment in non-residential structures and equipment decreased 2.4% in the fourth quarter. Non-residential construction investment grew 1.1%, with gains concentrated in engineering construction. Building construction edged up after two quarterly declines.

A 4.0% drop in investment in machinery equipment more than offset the advance in non-residential construction activity. A parallel decline occurred in imports of machinery and equipment. Investment in computers and other office equipment fell 8.1%, the first quarterly drop following nearly three years of uninterrupted growth. Declines also occurred in purchases of automobiles, trucks, other transportation equipment, telecommunications equipment and other machinery equipment.

Consumer demand for autos softened

Growth in consumer spending slowed to 0.6%, pulled down by an 8.6% drop in purchases of motor vehicles. The end of dealer incentives to liquidate year 2000 models was a contributing factor. Motor vehicle parts and repairs, however,

de la chute des exportations d'automobiles. Les exportations de machines et de matériel, tout comme celles des produits de l'énergie, ont toutefois été vigoureuses, augmentant de 4,7 % et de 1,7 %, respectivement.

Les stocks ont continué d'augmenter, mais à un rythme beaucoup plus lent qu'au troisième trimestre. Les stocks ont été liquidés en ce qui concerne le commerce de détail (en particulier dans le cas des automobiles), tandis que les grossistes ont réduit leur taux d'accumulation des stocks. Même si les stocks des fabricants ont continué de s'accumuler, le taux a toutefois été quelque peu inférieur à la forte accumulation du troisième trimestre. L'accumulation concernait surtout les produits électriques et électroniques.

Le revenu personnel disponible (après impôt) a connu une solide augmentation de 2,3 % au quatrième trimestre, soit la hausse trimestrielle la plus importante depuis 1990. La hausse a été attribuable à de fortes augmentations du revenu du travail, des revenus de placements et des transferts en provenance des administrations publiques, jumelées à une réduction de l'impôt sur le revenu.

Repli de l'investissement des entreprises en usines et matériel

L'investissement des entreprises en ouvrages non résidentiels et équipement a chuté de 2,4 % au quatrième trimestre. L'investissement en construction non résidentielle s'est accrue de 1,1 %, les gains étant concentrés dans les ouvrages de génie. La construction de bâtiments a connu une tendance à la hausse après deux déclins trimestriels.

La baisse de 4,0 % de l'investissement en machines et matériel a plus qu'annulé la hausse dans la construction non résidentielle. On a constaté une baisse similaire pour ce qui est des importations de machines et matériel. L'investissement en ordinateurs et autre matériel de bureau a chuté de 8,1 %. Il s'agit de la première baisse trimestrielle après presque trois années de croissance ininterrompue. On a constaté également une baisse des achats d'automobiles, de camions, d'autre matériel de transport, de matériel de télécommunications, et d'autres machines et matériel.

Ralentissement de la demande des consommateurs pour les automobiles

La croissance des dépenses de consommation a ralenti pour se fixer à 0,6 % au quatrième trimestre, freinée par une baisse de 8,6 % des achats de véhicules automobiles. Cela s'explique entre autres par la fin des mesures incitatives des concessionnaires visant à liquider grew 4.4%. Excluding motor vehicle purchases, the growth of consumer spending would be 1.1%.

The early arrival of winter in many parts of Canada led to higher consumption of natural gas and electricity in the fourth quarter. Early snowfall also encouraged purchases of recreational and sporting equipment. Personal spending on air transportation also advanced solidly, as did spending on restaurant and accommodation services.

Export growth decelerated further

Growth in exports of goods and services continued to slow (+0.3%) in the fourth quarter, following a marked deceleration in the third. As demand cooled south of the border, exports of automotive products fell for a third consecutive quarter. Weaker U.S. demand for paper pulled down exports of forestry products; exports of industrial goods and materials and agricultural and fish products also dropped.

These declines were offset by rising exports of machinery and equipment (4.7%) and energy products (1.7%) in the fourth quarter. Significant export gains occurred in office machines and equipment, aircraft engines and parts and telecommunications equipment. In the case of energy, soaring U.S. demand for natural gas led to 7.4% increase in export volumes, and put upward pressure on the price of natural gas, which increased a further 20% in the quarter. Exports of crude petroleum also advanced solidly, following a drop in the third quarter, while the volume of electricity exports fell.

Inventory accumulation eased

Retailers liquidated inventories in the fourth quarter, particularly for autos. Retail inventories of non-durable goods were also drawn down. Wholesalers reduced their rate of inventory accumulation. Stocks continued to pile up at the manufacturing level, although at a slower rate compared with the strong buildup of the third quarter. Fourth quarter accumulation was concentrated in inventories of electrical and electronic products.

les modèles 2000. La catégorie "pièces et réparation de véhicules automobiles" a connu, en revanche, une hausse de 4,4 %. En excluant les achats de véhicules automobiles, la croissance des dépenses de consommation aurait été de 1,1 %.

L'arrivée hâtive de l'hiver dans de nombreuses régions du Canada est venue augmenter la consommation de gaz naturel et d'électricité au quatrième trimestre. Par ailleurs, les chutes de neige précoces ont stimulé les achats de matériel récréatif et de sport. Les dépenses personnelles au chapitre du transport aérien ont aussi fortement progressé, tout comme les dépenses de restauration et d'hébergement.

Le ralentissement de la croissance des exportations se poursuit

La croissance des exportations de biens et services a continué de ralentir (+0,3 %), après un fléchissement marqué au troisième trimestre. Comme la demande a diminué chez nos voisins du Sud, les exportations de produits automobiles ont baissé pour un troisième trimestre consécutif. Le fléchissement de la demande américaine de papier a affaibli les exportations de produits forestiers. Les exportations de biens et matériaux industriels, ainsi que les produits de l'agriculture et de la pêche ont également diminué.

Ces baisses ont été compensées par des exportations à la hausse de machines et matériel (+4,7%) et de produits de l'énergie (+1,7%). On a observé une hausse considérable des exportations de machines et de matériel de bureau, de moteurs et de pièces d'aéronef, ainsi que de matériel de télécommunications. En matière d'énergie, la montée en flèche de la demande américaine pour le gaz naturel a entraîné une augmentation de 7,4 % du volume des exportations et a exercé une pression à la hausse sur le prix du gaz naturel, qui a continué d'augmenter de 20 % durant le trimestre. Les exportations de pétrole brut ont aussi progressé fortement, après une baisse au troisième trimestre, tandis que le volume des exportations d'électricité a chuté.

Réduction de l'accumulation des stocks

Les détaillants ont liquidé leurs stocks au cours du quatrième trimestre, en particulier les stocks d'automobiles. Les stocks des détaillants en biens non durables ont également baissé. Les grossistes ont réduit leur taux d'accumulation des stocks. Les stocks ont continué de s'accumuler dans la fabrication, quoique à un taux moins élevé que le trimestre précédent, caractérisé par une forte augmentation. L'accumulation du quatrième trimestre est surtout provenue des stocks de produits électriques et électroniques.

Elsewhere, natural gas stocks were run down in response to increased demand both domestically and in the United States.

Disposable income advanced solidly

Personal disposable income advanced a solid 2.3% in nominal terms in the fourth quarter, the largest quarterly increase since 1990. Labour income grew 1.2%, and interest, dividends and miscellaneous investment income rose 3.7%, boosted by federal pay equity interest payments in December. The Alberta Energy Tax Refund pushed up government transfers to persons, which grew by +2.1%.

While personal income advanced 1.5% in the fourth quarter, federal and provincial tax cuts and provincial tax refunds (notably the Ontario Taxpayer Dividend) resulted in a 2.0% drop in income taxes, further boosting disposable (after tax) income. After dipping to 2.3% in the third quarter, the personal saving rate regained its previous level, 3.5%. Increased saving was largely invested in financial assets.

2000 in review

Real gross domestic product grew 4.7% in 2000, a rate similar to that of 1999. Labour income advanced robustly, and rising commodity prices led to stellar growth in corporate earnings, on top of similar advances in 1999. The GDP chain price index, boosted by higher prices for exported commodities, rose 4.1%, the largest annual increase since 1989. Export volumes posted another near double-digit advance, and the growth in business plant and equipment investment improved on the already strong performance of 1999.

Government financial positions continued to show significant improvement, particularly at the federal government. The federal surplus, on a national accounts basis, swelled to two and a half times its 1999 level, and credit market debt was reduced.

Robust growth in labour income

Labour income jumped 7.2% at current prices, the largest annual growth in over a decade. Federal pay equity payments accounted for 0.5% of the increase. Average earnings gathered momentum, and employment also grew at a healthy pace.

Par ailleurs, les stocks de gaz naturel ont baissé par suite de la demande accrue au pays et aux États-Unis.

Le revenu disponible augmente fortement

Le revenu personnel disponible a connu une forte progression de 2,3 % en valeur nominale, soit la hausse trimestrielle la plus importante depuis 1990. Le revenu du travail a crû de 1,2 %, et les intérêts, les dividendes et les revenus divers de placement ont augmenté de 3,7 %, amplifiés par les paiements fédéraux d'intérêts au chapitre de l'équité en matière d'emploi en décembre. Le remboursement en Alberta d'une taxe à l'énergie a fait grimper les transferts aux particuliers en provenance des administrations publiques (+ 2,1 %).

Alors que le revenu personnel a crû de 1,5 % au quatrième trimestre, les réductions des impôts fédéral et provinciaux et les remboursements d'impôts provinciaux (notamment, le dividende accordé aux contribuables de l'Ontario) ont entraîné une baisse de 2,0 % de l'impôt sur le revenu, ce qui a donné un élan supplémentaire au revenu disponible (après impôt). Après avoir chuté pour se situé à 2,3 % au troisième trimestre, le taux d'épargne personnelle a retrouvé son niveau précédent (3,5 %). Cette hausse de l'épargne a été investie en grande partie dans des actifs financiers.

Résultats de l'année 2000

Le produit intérieur brut réel s'est accru de 4,7 % en 2000, soit un taux semblable à celui de 1999. Le revenu du travail a fortement augmenté et la poussée des prix des produits de base a entraîné une croissance impressionnante des bénéfices de sociétés pour une deuxième année consécutive. L'indice de prix en chaîne du PIB, stimulé par des prix plus élevés pour les produits exportés, a augmenté de 4.1%, la plus forte hausse annuelle depuis 1989. Les exportations en volume ont affiché une autre progression de près de 10%, et la croissance de l'investissement des entreprises en usines et équipement a surpassé celle, déjà forte, de 1999.

L'état de la situation financière des administrations publiques a continué d'afficher une amélioration marquée, surtout à l'échelon fédéral. L'excédent de l'administration fédérale (sur la base de la comptabilité nationale) a gonflé pour atteindre deux fois et demi son niveau de 1999, et la dette sur le marché du crédit a baissé.

Croissance robuste du revenu du travail

Le revenu du travail a grimpé de 7,2 % aux prix courants; il s'agit de la plus forte augmentation annuelle depuis plus d'une décennie. La hausse est attribuable, dans une proportion de 0,5 %, aux paiements fédéraux d'équité en matière d'emploi. La rémunération moyenne s'est

Personal income rose 6.1%. Personal outlays rose at a slightly faster pace (+6.4%), pushing the personal saving rate down to 3.2% for the year 2000.

Income gains had an impact on consumption of durable goods, which continued to advance at a healthy pace. New car purchases posted near double-digit increases following dealer incentives early in the fall. Recreational, sporting and camping equipment jumped +12.9%.

Corporation profits boosted by rising commodity prices

Corporation profits soared 23.4% in nominal terms, on top of similar gains in 1999. Oil and gas extraction companies, benefitting from rising commodity prices, more than doubled earnings over the course of 2000. Manufacturers, particularly in the computer and telecommunications industries, also posted a strong showing.

Demand for electricity south of the border boosted earnings of public utilities, leading to record growth (46.0%) in the profits of government business enterprises.

Strong year for business plant and equipment investment

Business investment in plant and equipment advanced 14.0%, the largest annual increase since 1997. Business non-residential construction activity jumped 4.8%, while machinery and equipment purchases surged nearly 20% for the year despite a drop in the fourth quarter. Business investment in computers and other office equipment roared ahead (43.4%) for a second consecutive year, while telecommunications equipment posted another double-digit advance.

Solid export gains in 2000

Exports of goods and services climbed 9.6% in 2000, following a similar advance in 1999. Exports of machinery and equipment climbed 25%, continuing a string of double digit rises over the past eight years. Exports of agricultural and fish products and forestry products also advanced at a healthy pace, while exports of automotive products edged down following stellar growth in 1999.

accélérée et l'emploi a aussi enregistré des gains solides. La croissance des dépenses personnelles (+6,4%) ayant surpassé celle du revenu personnel (+6,1%), le taux d'épargne a reculé pour s'établir à 3,2 % pour l'année 2000.

La hausse du revenu a eu une incidence positive sur la consommation de biens durables, qui a continué d'augmenter à un rythme vigoureux. Les achats de véhicules neufs ont enregistré une croissance de près de deux chiffres par suite des mesures incitatives des concessionnaires au début de l'automne. Les ventes de matériel récréatif, de sport et de camping ont aussi bondi (+12,9 %).

Les bénéfices des sociétés stimulés par la hausse des prix des produits de base

Les bénéfices des sociétés ont monté en flèche (+23,4 % en valeur nominale), s'ajoutant à des gains similaires en 1999. Les entreprises d'extraction de pétrole et de gaz, bénéficiant de la hausse des prix des produits de base, ont plus que doublé leurs revenus au cours de 2000. Les fabricants, surtout dans les industries de l'informatique et de matériel de télécommunications, ont aussi enregistré des bénéfices appréciables.

La demande d'électricité au sud de la frontière a stimulé les revenus des services publics, propulsant la croissance des bénéfices des entreprises publiques à un niveau record (+46,0 %).

Forte croissance de l'investissement des entreprises en usines et matériel

L'investissement des entreprises en usines et matériel a progressé de 14,0 %, il s'agit de l'augmentation annuelle la plus importante depuis 1997. La construction non résidentielle a grimpé de 4,8 %, tandis que les achats de machines et matériel ont bondi de près de 20 % pour 2000, en dépit d'une baisse au quatrième trimestre. L'investissement des entreprises en ordinateurs et autre matériel de bureau a fait un bond (+43,4 %) pour une deuxième année consécutive, tandis que le matériel de télécommunications a enregistré une autre augmentation à deux chiffres.

Fortes hausses des exportations en 2000

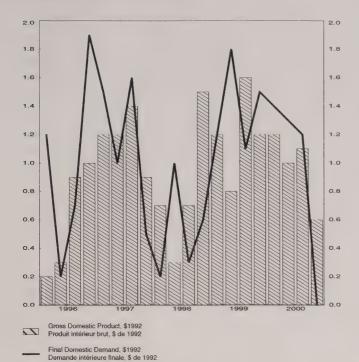

Les exportations de biens et services ont grimpé de 9,6 % en 2000, après avoir connu une hausse semblable en 1999. Les exportations de machines et matériel ont bondi de 25 %, dans la foulée d'une série d'augmentations à deux chiffres ces huit dernières années. Les exportations de produits de l'agriculture et de la pêche, ainsi que ceux de la forêt ont aussi progressé à un rythme vigoureux. Les exportations d'automobiles ont baissé légèrement, après une performance impressionnante en 1999.

Strong sales of electricity to California and high export demand for natural gas and crude oil contributed to a 7.2% increase in export volumes of energy products. Energy exports grew 76.8% in value terms, as prices of electricity and natural gas roughly doubled over the year. The price of crude oil rose about 60% in 2000, and petroleum and coal product prices also escalated throughout most of the year.

Les fortes ventes d'électricité à la Californie et la demande élevée des exportations de gaz naturel et de pétrole brut ont contribué à une augmentation de 7,2 % du volume des exportations de produits énergétiques. Les exportations de produits de l'énergie ont augmenté de 76,8 % en valeur, alors que les prix de l'électricité et du gaz naturel ont presque doublé au cours de 2000. Le prix du pétrole brut s'est accru d'environ 60 % en 2000, et les prix des produits du pétrole et du charbon ont monté en flèche presque tout au long de l'année.

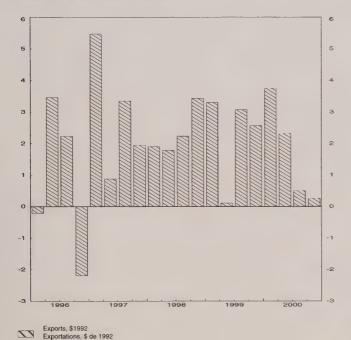

GDP growth slowed after several solid quarters La croissance du PIB ralentit après plusieurs trimestres vigoureux

Footnotes

Table 5

- [1] Sum of accrued net income of farm operators from farm production and net income of non-farm unincorporated business, including rent.
- [2] Total income minus current transfers to government.

Table 6

- Includes interest and dividends received from nonresidents.
- [2] Interest on the public debt is routed to other sectors of the economy through the corporate sector due to incomplete information on the transactions of government debt instruments.

Table 9, 10, 11, 12 and 13

[1] [2] In GDP, government current expenditure is recorded on a net basis, that is, after deduction of sales of goods and services. In the government sector accounts, sales of goods and services to other sectors are shown separately as part of revenue, and current expenditure is recorded on a gross basis, which leaves saving unchanged.

Table 14

[1] [2] [3] This account presents the saving as well as the net lending or borrowing position of non-residents with respect to their transactions with Canadian residents. The sign of these aggregates is, therefore, the reverse of what appears in the Canadian Balance of International Payments.

Table 15

 [1] [2] [3] [4] By definition, the sum of this aggregate over all sectors is equal to zero.

Notes

Tableau 5

- [1] Somme du revenu comptable net des exploitants agricoles au titre de la production agricole et du revenu net des entreprises individuelles non agricoles, loyers compris.
- [2] Revenu total moins transferts courants aux administrations publiques.

Tableau 6

- Comprends les intérêts et les dividendes reçus des nonrésidents.
- [2] Les intérêts sur la dette publique sont affectés aux autres secteurs de l'économie par le biais du secteur des sociétés en raison d'un manque d'information sur les transactions de titres de dette des administrations.

Tableau 9, 10, 11, 12 et 13

[1] [2] Dans le PIB, les dépenses courantes des administrations sont enregistrées sur une base nette, c'est-à-dire après déduction des ventes de biens et services. Dans les comptes sectoriels des administrations, les ventes de biens et services aux autres secteurs sont montrées séparément sous les revenus et les dépenses courantes sont enregistrées sur une base brute, ce qui laisse l'épargne inchangée.

Tableau 14

[1] [2] [3] Ce compte présente la position des non-résidents en regard de leurs transactions avec les résidents canadiens, et ce pour l'épargne ainsi que, le prêt ou l'emprunt net. Conséquemment, le signe de ce agrégats est inversé par rapport à ce qui figure dans la balance des paiements internationaux du Canada.

Tableau 15

[1] [2] [3] [4] Par définition, la somme de cet agrégat pour tous les secteurs est égal à zéro.

Glossary

Accrued net income of farm operators from farm production. Net income received by farm operators from farm production plus the undistributed portion of earnings arising out of the operations of the Canadian Wheat Board and the adjustment made to shift agricultural subsidies from a cash to an accrual basis.

Association of individuals. Non-profit institutions serving households, such as churches, labour unions and charitable organizations, plus credit unions, trusteed pension plans, life insurance companies, fraternal societies and mutual non-life insurance companies. They are treated as businesses with respect to their capital outlays and their intermediation activities, but as persons with respect to their current expenses.

Bonds. Marketable and non-marketable securities issued in Canadian or foreign currency with an original term to maturity in excess of one year. Includes:

Canada bonds. Direct bonds of the federal government (of which, Canada Savings Bonds) and guaranteed federal enterprise bonds.

Provincial bonds. Direct bonds of provincial governments (of which, provincial savings bonds) and guaranteed provincial enterprise bonds.

Municipal bonds. Direct bonds of municipalities and guaranteed municipal enterprise bonds.

Other bonds. Bonds issued by Canadian corporations, hospitals and non-profit institutions, as well as non-guaranteed bonds of government business enterprises. Also included are asset-backed securities.

Business sector. All transactors producing goods and services for sale at a price intended to cover costs of production, namely corporations, government business enterprises, unincorporated businesses and independent professional practitioners. Also includes owners occupying their own dwelling, treated as businesses renting to themselves, and associations of individuals, treated as businesses with respect to their capital outlays and their intermediation activities.

Canada and Quebec Pension Plans. The part of the government sector which consists of the operations of the Canada and Quebec Pension Plans, established in 1966.

Canadian residents. Institutional units, such as persons, corporations and non-profit institutions, which have a centre of economic interest (a dwelling, a business location) in the economic territory of Canada.

Capital and financial account. This account shows, for each major sector, a) the saving and acquisition of non-financial capital and the difference between them, called net lending; and b) transactions in financial assets, transactions in liabilities and the difference between them, called net financial investment. In theory, the two balancing items, net lending and net financial investment, are equal; in practice, imperfections in the statistics lead to a difference between the two, shown as a statistical discrepancy.

Capital consumption allowances. Allowances for the using up of capital in the productive process. They are calculated for business and government fixed assets as well as housing. They also include miscellaneous valuation adjustments bringing business accounting records into conformity with national accounts definitions, such as the addition of claims paid by insurance companies to compensate for fire and other losses.

Capital transfers. Transfers in cash or in kind, out of the wealth of the donor (inheritances and migrants' funds, transfer of ownership of an asset or cancellation of a liability), or transfers which the recipient is expected to use towards the acquisition of an asset. Capital transfers have no effect on the saving of the donor or recipient.

Chain price indexes. Price indexes where the values of the aggregate index for two adjacent periods, calculated from the detailed price indexes, are based on the expenditure pattern from the first of the two periods, and where these index values are linked together in a chain to form the index.

Chain Fisher volume index. A measure of change in volume from period to period. It is calculated as the geometric mean of a chain Paasche volume index and a chain Laspeyres volume index. In other words, it is an average of two distinct measures of change in volume: one calculated as if prices were constant in the first of two adjacent periods (Laspeyres volume) and the other calculated as if prices were constant in the second of the two adjacent periods (Paasche volume).

Claims. Financial instrument comprising:

Corporate claims. Loans, advances and issues of debt between associated corporations; on the asset side, also includes investment in shares between associated corporations.

Government claims. Claims between governments, between related government business enterprises or between a parent government and its enterprises, in the form of shares, debt securities, loans and advances.

Constant prices. A valuation expressed at the prices prevailing during a fixed reference or base period. At present, the base period for national accounts estimates in constant prices is 1992, which means that they have been restated in 1992 prices. See current prices.

Consumer credit. Credit extended to persons for purchasing consumer goods and services.

Consumer goods. New goods acquired by households for their own consumption. Comprise three categories: a) Durable goods, which can be used repeatedly or continuously for more than one year, such as motor vehicles and major appliances; b) Semi-durable goods, which can be used on multiple occasions and have an expected lifetime of one year or somewhat more, such as clothing, footwear and linens; c) Non-durable goods, which can be used only once, such as food, gasoline, alcoholic beverages and tobacco; in practice, the latter also include a few goods of little value used more than once, such as household supplies.

Consumer services. Services consumed by households, such as rent (including the rent imputed on owner-occupied housing), transportation, education, medical care, child care, food and accommodation services as well as travel expenditures of Canadians abroad, less travel expenditures of foreigners in Canada. Also includes the current (operating) expenses of associations of individuals.

Contributions to social insurance plans. Employer and employee contributions to employment insurance, government pension funds, the Canada and Quebec Pension Plans and workers' compensation.

Corporate and government business enterprise sector. All business transactors whose legal form of organization is the corporation, plus government business enterprises. This sector is divided into non-financial and financial enterprises. The latter are comprised of several sub-sectors (Bank of Canada, chartered banks, credit unions, life insurance companies, trusteed pension funds, mutual funds, etc.). The intermediation activities of credit unions, life insurance companies and trusteed pension funds shown as assets of these sub-sectors are balanced by claim liabilities which, in turn, are assets of the persons and unincorporated business sector.

Corporation profits before taxes. The net earnings from economic activity of privately-held corporations, measured after deduction of capital consumption allowances.

Currency and deposits. Financial instruments comprising:

Currency and bank deposits. Deposits denominated in Canadian dollars at chartered banks in Canada and at the Bank of Canada, plus Canadian currency and coin in circulation.

Other deposits. All deposits at other Canadian deposit-taking institutions, including shares in credit unions.

Foreign currency and deposits. Holdings of foreign currency and foreign currency denominated deposits at chartered banks in Canada, foreign branches and subsidiaries of Canadian chartered banks, foreign banks and other foreign deposit-taking institutions.

Current prices. A valuation at current prices is expressed at the prices prevailing during the period being referred to. See **constant prices.**

Current transfers. Transfers out of the income of the donor, reducing his saving and adding to that of the recipient.

Current transfers from corporations to persons.Charitable donations and other contributions.

Current transfers from government to business. Subsidies to the business sector.

Current transfers from government to non-residents. Pensions paid to non-residents, contributions to international organizations and economic and technical assistance as well as food aid provided by the Canadian International Development Assistance Agency and other governmental agencies.

Current transfers from government to persons. Payments such as the Child Tax Benefit/Credit, Employment Insurance benefits, old age security benefits, welfare payments, scholarships and research grants, workers' compensation benefits, grants to aboriginal peoples and their organizations, public service pensions and pensions paid under the Canada and Quebec Pension Plans.

Current transfers from non-residents to government. Withholding taxes paid by non-residents to the Government of Canada.

Current transfers from non-residents to persons. Pensions paid by foreign governments to Canadian residents plus remittances by non-residents to Canadian residents.

Current transfers from persons and unincorporated businesses to government. Income taxes, contributions to social insurance plans and other current transfers.

Current transfers from persons to corporations. The transfer portion of interest on the consumer debt.

Current transfers from persons to non-residents. Remittances by Canadian residents (particularly religious and charitable organizations) to non-residents and withholding taxes paid abroad.

Direct taxes. Current transfers to government from persons, unincorporated businesses, corporations and government business enterprises in the form of taxes on income from employment, property, holding gains or any other source. Direct taxes from persons are recorded on a cash basis, and those from corporations and government business enterprises, on an accrual basis.

Direct taxes from persons. Income taxes, succession duties and estate taxes paid by persons and unincorporated businesses.

Dividends. Income payable and receivable in respect of corporate equities (cash dividends) and further equity participation in corporate enterprises (stock dividends).

Economic territory. The economic territory of a country encompasses the geographic territory, plus the air space, territorial waters and continental shelf, as well as its territorial enclaves abroad (embassies, consulates, military bases...).

Exports and imports of goods and services. Current receipts and payments arising out of transactions in moveable goods and services between residents and non-residents. Services include travel, freight and shipping, business services, government transactions, financial intermediation and other services.

Factor cost. A valuation reflecting the cost of the factors of production (labour and capital). It corresponds to the value remaining after the deduction from market prices of all applicable taxes and subsidies. See market prices.

Farm inventories. Farm output stored on farms; includes grains, tobacco, potatoes and livestock.

Final domestic demand. The sum of personal expenditure on consumer goods and services, net government current expenditure on goods and services, government gross fixed capital formation and business gross fixed capital formation.

Fixed-weighted price indexes. Also known as "Laspeyres" indexes, these are price indexes where a fixed pattern of expenditure from some base period is used to aggregate the detailed price indexes in each period.

Foreign investments. All marketable financial instruments (bonds, short-term paper and shares) which are liabilities of the non-resident sector (foreign governments and corporations) and assets of domestic sectors.

Government business enterprises. Government enterprises and agencies which operate on a profit or cost recovery basis and whose motivation is similar to that of private enterprises. Their total profits (net of losses) are recorded in GDP, while only the profits remitted to government are recorded in the government income and

outlay account, under government investment income. The difference between these two measures, retained earnings, forms part of business sector saving.

Government current expenditure on goods and services. All current outlays for goods and services by the government sector, including wages and salaries of government employees. It also includes expenditure on weapons for defence and an imputation for the depreciation of government fixed assets. It is recorded before deduction of revenues from sales of goods and services in the government income and outlay account, and after deduction of these revenues in GDP (net government current expenditure on goods and services).

Government investment income. In GDP, includes interest income of public service pension plans, other interest and dividend income of governments and royalties. In the government income and outlay account, it also includes the profits of government business enterprises remitted to government. See government business enterprises.

Government sales of goods and services. Revenues from the sale of goods and services, such as water charges, landing fees and charges for government documents.

Government sector. All departments, agencies, and funds (budgetary and non-budgetary) of the federal, provincial and local levels of government, as well as crown corporations which receive more than 50% of their revenues in grants from their parent governments. Also included are school boards, universities, non-profit colleges, hospitals, non-profit residential care facilities, as well as the Canada and Quebec Pension Plans.

Grain in commercial channels. Grain in the hands of the Canadian Wheat Board or private grain dealers.

Gross Domestic Product. The total unduplicated value of the goods and services produced in the economic territory of a country or region during a given period. GDP can be measured three ways: as total incomes earned in current production, as total final sales of current production, or as total net values added in current production. It can be valued either at factor cost or at market prices.

Gross Fixed Capital Formation. Expenditures by the government and business sectors on buildings, engineering construction and machinery and equipment. Includes imports of used machinery and equipment, which constitute additions to domestic capital stock, and transfer costs on the sale of existing fixed assets (i.e. real estate commissions). Comprises three broad categories: residential structures, non-residential structures and machinery and equipment. Government fixed capital formation includes spending on non-military defence buildings and equipment. Abbreviated as fixed capital in the capital and financial account. Synonym of investment in fixed capital.

Gross National Product. A measure of income equal to the Gross Domestic Product at market prices, plus investment income received from non-residents, less investment income paid to non-residents.

Holding gains and losses. Additions to or subtractions from income which result from selling an asset for more or less than its purchase price. As holding gains and losses are not related to current production, they are excluded from GDP through the inventory valuation adjustment.

Households. A group of persons who share the same living accommodation, pool some, or all of their income and wealth and consume certain goods and services collectively. They may engage in any other kind of economic activity.

Implicit price indexes. Also known as variable-weighted or "Paasche" indexes (although not strictly of the Paasche type), these price indexes are a by-product of the deflation procedure, obtained by dividing an expenditure series expressed at current prices by the corresponding series expressed at constant prices.

Imports of goods and services. See exports and imports of goods and services.

Income and outlay account. This account shows, for each major sector, all sources of current income (production, receipts of property income and other transfers) and all current outlays (expenditure on goods and services, payments of property income and other transfers), as well as saving, equal to a sector's income less its outlay.

Indirect taxes. Taxes which add to the cost of production and are likely to be reflected in market prices paid by the purchaser, such as sales and excise taxes, import duties and property taxes.

Inheritances and migrants' funds. Capital brought to Canada by immigrants at the time of arrival or transferred outside Canada by emigrants at time of departure, or intended to be transferred at a later date, plus bequests to Canadian residents from non-residents or vice-versa.

Interest and miscellaneous investment income. Investment income of persons, except dividends, plus government investment income, less net investment income of persons and governments from non-residents, less the transfer portion of interest on the consumer debt, less the interest on the public debt.

Interest on the consumer debt. Interest paid by persons on account of liabilities incurred to finance personal expenditure on consumer goods and services. Consists of two parts: the administrative expenses, representing the cost of rendering services to borrowers, and the remaining "transfer portion".

Interest on the public debt. Interest payments on liabilities of the government sector.

Inventory valuation adjustment. The difference between the change in inventory book values and the value of physical change in inventories, which is a measure of the net holding gain or loss realized by business as a result of price changes. Holding gains and losses on inventories are present in corporation profits and other income aggregates, and must be removed in order to measure the value of current production.

Investment in fixed capital. Synonym of gross fixed capital formation.

Investment in inventories. Change in the physical volume of business and government inventories, valued at the average market prices of the period. Business inventories consist of two categories: a) non-farm inventories and b) farm inventories and grain in commercial channels. Government inventories include only uranium stocks, up to 1981, and those held by federal government commodity agencies, such as the Canadian Dairy Commission. Abbreviated as inventories in the capital and financial account.

Investment income of persons. Interest on deposits, bonds, mortgages, etc. and royalties paid by corporations, governments and non-residents to persons, plus investment income accumulating on their behalf in trusteed pension plans and life insurance funds, or on behalf of other associations of individuals. Excludes dividends.

Investment income paid to non-residents. Investment income payments on Canadian liabilities to non-residents, inclusive of any applicable withholding taxes. Includes interest, dividends and other payments such as net expenses of Canadian banks from foreign currency transactions and net revenues of foreign insurance companies from insurance operations in Canada.

Investment income received from non-residents. Investment income earned by Canadian residents on their assets abroad, inclusive of any applicable withholding taxes. Includes interest, dividends and other receipts such as net earnings of Canadian banks from foreign currency transactions and net revenues of Canadian insurance companies from insurance operations abroad.

Labour income. The sum of wages and salaries plus supplementary labour income.

Life insurance and pensions. Liability of life insurance companies and trusteed pension plans to policyholders or beneficiaries and federal government liability with respect to annuities sold under the Government Annuities Act. Asset of policy holders or beneficiaries.

Loans. Financial instrument comprising **Bank loans** and **Other loans.** Negotiated loans made by chartered banks and other financial institutions.

Machinery and equipment. Capital expenditures on durable, tangible goods with an expected service life of one year or more, such as furniture, motor vehicles, office machines and equipment not permanently installed (permanently built-in equipment belongs to non-residential construction). Includes installation and delivery costs.

Market prices. A valuation expressed in terms of the prices actually paid by the purchaser, that is, after all applicable taxes and subsidies. See **factor cost**.

Military pay and allowances. The part of labour income consisting of payments to members of the Armed Forces serving in Canada or abroad. Includes military pay, allowances and the employer's social contributions. Excludes veterans' allowances, treated as transfer payments.

Mortgages. Negotiated loans and agreements of sale secured by real property, mostly residential buildings. Includes first, second and third mortgages. Mortgages are characterized by blended repayments, usually monthly, of principal and interest.

Net acquisition of existing assets. A sector's purchases less sales of used fixed assets and land. Business purchases less sales of natural resources, resource rights and intangible assets are also included. Abbreviated as existing assets.

Net capital transfers. Capital transfers from other sectors less capital transfers to other sectors.

Net domestic product at factor cost. The sum of all incomes arising from production, or ownership of assets used in production, within the economic territory of a country or region. Includes labour income, profits before taxes, interest and miscellaneous investment income, accrued net income of farm operators from farm production, net income of non-farm unincorporated business, including rent, and the inventory valuation adjustment. Differs from GDP at factor cost in that it excludes capital consumption allowances.

Net financial investment. The net lending (or borrowing) of a sector can be measured either through incomes and expenditures or through financial transactions. Under the financial transactions approach, net lending is called net financial investment. It is equal to a sector's transactions in financial assets less its transactions in liabilities. See net lending and capital and financial account.

Net income of non-farm unincorporated business, including rent. Earnings of unincorporated proprietors, except farm operators, from their own business. Includes the

net income of unincorporated businesses and self-employed individuals, as well as the net rental income of persons.

Net income received by farm operators from farm production. Gross proceeds from the sale of farm products, plus subsidies on a cash basis, plus the imputed value of farm output consumed by farming households, plus investmen in farm inventories, less farm operating expenses and depreciation on farm buildings and equipment. Excludes other types of income, such as net rent or interest receipts, and profits of incorporated farms. See accrued net income of farm operators from farm production.

Net inheritances and migrants' funds. Funds brought to Canada by immigrants, less funds transferred outside Canada by emigrants.

Net investment income from non-residents. Investment income received from, less investment income paid to, non-residents.

Net lending. The net lending (or borrowing) of a sector can be measured either through incomes and expenditures or through financial transactions. Under the income and expenditure approach, net lending is the difference between internally generated funds and outlays on non-financial capital. A sector's net lending equals its saving, plus its capital consumption allowances and net capital transfers from non-residents, less its investment in fixed capital and inventories. See net financial investment and capital and financial account.

Net national income at factor cost. Net domestic product at factor cost plus net investment income from nonresidents.

Net rental income. Earnings of persons, after expenses, arising from the ownership of residential property, whether rented or owner-occupied, and from the rental of non-residential property.

Non-farm inventories. Inventories of raw materials, goods-in-process and finished products.

Non-financial capital acquisition. The gross fixed capital formation of a sector, plus its investment in inventories and its net acquisition of existing assets. Does not apply to the non-resident sector which, by definition, can only engage in financial investment.

Non-resident sector. All transactors who do not have a centre of economic interest (a dwelling, a business location) in the economic territory of Canada. By definition, non-residents can only engage in financial investment. Any transactor making non-financial investment is deemed to be a resident.

Non-residential structures. Construction of industrial, commercial and institutional buildings, such as plants, warehouses, shopping centres, office buildings, schools and hospitals, plus construction of highways, bridges, railway tracks, canals, waterworks, sewage systems, dams, hydro or thermal generating plants, telephone lines, oil and gas facilities, etc. Includes new construction, conversions resulting in a structural change, major renovations, permanently built-in equipment and site preparation.

Non-residential structures and equipment. The sum of business investment in non-residential structures and in machinery and equipment.

Official reserves. The sum of a) official holdings of gold and foreign exchange (U.S. dollars and deposits in other convertible currencies), b) loans to or from the International Monetary Fund on general account, and c) special drawing rights.

Other current transfers from persons to government. Transfers not classified as direct taxes. Includes hospital and medical care premiums, various licences and permits, fines and penalties, as well as donations to entities within the government sector.

Other financial assets / Other liabilities. Various items not included under other financial instruments, such as accrued interest, interest receivable or payable and prepaid expenses.

Outside Canada. Embassies and other Canadian government offices abroad which are part of the territory of Canada.

Personal disposable income. Personal income less current transfers to government.

Personal expenditure on consumer goods and services. Household spending on new consumer goods and on consumer services, plus any mark-up on used goods. Operating expenses of associations of individuals serving households are also included, under consumer services.

Personal income. The sum of all incomes received by persons residing in Canada, whether factor earnings from current production or current transfers from other sectors, plus the investment income that associations of individuals accumulate on their own behalf or on behalf of persons.

Personal saving. Personal disposable income less personal expenditure on consumer goods and services, less current transfers from persons to corporations and to non-residents.

Personal sector. All persons, households and associations of individuals serving households.

Persons and unincorporated business sector. Transactors of the personal sector plus those of the unincorporated business sector. In the capital and financial account, transactions of these two sectors are consolidated. In addition, in this account, although credit unions, life insurance companies and trusteed pension plans appear as sub-sectors of the corporate and government business enterprise sector, their transactions in financial assets are balanced by liabilities which, in turn, are recorded as assets of the persons and unincorporated business sector.

Reinvested earnings of direct investment enterprises. Profits earned on, less dividends received from, direct foreign investment. From 1961, equity income from direct foreign investment is recorded on an accrual rather than cash basis in the Balance of International Payments. This gives rise to an additional reconciliation item between the former and the National Economic and Financial Accounts, in which this change has not been incorporated.

Residential structures. Construction of dwellings (subdivided into single, semi-detached, row housing and apartments), garages, cottages and mobile homes. Includes new construction, conversions resulting in a structural change and major renovations (together referred to as "alterations and improvements"), permanently built-in equipment, site preparation and transfer costs such as real estate commissions.

Saving. The current income of a sector, less its current expenditure. Includes current transfers but excludes capital consumption allowances and capital transfers. Referred to as gross saving when it includes capital consumption allowances.

Sector accounts. The quarterly national accounts now include the full sector accounts, previously only released on an annual basis. These sector accounts record the income, outlay, saving, non-financial and financial investment, borrowing and net lending for the four main sectors: a) persons and unincorporated businesses; b) corporations and government business enterprises; c) government; and d) non-residents. See income and outlay account and capital and financial account.

Shares. Financial instrument consisting of common and preferred shares (including term preferred shares and mutual fund shares), plus contributed surplus. Stock issued by a government business enterprise to a parent government is classified to government claims.

Short-term paper. Marketable financial instrument comprising:

Government of Canada short-term paper. Treasury bills, which are notes of original term to maturity of less than one year, issued at a discount and sold at auction every week; also includes Canada bills issued in foreign currency.

Other short-term paper. Notes of original term to maturity of one year or less, issued at a discount by a variety of financial and non-financial institutions; includes provincial and municipal Treasury bills.

Statistical discrepancy. Double-entry bookkeeping is fundamental in national accounting and several aggregates, such as GDP and net lending, can be calculated in two or more ways. In principle, all the measures of an aggregate are equal. In practice, differences invariably arise between them due to imperfections in basic statistics and estimation techniques. This difference is called a statistical discrepancy and serves as the balancing item between two theoretically equal aggregates. It can be recorded as is, like the discrepancy between the two estimates of net lending or it can be divided in two, one half being subtracted from the higher estimate and the other, added to the lower one, like the discrepancy between income-based and expenditure-based GDP.

Subsidies. Transfers from government to the business sector toward current costs of production. These transfers represent additions to the income of producers from current production.

Supplementary labour income. Employers' social contributions, either compulsory or voluntary. Includes retirement allowances and contributions to employment insurance, the Canada and Quebec Pension Plans, other pension plans, workers' compensation, medicare, dental plans, short- and long-term disability insurance, etc.

Surplus or deficit of Canada on current transactions with non-residents. Exports of goods and services less imports of goods and services, plus net investment income from non-residents and net current transfers from non-residents.

Surplus or deficit on current account in the "Canadian Balance of International Payments". The surplus or deficit of Canada on current transactions with non-residents plus net reinvested earnings on direct investment.

Trade accounts receivable/payable. Short-term credit advanced or received in the ordinary course of business by suppliers or buyers of business goods and services.

Transactors. Economic agents who engage in transactions involving the purchase and sale of goods and services and the payment and receipt of factor incomes and transfers.

Transfers. Cash, good, service, or asset other than cash transferred by one transactor to another without counterpart, that is, without the donor receiving anything in return. See **current transfers** and **capital transfers**.

Unincorporated business sector. All business transactors whose legal form of organization is not the corporation. Includes independent business operators, self-employed farmers, fishermen and professionals and unincorporated landlords (including those renting to themselves).

Wages and salaries. Total remuneration, in cash or in kind, paid to employees in return for work done. It is recorded on a gross basis, before any deduction for income taxes, pensions, unemployment insurance and other social insurance schemes. Also includes other forms of compensation, namely commissions, tips, bonuses, directors' fees and allowances such as those for holidays and sick leave, as well as military pay and allowances. Excludes employers' social contributions, which are treated as supplementary labour income.

Withholding taxes. Taxes withheld by the Government of Canada on selected income and service payments to non-residents, or withheld by foreign governments on selected income and service payments to Canadian residents.

Glossaire

Acquisition de capital non financier. La formation brute de capital fixe d'un secteur, plus son investissement en stocks et son acquisition nette d'actifs existants. Ne s'applique pas au secteur des non-résidents qui, par définition, réalise seulement des investissements financiers.

Acquisition nette d'actifs existants. Acquisitions moins cessions, par un secteur, d'actifs tangibles usagés et de terrains. Pour les entreprises, englobe aussi les acquisitions moins cessions de ressources naturelles, droits miniers et actifs intangibles. Abrégé comme actifs existants.

Actifs existants. Voir acquisition nette d'actifs existants.

Actions. Instrument financier englobant les actions ordinaires et privilégiées (y compris actions privilégiées à échéance déterminée et actions des fonds mutuels) ainsi que le surplus d'apport. Les actions émises par une entreprise publique à l'administration mère sont classées sous créances, administrations.

Agents. Agents économiques qui effectuent des opérations visant l'achat et la vente de biens et services et qui versent ou recoivent des revenus de facteurs et des transferts.

Ajustement de la valeur des stocks. Écart entre la variation des valeurs comptables des stocks et la valeur de la variation matérielle des stocks, qui mesure le gain (ou perte) de détention net réalisé par l'entreprise à la suite de variations de prix. Les gains ou pertes de détention sur stocks se retrouvent dans les bénéfices des sociétés et dans d'autres agrégats du revenu et doivent être enlevés en vue de mesurer la valeur de la production courante.

Argent liquide et dépôts. Instruments financiers incluant:

Argent liquide et dépôts bancaires. Dépôts en dollars canadiens dans les banques à charte au Canada et à la Banque du Canada, billets canadiens et monnaie en circulation.

Autres dépôts. Tous les dépôts dans les autres institutions de dépôt, y inclus parts dans les caisses d'épargne et de crédit.

Devises et dépôts étrangers. Avoirs et dépôts en devises étrangères dans les banques à charte au Canada, leurs succursales et filiales à l'étranger, les banques étrangères et les autres institutions de dépôt étrangères.

Associations de particuliers. Institutions sans but lucratif au service des ménages, telles églises, syndicats et organismes de charité, ainsi que caisses d'épargne et de crédit, régimes de pensions en fiducie, sociétés d'assurance-vie, sociétés de secours mutuel et compagnies mutuelles d'assurance générale. Elles sont traitées en entreprises quant à leurs dépenses de capital et leurs activités d'intermédiation, et en particuliers quant à leurs dépenses courantes.

Assurance-vie et rentes. Engagement des sociétés d'assurance-vie et des régimes de pensions en fiducie envers les assurés ou les bénéficiaires et de l'administration fédérale à l'égard des rentes vendues en vertu de la Loi relative aux rentes sur l'État. Actif des assurés ou des bénéficiaires

Autres éléments d'actif / de passif. Divers postes non inclus dans les autres instruments financiers, tels intérêts courus, intérêt à payer ou à recevoir et charges payées d'avance.

Autres transferts courants des particuliers aux administrations. Transferts non classés comme impôts directs. Comprend les primes d'assurance-hospitalisation et santé, divers licences et permis (permis de chasse et pêche, licences de mariage), les amendes et pénalités, la part des particuliers des licences et permis pour véhicules automobiles ainsi que les dons aux hôpitaux.

Bâtiments résidentiels. Construction de logements (subdivisés en logements individuels, logements semidétachés, maisons en rangée et appartements), garages, chalets et maisons mobiles. Englobe la construction neuve, les rénovations majeures et les conversions entraînant un changement de structure (dites "améliorations et modifications"), le matériel incorporé de façon permanente, la préparation du site et les coûts de transfert comme les commissions immobilières.

Bénéfices des sociétés avant impôts. Gains nets résultant de l'activité économique des sociétés privées, mesurés après déduction des provisions pour consommation de capital.

Bénéfices réinvestis d'entreprises d'investissement direct. Bénéfices réalisés sur, moins dividendes reçus de, l'investissement étranger direct. À compter de 1961, le revenu sur l'avoir au titre d'investissement étranger direct est inscrit sur une base d'exercice plutôt que de caisse dans la Balance des paiements internationaux. Il en résulte un poste de rapprochement additionnel entre cette dernière et les comptes économiques et financiers nationaux dans lesquels ce changement n'a pas été introduit.

Biens de consommation. Biens neufs acquis par les ménages pour consommation propre. Comprend trois catégories: a) biens durables, utilisables de façon répétée ou continue durant plus d'un an, tels véhicules et gros appareils ménagers; b) biens semi-durables, utilisables en de multiples occasions et d'une durée utile anticipée d'un an

ou un peu plus, tels vêtements, chaussures et linge de maison; c) biens non durables, utilisables une seule fois, tels aliments, essence, boissons alcoolisées et tabac; en pratique, ces derniers comprennent aussi quelques biens de peu de valeur utilisables plus d'une fois, comme des fournitures ménagères.

Céréales en circuit commercial. Céréales détenues par la Commission canadienne du blé ou des négociants privés.

Compte des revenus et dépenses. Ce compte montre, pour chaque grand secteur, toutes les sources de revenu courant (production, revenus de propriété reçus et autres transferts) et toutes les dépenses courantes (dépenses en biens et services, revenus de propriété versés et autres transferts), ainsi que l'épargne, égale au revenu d'un secteur moins sa dépense.

Compte du capital et financier. Ce compte montre, pour chaque grand secteur, a) l'épargne et l'acquisition de capital non financier, et l'écart entre les deux, appelé le prêt net; et b) les transactions sur actifs financiers, les transactions sur passif et l'écart entre les deux, appelé l'investissement financier net. En théorie, les deux postes d'équilibre, prêt net et investissement financier net, sont égaux; en pratique, les imperfections dans les statistiques engendrent un écart entre les deux, montré comme une divergence statistique.

Comptes à recevoir / à payer. Crédit à court terme accordé ou reçu dans le cours ordinaire des affaires par des fournisseurs ou acheteurs de biens et services commerciaux.

Comptes sectoriels. Les comptes nationaux trimestriels comprennent désormais des comptes sectoriels complets, diffusés auparavant uniquement sur une base annuelle. Ces comptes sectoriels comptabilisent le revenu, les dépenses, l'épargne, l'investissement, non financier et financier, l'emprunt et le prêt net, pour les quatre grands secteurs: a) particuliers et entreprises individuelles; b) sociétés et entreprises publiques; c) administrations; et d) non-résidents. Voir compte des revenus et dépenses et compte du capital et financier.

Cotisations aux régimes d'assurance sociale. Cotisations des employeurs et salariés à l'assuranceemploi, aux régimes de pensions de la fonction publique, aux Régimes de pensions du Canada et de rentes du Québec et aux caisses de santé et sécurité au travail.

Coût des facteurs. Une évaluation traduisant le coût des facteurs de production (travail et capital). Elle correspond à la valeur restante, une fois enlevés des prix du marché tous les impôts et subventions applicables.

Créances. Instrument financier incluant:

Créances, entreprises. Prêts, avances et titres de

dette entre sociétés liées; du côté de l'actif, englobe aussi placements sous forme d'actions entre sociétés liées.

Créances, administrations. Créances entre administrations, entre entreprises publiques liées ou entre une administration et ses entreprises sous forme d'actions, titres de dette, prêts et avances.

Crédit à la consommation. Crédit accordé aux particuliers pour l'achat de biens et services de consommation.

Demande intérieure finale. Somme des dépenses personnelles en biens et services de consommation, des dépenses courantes nettes des administrations en biens et services, de la formation brute de capital fixe des administrations ainsi que celle des entreprises.

Dépenses courantes des administrations en biens et services. Toutes les dépenses courantes en biens et services du secteur des administrations publiques, y compris salaires et traitements des employés de l'État. Englobe aussi l'armement et une imputation pour la dépréciation du capital fixe des administrations. Elles sont comptabilisées avant déduction des recettes tirées de la vente de biens et services dans le compte des revenus et dépenses des administrations et après déduction de ces recettes dans le PIB (dépenses courantes nettes des administrations en biens et services).

Dépenses personnelles en biens et services de consommation. Dépenses des ménages en biens de consommation neufs et en services de consommation, et marges sur biens usagés. Les dépenses de fonctionnement des associations de particuliers au service des ménages sont aussi incluses, sous "services de consommation".

Divergence statistique. La comptabilité en partie double est à la base de la comptabilité nationale et plusieurs agrégats, comme le PIB et le prêt net, peuvent être calculés de deux façons ou plus. En théorie, toutes les mesures d'un agrégat sont égales. En pratique, des écarts surviennent immanquablement entre elles en raison d'imperfections dans les statistiques. Cet écart est appelé divergence statistique et sert de poste d'équilibre entre deux estimations théoriquement égales. Il peut être comptabilisé tel quel, comme la divergence entre les deux estimations du prêt net, ou il peut être divisé en deux, une moitié étant soustraite de l'estimation la plus élevée, et l'autre ajoutée à la plus basse, comme la divergence entre l'estimation du PIB en termes de revenus et celle en termes de dépenses.

Dividendes. Revenu payable ou recevable à l'égard de titres de propriété (dividendes en espèces) et participation accrue à la propriété de sociétés (dividendes sous forme d'actions).

Effets à court terme. Instrument financier négociable incluant:

Effets à court terme du Gouvernement du Canada. Bons du Trésor, soit des billets à ordre du porteur d'une échéance originale de moins d'un an, émis à escompte et vendus aux enchères chaque semaine; comprend aussi les "Bons du Canada" émis en devises étrangères.

Autres effets à court terme. Billets d'une échéance originale d'un an ou moins, émis à escompte par diverses institutions financières et non financières; comprend les bons du Trésor provinciaux et municipaux.

Entreprises publiques. Entreprises et agences publiques à but lucratif ou visant à recouvrer leurs coûts et dont la motivation est semblable à celle des entreprises privées. Leurs bénéfices totaux (pertes déduites) sont comptabilisés dans le PIB, alors que leurs bénéfices versés le sont dans le compte des revenus et dépenses des administrations, sous revenus de placements. L'écart entre ces deux mesures, les bénéfices non répartis, fait partie de l'épargne du secteur des entreprises.

Épargne. Le revenu courant d'un secteur moins ses dépenses courantes. Comprend les transferts courants mais exclut les provisions pour consommation de capital et transferts de capitaux. L'agrégat est appelé épargne brute s'il englobe les provisions pour consommation de capital.

Épargne personnelle. Revenu personnel disponible moins dépenses personnelles en biens et services de consommation, moins transferts courants des particuliers aux sociétés et aux non-résidents.

Excédent ou déficit du Canada au titre des opérations courantes avec les non-résidents. Exportations de biens et services moins importations de biens et services, plus revenus de placements nets reçus des non-résidents, plus transferts courants nets reçus des non-résidents.

Excédent ou déficit du compte courant d'après la balance canadienne des paiements internationaux. Excédent ou déficit du Canada au titre des opérations courantes avec les non-résidents, plus valeur nette des successions et des capitaux des migrants.

Exportations et importations de biens et services. Recettes et paiements courants au titre de transactions portant sur des biens meubles et des services entre résidents et non-résidents. Les services comprennent les voyages, les frais de transport, les services commerciaux, les opérations gouvernementales, l'intermédiation financière et d'autres services.

Extérieur du Canada. Ambassades et autres bureaux du gouvernement du Canada à l'étranger, qui font partie du territoire du Canada.

Formation brute de capital fixe. Dépenses par le secteur des entreprises et celui des administrations en immeubles. travaux de génie et machines et matériel. Comprend les importations de machines et matériel usagés, qui viennent accroître le stock de capital productif au pays, et les coûts de transfert sur la vente d'actifs existants (commissions immobilières par exemple). Renferme trois grandes bâtiments résidentiels. ouvrages catégories: résidentiels, et machines et matériel. La formation brute de capital fixe des administrations comprend les bâtiments et l'équipement de la défense à des fins non militaires. Abrégé en capital fixe dans le compte de capital et financier. Synonyme d'investissement en capital fixe.

Gains et pertes de détention. Additions au, ou déductions du, revenu résultant de la vente d'un actif à un prix supérieur ou inférieur à son prix d'acquisition. Comme les gains et pertes de détention ne sont pas reliés à la production courante, ils sont exclus du PIB au moyen de l'ajustement de la valeur des stocks.

Hypothèques. Prêts négociés et accords de vente garantis par des biens immobiliers, surtout des immeubles résidentiels. Comprend les première, deuxième et troisième hypothèques. Les hypothèques sont caractérisées par le remboursement, en général mensuel, d'un mélange de capital et d'intérêts.

Importations de biens et services. Voir exportations et importations de biens et services.

Impôts directs. Transferts courants aux administrations par les particuliers, entreprises individuelles, sociétés et entreprises publiques sous forme d'impôts prélevés sur le revenu d'emploi, la propriété, les gains en capital ou toute autre source. Les impôts directs des particuliers sont inscrits sur une base de caisse, et ceux des sociétés et des entreprises publiques le sont sur une base d'exercice.

Impôts directs des particuliers. Impôts sur le revenu et droits et impôts successoraux versés par les particuliers et les entreprises individuelles.

Impôts indirects. Impôts qui s'ajoutent au coût de production et se retrouvent probablement dans le prix du marché payé par l'acheteur, tels taxes de vente et d'accise, droits à l'importation et impôts fonciers.

Indices de prix à pondération fixe. Également appelés indices "Laspeyres", indices de prix dans lesquels un panier fixe de dépenses pour une période de référence donnée sert à agréger les indices de prix détaillés à chaque période.

Indices de prix en chaîne. Indices de prix dans lesquels les valeurs de l'indice agrégé à partir d'indices de prix détaillés pour deux périodes adjacentes sont basées sur le panier de dépenses de la première des deux périodes et raccordées ensemble en une chaîne pour former l'indice.

Indices de volume en chaîne Fisher. Une mesure de la variation en volume d'une période à l'autre. Elle est calculée comme la moyenne géométrique d'un indice de volume en chaîne Paasche et d'un indice de volume en chaîne Laspeyres. En d'autres termes, c'est la moyenne de deux mesures distinctes en volume: une calculée comme si les prix étaient constants dans la première des deux périodes adjacentes (volume de Laspeyres) et l'autre, comme si les prix étaient constants dans la seconde des deux périodes adjacentes (volume de Paasche).

Indices implicites de prix. Également appelés indices à pondération variable ou "Paasche" (sans être strictement de type Paasche), ces indices sont un sous-produit de la procédure de déflation et sont obtenus en divisant une série des dépenses exprimées en prix courants par la série correspondante exprimée en prix constants.

Intérêts et revenus divers de placements. Revenus de placements des particuliers, sauf dividendes, plus revenus de placements des administrations, moins revenus nets de placements reçus des non-résidents par les particuliers et les administrations, moins la partie "transfert" des intérêts sur la dette de consommation, moins le service de la dette publique.

Intérêts sur la dette de consommation. Intérêts versés par les particuliers sur des engagements encourus pour financer des dépenses personnelles en biens et services de consommation; comprend deux parties: les frais d'administration, correspondant au coût des services rendus aux emprunteurs, et la partie résiduelle, dite "transfert".

Intérêts sur la dette publique. Intérêts sur les engagements du secteur des administrations publiques.

Investissement en capital fixe. Synonyme de **formation** brute de capital fixe.

Investissement en stocks. Variation du volume matériel des stocks détenus par les entreprises et les administrations, évaluée aux prix moyens du marché au cours de la période. Les stocks des entreprises renferment deux catégories: a) stocks non agricoles et b) stocks agricoles et céréales en circuit commercial. Les stocks des administrations englobent seulement des stocks d'uranium, jusqu'en 1981, et ceux détenus par des agences fédérales comme la Commission canadienne du lait. Abrégé en stocks dans le compte du capital et financier.

Investissement financier net. Le prêt (ou emprunt) net d'un secteur peut être mesuré soit par les revenus et dépenses, soit par les transactions financières. Dans l'approche des transactions financières, le prêt net est appelé investissement financier net. Pour un secteur, il est égal à ses transactions sur actifs financiers moins ses transactions sur passif. Voir prêt net et compte du capital et financier.

Investissements étrangers. Tous les instruments financiers négociables (actions, obligations et effets à court terme) inscrits au passif du secteur des non-résidents (sociétés, gouvernements étrangers) et à l'actif de secteurs intérieurs.

Machines et matériel. Dépenses d'immobilisations en biens matériels durables d'une durée utile anticipée d'un an ou plus, tels meubles, véhicules, machines de bureau et équipement non installé en permanence (celui incorporé de façon permanente fait partie des ouvrages non résidentiels). Englobe le coût de livraison et d'installation.

Ménages. Un groupe de personnes qui partagent un logement, mettent ensemble toutes, ou partie, de leurs revenus et richesse et consomment certains biens et services collectivement. Ils peuvent aussi exercer n'importe quelle autre activité économique.

Obligations. Titres, négociables ou non, émis en devises canadiennes ou étrangères ayant une échéance originale de plus d'un an. Comprend:

Obligations fédérales. Obligations directes du gouvernement fédéral (dont, obligations d'épargne du Canada) et obligations garanties des entreprises fédérales.

Obligations provinciales. Obligations directes (dont, obligations d'épargne) des administrations provinciales et obligations garanties des entreprises provinciales.

Obligations municipales. Obligations des administrations municipales et obligations garanties des entreprises municipales.

Autres obligations. Obligations négociables émises par les sociétés canadiennes, les hôpitaux et les organismes sans but lucratif, et obligations non garanties des entreprises publiques

Ouvrages non résidentiels. Érection de bâtiments industriels, commerciaux et institutionnels, tels usines, entrepôts, centres commerciaux, édifices à bureaux, écoles et hôpitaux, et construction de routes, ponts, voies ferrées, canaux, réseaux d'adduction d'eau, égouts, barrages, centrales électriques ou thermiques, lignes téléphoniques, installations pétrolières et gazières, etc. Englobe construction neuve, conversions entraînant un changement de structure, rénovations majeures, matériel incorporé de façon permanente et préparation du site.

Ouvrages non résidentiels et équipement. Somme de l'investissement des entreprises en ouvrages non résidentiels et en machines et matériel.

Prêts / Emprunts. Instrument financier comprenant prêts/ emprunts bancaires et autres prêts/emprunts. Prêts négociés, offerts surtout par les banques à charte et autres institutions financières.

Prêt net. Le prêt (ou emprunt) net d'un secteur peut être mesuré soit par les revenus et dépenses, soit par les transactions financières. Selon l'approche des revenus et dépenses, le prêt net est l'écart entre les fonds d'origine interne et l'investissement en capital non financier. Le prêt net d'un secteur égale son épargne, plus ses provisions pour consommation de capital et les transferts nets de capitaux des non-résidents, moins son investissement en capital fixe et en stocks. Voir investissement financier net et compte du capital et financier.

Prix constants. Une évaluation exprimée aux prix ayant cours dans une période de référence fixe. À l'heure actuelle, la période de référence des estimations des comptes nationaux en prix constants est 1992, ce qui signifie que celles-ci sont exprimées en prix de 1992. Voir prix courants.

Prix courants. Une évaluation en prix courants est exprimée aux prix ayant cours dans la période à laquelle il est fait référence. Voir **prix constants**.

Prix du marché. Une évaluation exprimée en termes des prix effectivement payés par l'acheteur, c'est-à-dire après prise en compte de tous les impôts et subventions applicables. Voir **coût des facteurs**.

Produit intérieur brut. Valeur sans double compte des biens et services produits dans le territoire économique d'un pays ou d'une région au cours d'une période donnée. Le PIB peut être calculé de trois façons, soit comme la somme des revenus gagnés dans la production courante, la somme des ventes finales de la production courante ou la somme des valeurs ajoutées nettes dans la production courante. Il peut être évalué au coût des facteurs ou aux prix du marché.

Produit intérieur net au coût des facteurs. Somme de tous les revenus engendrés par la production, ou la propriété d'actifs servant à la production, dans le territoire économique d'un pays ou d'une région. Comprend rémunération des salariés, bénéfices avant impôts, intérêts et revenus divers de placements, revenu comptable net des exploitants agricoles au titre de la production agricole, revenu net des entreprises individuelles y compris les loyers et ajustement de la valeur des stocks. Diffère du PIB au coût des facteurs en ce qu'il exclut les provisions pour consommation de capital.

Produit national brut. Une mesure de revenu égale au Produit intérieur brut, plus les revenus de placements reçus des non-résidents, moins les revenus de placements versés aux non-résidents.

Provisions pour consommation de capital. Provisions pour tenir compte de l'usure du capital dans le processus productif. Elles sont calculées à l'égard des actifs fixes des entreprises et administrations ainsi que des logements. Englobe aussi divers ajustements de valeur visant à rendre les dossiers comptables des entreprises conformes aux définitions de la comptabilité nationale, telle l'addition des prestations versées par les compagnies d'assurance pour compenser les pertes dues aux incendies.

Régime de pensions du Canada et régime de rentes du Québec. La partie du secteur des administrations qui concerne les opérations du Régime de pensions du Canada et du Régime de rentes du Québec, créés en 1966.

Rémunération des salariés. Somme des salaires et traitements et du revenu supplémentaire du travail. Appelé aussi "revenu du travail".

Réserves officielles. Somme de a) avoirs officiels en or et devises étrangères (dollars américains et dépôts en autres devises étrangères convertibles), b) prêts au, et emprunts du, compte général du Fonds monétaire international, et c) droits de tirage spéciaux.

Résidents canadiens. Unités institutionnelles, tels particuliers, sociétés et institutions sans but lucratif, qui ont un centre d'intérêt économique (logement ou place d'affaire) dans le territoire économique du Canada.

Retenues fiscales. Impôts retenus par le gouvernement du Canada sur certains paiements de revenus ou de services faits à des non-résidents, ou retenus par les gouvernements étrangers sur certains paiements de revenus ou services faits à des résidents canadiens.

Revenu comptable net des exploitants agricoles au titre de la production agricole. Revenu net reçu par les exploitants agricoles au titre de la production agricole, plus la part non répartie des bénéfices sur les opérations de la Commission canadienne du blé et l'ajustement apporté pour exprimer les subventions agricoles sur une base d'exercice plutôt que comptable.

Revenu national net au coût des facteurs. Produit intérieur net au coût des facteurs, plus les revenus nets de placements des non-résidents.

Revenu net de loyers. Gains des particuliers, après déduction des dépenses, tirés de la propriété résidentielle, qu'elle soit louée ou occupée par le propriétaire, et de la location de propriété non résidentielle.

Revenu net des entreprises individuelles non agricoles, loyers compris. Gains des propriétaires individuels, sauf les exploitants agricoles, au titre de leur propre entreprise. Englobe le revenu net des entreprises individuelles et des travailleurs à leur propre compte ainsi que le revenu net de loyers des particuliers.

Revenu net reçu par les exploitants agricoles au titre de la production agricole. Recettes brutes de la vente de produits agricoles, plus subventions sur une base de caisse, plus valeur imputée de la production agricole consommée par les ménages sur les fermes, plus investissement en stocks agricoles, moins dépenses d'exploitation agricoles et dépréciation sur les bâtiments et le matériel agricoles. Exclut les autres revenus, tels loyers nets ou revenus d'intérêt et les bénéfices des exploitations constituées en sociétés. Voir revenu comptable net des exploitants agricoles au titre de la production agricole.

Revenu personnel. Somme de tous les revenus reçus par les particuliers résidant au Canada, qu'il s'agisse de gains de facteurs au titre de la production courante ou de transferts courants d'autres secteurs, plus revenus de placements que les associations de particuliers accumulent pour leur propre compte ou celui des particuliers.

Revenu personnel disponible. Revenu personnel moins transferts courants aux administrations.

Revenu supplémentaire du travail. Cotisations sociales des employeurs, obligatoires ou facultatives. Comprend les allocations de retraite et les cotisations à l'assurance-emploi, au Régime de pensions du Canada, au Régime de rentes du Québec, aux autres régimes de pensions, aux caisses de santé et sécurité au travail, à l'assurance-santé, aux régimes de soins dentaires, à l'assurance-invalidité à court ou à long terme, etc.

Revenus de placements des administrations publiques. Dans le PIB, englobe les revenus d'intérêts des régimes de pension de la fonction publique, d'autres revenus d'intérêts et de dividendes des administrations et les redevances. Dans le compte des revenus et dépenses des administrations, comprend aussi les bénéfices versés par les entreprises publiques aux administrations. Voir entreprises publiques.

Revenus de placements des particuliers. Intérêts (sur dépôts, obligations, hypothèques, etc.) et redevances versés par les sociétés, les administrations et les non-résidents aux particuliers, plus revenus de placements s'accumulant à leur profit dans les régimes de pensions en fiducie et les caisses d'assurance-vie, ou au profit d'autres associations de particuliers. Exclut les dividendes.

Revenus de placements reçus des non-résidents. Revenus de placements gagnés par les résidents canadiens sur leurs actifs à l'étranger, incluant toutes les retenues fiscales applicables. Englobe intérêts, dividendes et autres revenus tels gains nets des banques canadiennes sur des transactions en devises étrangères et des compagnies d'assurance canadiennes de leur activité à l'étranger.

Revenus de placements versés aux non-résidents. Revenus de placements sur des engagements canadiens envers des non-résidents, incluant toutes les retenues fiscales applicables. Englobe intérêts, dividendes et autres paiements comme les dépenses nettes des banques canadiennes sur des transactions en devises étrangères et les revenus nets des compagnies d'assurance étrangères de leur activité au Canada.

Revenus nets de placements des non-résidents. Revenus de placements reçus des, moins revenus de placements versés aux, non-résidents.

Salaires et traitements. Rémunération totale, en espèces ou en nature, versée à des salariés pour un travail exécuté. Elle est inscrite sur une base brute, avant toute déduction pour les impôts sur le revenu, les pensions, l'assurance-chômage et les autres régimes d'assurance sociale. Englobe aussi d'autres types de rémunération, soit commissions, pourboires, primes de rendement, honoraires des directeurs et allocations pour vacances et congés de maladie, ainsi que solde et indemnités militaires. Exclut les cotisations sociales des employeurs, qui sont traitées comme revenu supplémentaire du travail.

Secteur des administrations publiques. Tous les ministères, agences et fonds généraux (budgétaires et non budgétaires) des administrations fédérale, provinciales et locales, y compris les sociétés de la couronne qui tirent plus de 50% de leurs revenus de transferts de l'administration mère. Englobe aussi les conseils scolaires, les universités, les collèges à but non lucratif, les hôpitaux, et les centres d'hébergement à but non lucratif, ainsi que le Régime de pensions du Canada et le Régime de rentes du Québec.

Secteur des entreprises. Tous les agents produisant des biens et services vendus à un prix censé couvrir le coût de production, soit sociétés, entreprises publiques, entreprises individuelles et professionnels à leur propre compte. Englobe aussi les propriétaires occupant leur logement, traités en entreprises louant à elles-mêmes, et les associations de particuliers, traitées en entreprises quant à leurs dépenses de capital et leurs activités d'intermédiation.

Secteur des entreprises individuelles. Tous les agents du secteur des entreprises qui ne sont pas légalement constitués en sociétés. Englobe les propriétaires d'entreprises indépendants, les fermiers, pêcheurs et professionnels à leur propre compte et les propriétaires de logements non constitués en sociétés (y compris propriétaires-occupants).

Secteur des non-résidents. Tous les agents qui n'ont pas de centre d'intérêt économique (logement ou place d'affaire)

dans le territoire économique du Canada. Par définition, les non-résidents font seulement de l'investissement financier. Tout agent faisant un investissement non financier est considéré comme résident.

Secteur des particuliers. Tous les particuliers, ménages et associations de particuliers au service des ménages.

Secteur des particuliers et entreprises individuelles. Agents du secteur des particuliers, plus ceux du secteur des entreprises individuelles. Dans le compte du capital et financier, les transactions de ces deux secteurs sont consolidées. En outre, dans ce compte, bien que les caisses d'épargne et de crédit, les sociétés d'assurance-vie et les régimes de pensions en fiducie figurent comme soussecteurs de celui des sociétés et entreprises publiques, leurs transactions en actifs financiers sont équilibrées par des créances à leur tour inscrites à l'actif du secteur des particuliers et entreprises individuelles.

Secteur des sociétés et des entreprises publiques. Tous les agents du secteur des entreprises légalement constitués en sociétés, plus les entreprises publiques. Ce secteur est divisé en entreprises non financières et financières, lesquelles sont subdivisées en plusieurs sous-secteurs (Banque du Canada, banques à charte, caisses d'épargne, sociétés d'assurance-vie, régimes de pensions en fiducie, fonds mutuels, etc.). Les activités d'intermédiation des caisses d'épargne et de crédit, sociétés d'assurance-vie et régimes de pensions en fiducie figurant à l'actif de ces sous-secteurs sont équilibrées par des créances à leur passif, inscrites à leur tour à l'actif du secteur des particuliers et entreprises individuelles.

Services de consommation. Services consommés par les ménages, tels loyer (y compris le loyer imputé aux propriétaires-occupants), transports, éducation, soins médicaux, garde des enfants, hébergement et restauration ainsi que dépenses de voyage des Canadiens à l'étranger, moins dépenses de voyage des étrangers au Canada. Englobe aussi les dépenses de fonctionnement des associations de particuliers.

Solde et indemnités militaires. Partie de la rémunération des salariés qui consiste en paiements aux membres des Forces armées en service au Canada et à l'étranger. Englobe la solde, les indemnités militaires et les cotisations sociales de l'employeur. Exclut les allocations aux anciens combattants, traitées en paiements de transfert.

Stocks agricoles. Production agricole détenue sur les fermes; englobe céréales, tabac, pommes de terre et bétail.

Stocks non agricoles. Stocks de matières premières, de produits en cours et de produits finis.

Subventions. Transferts des administrations au secteur des entreprises, visant les coûts de production courants. Ces

transferts viennent s'ajouter au revenu des producteurs au titre de la production courante.

Successions et capitaux des migrants. Capitaux apportés au Canada par les immigrants à l'arrivée ou transférés hors du pays par les émigrants lors du départ, ou sommes censées être transférées à une date ultérieure, plus héritages versés à des résidents canadiens par des non-résidents ou vice versa.

Territoire économique. Le territoire économique d'un pays englobe le territoire géographique, plus l'espace aérien, les eaux territoriales et le plateau continental, ainsi que les enclaves territoriales de ce pays à l'étranger (ambassades, consulats, bases militaires...).

Transferts. Argent, bien, service ou actif autre que de l'argent transféré d'un agent à un autre sans contrepartie, c'est-à-dire sans que le donateur reçoive quelque chose en retour. Voir transferts courants et transferts de capitaux.

Transferts courants. Transferts provenant du revenu du donateur, diminuant son épargne et accroissant celle du bénéficiaire.

Transferts courants des administrations aux entreprises. Subventions au secteur des entreprises.

Transferts courants des administrations aux nonrésidents. Pensions versées aux non-résidents et contributions officielles (aide alimentaire ainsi qu'assistance économique et technique fournies aux pays en voie de développement par l'Agence canadienne de développement international, les autres agences gouvernementales et les organisations non gouvernementales).

Transferts courants des administrations aux particuliers. Paiements tels prestations fiscales et crédits d'impôt pour enfants, prestations d'assurance-emploi, pensions de vieillesse, prestations de bien-être social, bourses et subventions de recherche, prestations d'indemnisation des accidents de travail, subventions aux autochtones et à leurs organisations, pensions de la fonction publique et pensions versées en vertu du Régime de pensions du Canada et du Régime de rentes du Québec.

Transferts courants des non-résidents aux administrations. Retenues fiscales versées au gouvernement du Canada par les non-résidents.

Transferts courants des non-résidents aux particuliers. Pensions payées par des gouvernements étrangers à des résidents canadiens plus versements par des non-résidents à des résidents canadiens.

Transferts courants des particuliers aux non-résidents. Versements par des résidents canadiens (notamment par des organisations religieuses ou charitables) à des nonrésidents et retenues fiscales versées à l'étranger.

Transferts courants des particuliers aux sociétés. La partie "transfert" des intérêts sur la dette de consommation.

Transferts courants des particuliers et entreprises individuelles aux administrations. Impôts sur le revenu, cotisations aux régimes d'assurance sociale et autres transferts courants.

Transferts courants des sociétés aux particuliers. Dons de charité et autres contributions.

Transferts de capitaux. Transferts en argent ou en nature, provenant de la richesse du donateur (successions et capitaux des migrants, transfert de la propriété d'un actif ou annulation d'une dette) ou transferts que le bénéficiaire est censé utiliser pour acquérir un actif. Les transferts de capitaux sont sans effet sur l'épargne du donateur ou du bénéficiaire.

Transferts nets de capitaux. Transferts de capitaux provenant d'autres secteurs moins transferts de capitaux aux autres secteurs.

Valeur nette des successions et des capitaux des migrants. Fonds apportés au Canada par les immigrants, moins ceux transférés hors du pays par les émigrants.

Ventes de biens et services par les administrations. Revenus tirés de la vente de biens et services, tels frais d'aqueduc, droits d'atterrissage et frais exigés pour les documents gouvernementaux.

Do You Suffer from Information Overload?

The amount of information available to people whose jobs depend on educated decision-making has exploded. The truth is that making decisions with too much information can be even harder than making them with too little!

We Have a Cure!

Every Friday, Statistics Canada releases Infomat, our highly informative weekly review that sums up our major socio-economic reports, surveys and product releases. In only 10 pages, Infomat presents key information in short articles with easy-to-read charts and tables about:

- trade
- transportation
- consumer prices
- · travel and tourism

- manufacturing
- · retailing and wholesaling
- employment
- finance
- · and much more
- le commerce • le commerce de gros et de détail
 - les prix à la consommation

des tableaux faciles à consulter sur :

principaux rapports, enquêtes et produits de données

par semaine avec Infomat

socioéconomiques. En 10 pages seulement, Infomat présente de

l'information clé dans de <u>courts articles</u> comportant des <u>graphiques</u> et

Investissez 10 minutes de votre temps

toujours précis et à jour! En une dizaine de minutes seulement, vous

Infomat est accessible chaque semaine sur le site Web de Statistique Canada (n° 11-002-XIF au catalogue) et en version imprimée

Infomat en direct! Procurez-vous la version Internet pour 109 \$ par

année (plus taxes, s'il y a lieu) à www.statcan.ca/egi-bin/downpub/subscribe.cgi/;f_?catno=11-002-XIF

L'information que vous procure Infomat n'est pas remaniée ou maquillée. On vous donne les faits tels quels, parfois étonnants, mais

serez en mesure de bien comprendre les changements sociaux et

(n° 11-002-XPF au catalogue). Téléchargez-le vous-même chaque

vendredi ou demandez-nous de vous l'expédier. À vous de choisir!

- le PIB
- · les voyages et le tourisme

économiques du Canada.

- la fabrication
- le transport
- l'emploi

Vous souffrez d'infobésité?

Aujourd'hui, la quantité d'information offerte aux personnes qui doivent prendre des décisions éclairées dans leur travail est tout simplement

phénoménale. Une surabondance d'information

peut rendre la prise de décisions encore plus

difficile qu'une carence en information!

Nous avons l'antidote!

Le vendredi, Statistique Canada publie

Infomat, notre bulletin hebdomadaire hautement informatif où sont résumés nos

- la finance
- et plus encore

Invest just 10 minutes a week with Infomat

When you get information from Infomat, it hasn't been manipulated or massaged. It gives you the straight facts-sometimes surprising, always precise and up-to-date! In about 10 minutes, you can gain a precise understanding of the latest social and economic developments in Canada.

Infomat is available every week on the Statistics Canada Web site (Catalogue No. 11-002-XIE) and in paper (Catalogue No. 11-002-XPE). Download it yourself every Friday, or have us send it to you—the choice is yours!

Unzip Infomat on line! The Internet version is available for \$109 per year (plus taxes, where applicable) at www.statcan.ca/cgi-bin/downpub/subscribe.cgi?catno=11-002-XIE

Save 20% on a 2-year subscription or 30% on a 3-year subscription

There are 5 easy ways to order the print version of Infomat (\$145 per year). In Canada, please add either GST and applicable PST or HST. Shipping charges: No shipping charges for delivery in Canada. For shipments to the United States, please add \$300. For shipments to other countries, please add \$500.

Federal Government Departments and Agencies must include their IS Organization Code and IS Reference Code with all orders.

Bypass information overload with Infomat! Subscribe today. Visit our Web site: www.statcan.ca

Les ministères et organismes fédéraux doivent fournir leur code d'organisme RI et leur code de référence RI avec chaque commande.

Remédiez à l'infobésité avec Infomat! Abonnez-vous dès aujourd'hui. Visitez notre site Web: www.statcan.ca

What class of business are you in?

NAICS Canada 1997...

an indispensable reference tool for understanding the burgeoning economies of Canada, the United States and Mexico!

onitoring business and economic activity just got simpler! The *North American Industry Classification System (NAICS) Canada 1997*, replaces the 1980 Standard Industrial Classification (SIC) system. *NAICS Canada 1997* identifies many new industries and categories. Now, you can access up-to-date information on the growth and diversification of economic activity in recent decades.

Whatever business you are in, chances are you'll want to get your hands on this **ground-breaking** tool! *NAICS Canada* 1997 provides, **for the first time**, a common framework for the collection of comparable production data for NAFTA's three trade partners ... making it easier than ever to compare financial and economic statistics between Canada, the United States and Mexico!

What's more, you can get the information you need in the format you want: *NAICS Canada 1997* is available both in a durable hardcover book and on CD-ROM. The portable-size manual, with its detailed index, makes a handy desktop reference while the user-friendly CD-ROM allows you to access comprehensive industry information quickly and easily.

NAICS Canada 1997 is indispensable for all suppliers and users of economic data in industry, business, governments, banks, trade associations, academia, research and elsewhere. Use this first-of-its-kind resource to make more informed business and policy decisions and to enhance your professional productivity!

NAICS Canada 1997 . . .

- allows every business to see precisely to which industry it belongs ... essential for assessing business performance
- differentiates between
 - industries where all three countries produce common comparable data
 - industries unique to Canada
- recognizes the emergence of the new service economy, including the growing high tech industries as well as health care and social services
- identifies 921 industries in 20 sectors.

In an economy where change is a constant factor, **first class** information is essential to <u>your</u> success! Order your copy of *NAICS Canada* 1997 today!

À quelle classe votre entreprise appartient-elle?

SCIAN Canada 1997...

un outil de référence indispensable pour comprendre les économies florissantes du Canada, des États-Unis et du Mexique!

l est désormais plus facile de suivre l'activité commerciale et économique! Le Système de classification des industries de l'Amérique

du Nord (SCIAN) Canada 1997 remplace la Classification type des industries (CTI) de 1980. Le SCIAN Canada 1997 compte bon nombre de nouvelles classes et catégories. Vous pouvez maintenant avoir accès à des renseignements à jour sur la croissance et la diversification de l'activité économique au cours des dernières décennies.

Peu importe votre secteur d'activité, vous ne voudrez pas rater l'occasion de mettre la main sur cet outil **novateur!** Le *SCIAN Canada 1997* offre, **pour la première fois**, un cadre commun de <u>collecte de données de production comparables pour les trois partenaires de l'ALÉNA</u>. Il est donc plus facile que jamais de comparer les statistiques financières et économiques du Canada, des États-Unis et du Mexique!

De plus, vous pouvez obtenir l'information que vous désirez dans le format de votre choix : le *SCIAN Canada 1997* est offert sous la forme d'un livre cartonné durable et sur CD-ROM. Le manuel de format pratique comprend un index détaillé et constitue un ouvrage de référence maniable, tandis que le CD-ROM convivial vous donne accès facilement et rapidement à des données complètes sur l'activité économique.

Le SCIAN Canada 1997 est un outil indispensable pour tous les fournisseurs et les utilisateurs de données économiques dans le secteur privé, les entreprises, les administrations publiques, les banques, les associations professionnelles, le milieu universitaire, le milieu de la recherche et d'autres secteurs d'activité. Utilisez cet outil innovateur pour prendre des décisions plus éclairées en matière de gestion ou d'orientation et pour accroître votre productivité professionnelle!

SCIAN Canada 1997 . . .
